Address all correspondence to the Town Clerk

Your Ref: **NTC 16/03/19** Date: 25th March, 2019.

The Chairman,
Public Accounts Committee
Government Building,
Suva.

Attention: Mateo W Lagimiri (Mr)

Deputy Committee Clerk - Public Accounts

Dear Sir,

<u>Public Accounts Committee Response in reference to Annual Audit 2013</u>

Brief Background

- 1. On behalf of the Nausori Town Council, I have pleasure in submitting response to the Public Accounts Committee in reference to Annual Account Audit 2013.
- 2. Nausori Town Council takes this opportunity to thank the Public Accounts Committee for the opportunity given in responding to the Annual Audit 2013 report.
- 3. Response has been prepared in consultation with the finance and the management of the Council.
- 4. Response prepared is as per questions sent to the Council on Wednesday, 19th March, 2019.

Response to Query One -

Explain why the Council has been issued with a Disclaimer of Opinion and how has the Council addressed the individual issues raised in the Disclaimer of Opinion?

- 5. 2013 saw Nausori Town Council transit from accrual to small medium based international financial reporting system.
 - Council was adamant to transit and wanted to make a start and ensure that the financial system was fully compliant with international financial reporting system over the short term.
- 6. The Auditor General had placed disclaimer of opinion as follows:

 a. Reconciliation of Bank Accounts – Council has been performing regular reconciliations of all activity bank accounts [in operation] and reports discussed in the finance standing committee meeting.

The three accounts that the office of the Auditor General Office has reporting upon on not being reconciled are the Garbage, Vehicle and Labor fund account.

These fund accounts were created during the elected Councilors days and the balances as per book are below two thousand five hundred dollars [\$2500] with no deposits or withdrawals made after 2009.

Council has decided to close these accounts during 2014 and the finance team shall discuss the same during next external audit exercise.

Currently, Council reconciles monthly bank accounts and reports are presented in the Council meeting.

In addition, as per audit, all bank certificates for all bank accounts at the end of financial year are produced to the Auditor General office.

b. Trade Receivables – Trade receivables for the Council have had some reconciliation challenges.

This is due to figures improperly reconciled pre 2010. An internal audit carried out by Special Administrator Late Napolioni Masirewa in 2010 saw mismanagement of subsidiary debtors account.

Records revealed that cash used to be collected, however, not banked by officers. Records further revealed that the Council finance team had a network in place on the subject.

Immediate changes and reforms were introduced which as usual saw leaders character assassinations publicly by staffs disciplined.

Fiji Independent Commission against Corruption has charged two staffs with one sentenced. Senior Rates Officer has been terminated by the Council. Council planned to commence subsidiary reconciliations over a three years period given that external stakeholders such as ratepayers were involved.

In addition, the software in which rates information had been stored crashed in 2010. Council has reconciled debtors and from 2014 has updated subsidiary and general debtor's ledger monthly.

c. Trade Payables- A detailed analysis of trade payables is prepared monthly showing orders issued, movement during month and balances to supplier's details. Records are kept intact for years where audit is yet to be carried out.

d. Assets Management – Council has had last asset valuation carried out in 2012 and this year valuation shall be carried out to upgrade financial records.

Our analysis shows that the Council assets stood at an estimated value of \$5m in 2008 and today stands at an estimated \$35m [Land and Buildings].

Council management is of the opinion that the disclaimer audit opinion will be positively looked into during the next audit exercise by the Office of the Auditor General.

Response to Query Two -

Why have the rates and fees decreased in 2013 when the municipal/town area has increased? Why the Council was operating expenses increased when there is a significant reduction in rates revenue?

- 7. The number of ratepayers remained the same as that of 2008. In 2008 Naulu/Nakasi was shifted under Nausori Town Council.
 - Council commenced standard service delivery in the extended areas from 2011. Yearly community meeting has been organized for the area and ratepayers and citizens informed on the projected income and expenditure and services proposed for the area.
- 8. The audit report reflects rates figure decreasing during the year 2013. Though, Nausori Town Council levies the lowest rates, collection has remained uniform over the years.
 - Nausori Town Council discussed the stated amount with the audit team leader carrying out audit and the person was adamant that the figure stated was the right figure to be reflected.
- 9. Local Government Act-Section 78 [2] states that "any rates which are overdue shall bear an interest rate and such interest charged shall be included in the expression "rates"....".
 - In this context, legally there is nothing such as rates in arrears and based on this context statue bar limit does not apply in rates meaning rates can be collected from a property even after 6 years.
- 10. Local Government Act section 80 allows Councils to consider write offs [bad debts] however not doubtful debts.
- 11. Auditor General Office is of the view that rates, as per financial standards, shall have rates reflected as revenue as per total invoices generated for the year and the need to create a doubtful debt to ensure that accrued revenue figure is kept conservative.
- 12. During audit 2013, team leader for audit was informed that Council has been reflecting actual rates collected per year as rates income.

The placement of total rates as per invoice generated shows previous years rates too which legally is defined as rates for the year.

This would mean an overstatement. Doubtful debt is not supported by Council as it is felt that a window of opportunity is created to write off possible public revenue.

13. Team Leader audit was supplied information showing that Council collected during the year \$.456,785 rates, rates charged for the current year was \$794,533.27, and rates collected from rates levied for the year was \$962,695.41.

Current Rates \$576,100.74 Arrears in Rates \$386,594.67

Team leader audit preferred to place in rates incomes as rates collected from rates invoiced for the current year which is \$576,100.74. Balance of the rates collected had been transferred under accounts receivable journal adjustment.

Council is of the opinion that the rates figure used by the team leader audit is an understatement.

14. The Council Special Administrator decided to introduce during the year a Human Resource Manager position, Clerk of Works position for the Inter Transport Project and upgrade the financial position of the Treasurer to Manager Finance.

The positions had an impact on operational increase. Reason for the Human Resource Manager Position creation had been to increase speed of reform in within the system and today out of 36 staffs only two staffs remain permanent.

Clerk of Works position had been established to support the Market/Bus Stand relocation. The reason for upgrading the finance head position had been to ensure that the financial management was strengthened upon to support asset additions and extended work scope.

- 15. Following restructure in 2014, Human Resource Manager Position has been scrapped and position duties divided in between administration and finance. The clerk of works position has come to an end in 2015.
- 16. The roads adjustment had been suggested by the Council to the team leader audit to be placed as an extraordinary item.

The reason for this is that it is a "one-off" and has been in regards to removing road assets from Council asset register as the same had been transferred to Fiji Roads Authority.

Council is thankful to the Government for the transfer as Council did not have the capacity and resources to maintain road assets under its register to citizens desired level.

Council is of the opinion that rates understated figure and the transfer of road assets shown as a normal expenditure has reflected a heavy loss.

Response to Query Three - Was the write-off amounting to \$433,211 properly approved and accounted for? Please explain.

- 17. In fact, Council did not carry out any write off as mentioned in the report. The \$433, 211 refers to road assets transferred to Fiji Roads Authority given that Council did not have the ability to maintain and upkeep to required standards. Government decided to assist in this area in 2013.
 - Councils in Fiji transferred all Municipal road assets to Fiji Roads Authority. As earlier informed, we had requested the team leader to classify this as an extraordinary item.
- 18. Nausori Town Council had carried out a valuation of all land and buildings in 2012 and no property [land and building] has been disposed or sold by the Council since 2008.

Response to Query 4 -

Weak System for Financial Reporting. What Computerized accounting system is Nausori Town Council using for its financial Reporting?

19. Nausori Town Council is part of a digitalized platform exercise currently on going for the Suva – Nausori corridor.

The recent ADB funded KPMG report notes that Suva City and Nausori Town Council electronic systems are at medium level.

The two Councils financial system has been classed above Lami and Nasinu Town Council.

Policy for 100% transformation has been prepared and work to progress shall be discussed soon in between the four Councils.

20. Council uses software programs to generate electronic receipts and the receipts are automatically upgraded in within the system.

Rates information is now verified and shall see full automation in place from 2019. Payroll is 100% automated. Invoices are all electronically generated.

Procurements and accounts preparation shall be 100% automated from 2019 using MYOB and a combination of other software.

Councils 100% automation exercise has been decided to be a gradual exercise to ensure that migration process does not pose a risk of financial information being tempered or lost.

The notion that Council financial system is 100% manual is incorrect.

Response to Query 5 -

No Supporting Documents Provided for Capital Grant.

What are the conditions of the grant totaling \$1,304,330 received from Ministry of Local Government?

21. Our reference with Ministry of Local Government shows that prior to 2014 Ministry did not prepare memorandum of agreement.

Memorandum of agreement in between Municipal Councils and Ministry of Local Government commenced from 2014 when Government commenced investing heavily in Municipal Councils.

22. Records further show that this was first Government grant in history to be given to a Municipal for the construction of Municipal asset in excess of \$1m.

The grant was for the purpose to support Market and Bus Stand Relocation project and 2013 acquittals have been submitted to Ministry of Local Government in 2014 which lead to the second batch release in 2014 of \$1.5m.

Response to Query 6 -Absence of Contract Agreement How many tenancy agreements does the Council have?

23. Council has in place the following tenancy agreements:

No	TENANTS	Rent (\$)
1	SANIZ FASHION (2)	1,149.95
2	GRANTS WATERHOUSE	626.75
3	LOVERS POINT	1,150.00
4	BRIDGE NIGHTCLUB	1,937.76
5	DR. REDDY	501.39
6	TEBARA HOTBREAD	626.74
7	YUMMY MEALS	629.77
8	BANK OF BARODA	3,501.64
9	DEOJI FOOTWEAR	1,389.73
10	SANIZ FASHION	678.21
11	DELTA TIMBER	2,067.92
12	BSP	5,320.36
13	DELTA TAKEAWAY	485.25
14	FNPF	2,067.92
15	JENNICE TAKEAWAY	300.00
16	FONG FRIES (HANS BROTHERS)	1,700.38
17	MAHENDRA SINGH - GOLOKA VEG	1,700.38
18	TEE TOTOKA CAFÉ	1,700.38
19	Pacifica Bakery	1,650.00
20	Khanz Holdings Limited	2,653.91
21	Smart Home Land	1,744.00
22	Westpac ATM	1,137.39

23	Hemals milk bar	500.00
24	Movie World	500.00
25	Coastal Supplies	500.00
26	YASH MILK BAR	500.00
27	Hibiscus Bula Investment	500.00
28	PUSH TAILEVU	500.00
29	SAM'S RECHARGE, ACCESSORY	500.00
30	JALARAM STORE - NAVIN LAL	500.00
31	A Arush Fashions	500.00
32	Lakoyani-Vou-Womens Club	700.00
33	Lela's Pure Perfume	500.00
34	INDIAN STYLE - PRADEEP CHAND	700.00
35	LAL'S MILK BAR	700.00
36	Tea Totoka	500.00
37	ALAFZ SHOES & BAG REPAIR	500.00
38	LU SHAN	500.00
39	GULAMS MILK BAR	500.00
40	STATION BOOKSHOP	550.00
4	VALLABHAI	500.00
42	pari's ice cream	500.00
43	KESHNI'S TAKEWAYS	500.00
44	Bula Studio	550.00
45	JOES CAKE	500.00
46	shamaailah's shop	500.00
47	Estol Holdings Ltd (K R Latchan)	500.00
48	Go Daddy- Zulfikar Ali	500.00
49	Aron's mini mart	500.00
50	Tacirua Transport	500.00
51	Island Buses	500.00
52	Sunbeam Transport	500.00
53	Jerry's Refreshment Bar	500.00
54	Hirday & sons	500.00
55	Tipsy Scoops	650.00

Response to Query 7 -Payroll-Does the Council have a payroll software in-house to address this issue?

24. Council has a payroll software in place which processes pay and reconciles payroll. Council shifted to electronic payroll in 2011 and had the system fully automated from 2014.

Response to Query 8 - Anomalies in Procurement of Goods and Services

Can the Committee get an update on the 3 audit anomalies in the procurement of Goods and Services?

25. The team leader audit was informed that the Council follows the approved manual of accounts. In reference to tender amount, attention is drawn page 99 item 6 Tender Procedure first paragraph where it is stated that "Once it becomes apparent or is determined that supply of a particular item of stores or services will exceed a certain limit approved by the Council (\$10,000 is reasonable amount in the present circumstance), a contract for the year or specific supply should be considered.

The team leader was informed that this section refers to stores supply meaning regular purchase of materials and services. Council has been establishing approved limits for general tender.

On the subject of Construction works and services, part 17.3 page 59 paragraph one allows the Council to decide on the system to procure goods.

It suggests systems that may be suitable, however, leaves it to the Council to decide on way forward to purchase. In the instance of borehole construction and pump establishment, Council had carried out the following:

- I. Engagement of Lautoka City Council engineering team to design borehole specification and advise Council on options available in within the Market given that the Council engineering team was the only Council in Fiji having knowledge and experience on such works through relevant upgrade of Churchill Park.
- II. Justification by the team given to Council on the need to have borehole system for water supply has been that the ground base would need 20,000 liters water spray per day via underground sprinklers placed and the cost of water bill will be high which will be borne by the Council.
- III. Recommendation was made to the Council team that the subject supplier be given the job which included:

a. Water source determination and bore holed digging - \$9,800.00 VEP

b. Supply of pump and fitting - \$5,200.00 VEP

The subject procurement was based on recommendation and relevant check in the market noting the limited supply of such service.

IV. Council for normal supplies always calls for tender and from 2016 Ministry of Local Government has instructed that all procurements above \$10,000 to be decided via Public tenders subject to waiver by Ministry of Local Government and before awarding the relevant procurement be submitted to Permanent Secretary for concurrence/consent.

Guideline for tender has been provided by the Ministry of Local Government and Ministry only reviews the processes taken to recommend/approve supplier before being awarded.

V. On the issue of the termination of Solid Waste Management Services contract, Council had no option given that the contractor was unable to provide the subject service and ratepayers were complaining.

Reports were received and Council decided to terminate the contract and engage a contractor on short term in which public tenders were called.

The termination and engagement decision was taken by the Council in a short spell given that the product is classified as an essential service.

Response to Query 10 - What is the current valuation of Ratu Cakobau Park after renovation? Are there any plans to upgrade the old Nausori Market and Bus Stand?

26. Manual of Accounts page 62, Capital Expenditure definition, paragraph 6 states that "Expenses incurred in repairs and renewals merely to restore an asset to its original form should not be classed as capital expenditure".

Ratu Cakobau Park had been condemned by relevant authorities for use in 2007 which resulted Council unable to host major tournaments.

Pavilion and ground condition were two key areas of concern. Reason for the poor condition had been Councils inability to inject funds in renovation.

From 2010, Council decided to inject funds at the Park and over 7 years has invested heavily as follows:

- a. Structural upgrade \$120,000 in 2010
- b. Pavilion seating and light upgrade in 2011 \$110,000
- c. Ground Upgrade including underground sprinkler set up in 2012 and 2013 \$190,000
- d. Public Convenience Upgrade in 2017 \$50,000

Council has invested from operating revenue the repairs and maintenance and it has been reflected under operation expenses in line with Manual of accounts.

Public Convenience upgrade has been funded by Government. Ministry has further allocated funds to upgrade both pavilions in this year's budget.

27. The upgrade of the Ratu Cakobau Park has seen an increase in the number of soccer tournaments and rugby games the ground is attracting.

Every year continuously, apart from 2013, Council has been hosting a major soccer tournament. The value of the ground certainly has gone up and new value shall be determined during valuation process 2019.

Valuation carried out in 2012 showed that the Park had a value of \$2.3m.

28. Council has rezoned the municipal market site as commercial site and has been able to renew state lease for further 99 years in 2016.

Lease remaining prior to 2015 was 58 years civic lease. Council is interested to have a Private Public Partnership arrangement to develop the site and Ministry of Local Government has been last week dispatched with relevant papers for decision to be made on an earlier PPP arrangement agreed.

Council has been able to acquire Civic lease over car park area adjacent to old market site for remaining number of 48 years.

29. The old bus stand site was under a temporary at will [reviewed every year] with Council paying \$24,000 annually to ILTB from 2000.

Landowners had informed Council that it intended to use the place for other purpose and requested Council to relocate Bus Stand at the earliest.

Current site of Market and Bus Stand is a state land with 99 years lease effective 2013. Landowners have entered into partnership with a foreign company to develop the old bus stand site.

Thank you Very much.

Yours faithfully,

Deo Narayan

Acting Chief Executive Officer.

Suva.

Dear Sir,

RE: PAC Request: Supplementary Response: Nausori Town Council (Report of OAG - Audit Report on Municipal Council for 2013 (PP No. 135 of 2018).

Reference is made to the above captioned subject.

Submitted herewith please find the following documents as per request.

- 1) Fixed assets as at 31st of December, 2013.
- 2) Fixed assets as at 31st of December, 2018

Please note that the council is going for its property valuation this year (2019).

3) Trade receivables listing as at 31st December, 2013.

I hope the information provided meets your committee's request.

Forwarded for your necessary deliberations

Thanking you.

Yours faithfully

<u>Deo Narayan,</u> Acting Chief Executive Officer

Сс

The Secretary.

PUBLIC ACCOUNTS COMMITTEE

Audit Report on Municipal Councils for the year 2013 QUESTION & ANSWERS

Rakiraki Town Council

Q 1: Explain why the Council has been issued with a Disclaimer of Opinion?

Ans: Rakiraki Town was proclaimed as a Town in 1st July, 2010. Council commenced activities including transfer of assets and book maintenance using cash basis of accounting. Accrual system was introduced from 2013. In 2016 Council strengthened financial management via appointing a full time accountant and with the support of Ministry of Local Government and Sigatoka Town Council, Council is confident that the annual accounts from 2017 will not have disclaimer of Opinion given that we are fully following international requirements for financial reporting, small to medium enterprise.

Q 2: Please explain the significant increase in miscellaneous expense and non-receipt of government grant in 2013.

Ans: Increase in miscellaneous accounts expense in 2013 has been due to limited chart of accounts expenditure used during the year. This has been upgraded in year 2016 and expenses account defined and classified. Government grant was not receipted as it was a Government Grant directly deposited in a special grant account. The grant is not a recurrent revenue [refer page 29- of Manual of Accounts on Government Grant]. The fund was released for market construction and acknowledgement including timely acquittals has been furnished to the Ministry of Local Government.

Q 3: How does the Council fund its operations when the expenditure exceeds its revenue by \$213,464?

Ans: The deficit shown during 2013 was due to market project in progress factored under expenditure with funds received in 2012. The treatment of capital grant as receivable in year 2012 and treatment of expenses over two years has created a deficit in year 2013. Council has been financially progressing well and with the completion of the market complex, Council shall be having good financial income base. Councils major expense has been cleaning of town centers after flood with 12 floods recorded last year. Worst financial for the Council was 2016 after Cyclone

Winston and through Ministry of Local Government support we were able to sustain loss.

Q 4: Is there any periodic notification made to rate payers regarding their outstanding rates? (Is it done monthly, quarterly or yearly?) Please explain.

Ans: Yes, notifications are made by phone calls, distributions of notices to rate payers, house to house visit by Rates Ranger/ Rates Officer and we also have quarterly rate payers meeting.

During the meeting, rate payers usually gives their views on the service which council is providing and the reason they not paying their rates frequently. The service which they want includes: Street Lights, Proper drainage facility, Tar seal Road, & River Dredging whereby in 2013, council didn't had enough funds to provide proper service to rate payers but this is improving from 2017 and onwards as council is recovering and also Ministry is assisting us with grants for proper drainage and other capital projects.

Other Significant Matters

Q 5: 6.5.2.1 – Proper Accounting System not employed What is the current update on the appropriations of general ledger system?

Ans: Maintaining of the vital accounting records are being stored properly with major improvements from 2016. The accounting system such as cash receipts and cash payment Journals are being followed accurately, and timely basis as detailed General Ledger, General Journal and Trial Balance are being prepared. The Chief Executive Officer checks and verifies the monthly report and reconciliations which are performed by the council. Council is working closely with Ministry of Local Government in getting staffs of the Council enrolled in short term financial courses relevant to international financial reporting standards of small to medium.

Q 6: 6.5.2.2 - Weak Controls over Banking

What is the latest bank reconciliation conducted? How timely has the bank reconciliation been prepared by the Council?

Ans: This is being practiced and from 2016 monthly as total receipts and payments as per the cash receipts and payment journal is reconciled to the deposits and payments made as per cash book reconciliation.

Preparation of daily banking summary is carried out and it is properly checked and signed by the chief executive officer.

The monthly bank reconciliation is also prepared, verified and signed by the chief executive officer.

The latest bank reconciliation conducted was for the month of February 2019.

Q 7: 6.5.2.3 – Interest not charged on Outstanding Rates What processes are in place before instituting interest rates charged on overdue rates?

Ans: This is now being followed and closely monitored by the management as well

as Ministry of Local Government.

The interest is charged on outstanding rates by 11%. In regards to outstanding rates, the Rates Officer calls the rate payers and reminds them for the installment payments. The reminder is given every fortnight but if still they do not turn up then she issues with demand notice for outstanding rates for them to come to office and make some arrangement to do the payments. This was done on 18/02/19. After that the 100% waiver of interest on outstanding rates have introduced by the Ministry. The notices are issued to all defaulters in regards to the waiver of interest but once they will fully clear their outstanding's before 31^{st} August, 2019. So far three of them cleared their arrears. Others are still followed by the Rates Officer.

Q 8: 6.5.2.4 – Proper Records not maintained for business licenses Does the Council conduct reconciliation for business license issued against those that are operating in the town area?

Ans: This practice has being improved and from 2016, a list of all businesses are maintained perfectly as all business houses have their own folders where all documents are kept manually and the listings are also updated in the system to avoid risk on the payments made by the customers.

As the Business License invoice is issued, the business houses are given 3 months to clear their License i.e. From January - March. The ones not paid before March, is taken as debtors, then our Enforcements/ Business License Officer in charge goes out business to business for follow ups and at the same time they conduct reconciliations. Our Business License officer together with Enforcement officers keeps track on the Business Houses Daily.

*Q 9: 6.5.2.5 – Accrual Accounting System not Practiced*What is the update on the Accrual Accounting System and what system is the Council using?

Ans: This practiced has been corrected from 2015. The financial reporting system has much improved and the accounts are prepared in a full accrual accounting systems.

OUR REF: 25-2019

25th March, 2019

Mr. Joseph Nand Honorable Deputy Chairperson Standing Committee on public accounts Suva.

Dear Sir,

RE: Response for 2013 Public Accounts Committee Hearing

With reference to the above, enclosed are the answers based on the questions of the audit report for year 2013.

For further information, you can contact the undersigned.

Thank you

Mr. Tulsi Ram

Acting Chief Executive Officer

PUBLIC ACCOUNTS COMMITTEE

Audit Report on Municipal Councils for the year 2013 QUESTIONS

Lautoka City Council

(1) Provide the breakdown of rate payers in Lautoka i.e. Residential, Business, Commercial, etc.

Residential — 7,288 ratepayers Commercial — 356 ratepayers Industrial — 376 ratepayers Civic — 86 ratepayers Special Use — 55 ratepayers Agriculture — 2 ratepayers

(2) Explain why the Council has been issued with a modified audit opinion?

Lautoka City Council has been issued a modified audit opinion because

Auditor General found that adjustments didn't have supporting

documents to substantiate the adjustments and they also found un

reconciled variances.

(3) Please provide the details of Other Revenue totaling - \$2,112,018 that is provided for in Table 4 – Abridged Financial Statement and Analysis?

Other Revenue includes:

Amortisation of Capital Grant - \$93,727 Premium on Sub Lease of Land - \$408,000 Interest - 214,694 Other Income - 1,395,597

(4) Please provide the details of Finance Costs - \$393,525 that is provided for in Table 4 – Abridged Financial Statement and Analysis?

Finance Costs of \$ 393,525 is the Interest paid

(5) Please explain why weren't there any provision for doubtful debts since receivable is amounting to \$6,037,212 and Term Deposit of \$1,481,120?

Lautoka City Council didn't have doubtful debt provision policy in 2013. Local Government Act Cap 125 does not legally state such provisions. The act allows write offs on cases of hardship and this is treated as bad debts. The act allows rates to be accumulated over years and is a first charge on land, hence, creating doubtful debts may not be a good policy. Lautoka City Council is working closely with ratepayers during this amnesty program in reducing rates in arrears.

(6) What were the conditions of the transfer of roads, drainage and footpaths to Fiji

Roads Authority (**'FRA'**) especially when Parking Meter Funds are still collected by the Council?

Municipal Councils and Fiji Roads Authority met over the proposal and given that road maintenance and upkeep was a high cost to ratepayers, Fiji Roads Authority took over the asset. This has assisted and benefitted ratepayers over Lautoka. Gazzetted Parking meter stands are managed by Lautoka City Council as it is zoned as City Car Parking Space. The purpose of Parking Meter is to control parking in within Towns. Minimum is levied for the purpose to support administration and operation.

(7) Please explain why there has been an increase in Creditors and Borrowings from \$795,074 to \$2,586,577?

There was an increase in Capital Works, repairs to council properties due to cyclone and prepayments of \$885,159. Council to heavily invest in upgrading properties during the year.

Other Significant Matters

(8) 6.5.1.1 – Duties of Staffs not Separated

How has the Council addressed the issue of receipting, banking and entering transactions into the Cash Book?

Lautoka City Council has implemented separation of duties, cashier's work is been reviewed and checked by an independent authorized officer and banking is done by a separate officer.

(9) 6.5.1.2 – Bank Reconciliation

Has the reconciliation been prepared for the Savings Account amounting to \$3,113,962 and provide an update on the MYOB software?

Yes reconciliation has been done. MYOB software has been implemented from 2014

(10) 6.5.1.3 – No basis for provision of doubtful debts

Why weren't there any provision for doubtful debts since the arrears are increasing?

Council is considering implementing write off policy based on hardship cases as allowed under the Local Government Act-Cap 125 and recent paper submitted by the Ministry. Doubtful debts account creation in the area of rates collection is seen subjective.

(11) *6.5.1.4 – Arrears of Rates*

Please provide an update on the Council's Call Centre and how effective is this service in collecting default rate payers?

Council's Call Centre is very effective and assisted Council in recovering arrears as follows:

2017 - \$247,753.11

2018 - \$285,837.16

2019 - 72,489.15

(12) *6.5.1.5 – Procurement of Goods and Services*

What is the Council's policy on acquiring competitive quotes and advise why there wasn't any supporting evidence to justify these transactions listed on Table 12: Procurement without quotations.

Lautoka City Council has been following Manual of Accounts. Number of Quotes to be taken and the minimum and maximum amount for which quotes to be taken and call for public tenders (minimum amount) on stores and services has been yearly discussed and approved by Council during budget session. Procurement of capital construction material and services have been in line with the manual of account and Council determines process as required under the manual of account during construction planning exercise.

PUBLIC ACCOUNTS COMMITTEE SUPPLEMENTARY RESPONSE

Question:

6.5.1.4 Arrears of Rates

The Committee was informed with the description of the different sort of rates that the Council has, please provide a breakdown by age (age of debtors) so the Committee knows that the bulk of this is owing by residential ratepayers as well as the business ratepayers. Also, please advise how well has LCC treated the business ratepayers?

Response:

For explanation on how well we treat business ratepayers, the council treat all ratepayers the same where time is given for installment payments on cases where they are facing financial difficulties. The same goes to the business ratepayers as well. But Normally they pay up on the given time frame.

Also attached please find the a breakdown by age debtors listings

Question:

6.5.1.5 Procurement of Goods and Services.

Please provide an explanation as to the reasons why the Council did not provide any supporting documents to substantiate the adjustments as well as the reasons why the reconciliation was not carried out at the time of the audit was conducted.

Response:

Due to changing of Manager Finance over the years, different Managers had different way of preparing accounts. The 2013 accounts was prepared by than Manager Finance Mr Koro Kama but when the audit team came to audit the accounts than that time Mr Kama had resigned and quires were answered by Acting Manager Finance Miss Diksha . Miss Diksha had no idea how the accounts were prepared and how was the figures were allocated.

Due to this Lautoka City Council was not able to provide any supporting documents and reconciliation of accounts.

PUBLIC ACCOUNTS COMMITTEE

Audit Report on Municipal Councils for the year 2013 **QUESTIONS**

Nadi Town Council

(1) Has Nadi Town been declared as a City? No.

The Council is working towards declaring Nadi the 3^{rd} City of Fiji .The committee has been formed to prepare the town for the Declaration. A tentative date for the declaration has been sets on the 9^{th} to 10^{th} August 2019.

- (2) Explain why the Council has been issued with a modified audit opinion?
 - 1) The Council has been issued with a modified audit opinion means that the financial statement needs to be transparent and clear and therefore future amendments needs to be done, Having said that it means that all balances in the Financial Statement has to have evidence that the amounts is true with the correct values.

Emphasis of Matter

(3) Why wasn't the value of parking meters not been incorporated in the Statement of Financial Position as at 31 December 2013?

The value of the parking meters is included in the Statement of Financial Position reflected in PPE The parking meters was first installed in 1987 and has fully depreciated.

(4) Why isn't the Council maintaining a separate cash book to record all receipts and disbursements in relation to parking meter operations? Has this issue been resolved?

The Council is now maintaining a separate cash book with a separate bank account to record all parking meter receipts and disbursements and also performs monthly bank reconciliations for the parking meter account.

Other Significant Matters

(5) 6.5.4.1 – Absence of segregation of duties in the Finance Section

Who is now tasked to undertake the receipting and accounting task for the Council? Provide Job Description of each position and what is the organization structure of the Council?

The Council has rectified this issue and has identified a Cashier with also a relieving Cashier who are only tasked to receipting.

The Accounting tasks are being handled by the Accountant.

Attach the Cashier JD & Accountant JD

(6) 6.5.4.2 – Discrepancies in cash and bank reconciliation

What is the latest Bank Reconciliation performed by the Council and whether the variances identified in the audit (\$91,194) has been rectified? Explain why \$6,370.91 was not banked at balance date? When was this banked? How has the Council accounted \$4,158.07 for these payments which were considered as stale cheques?

Council has undertaken full reconciliations and has reconciled the Cash & Cash equivalents. As a result there are now no recorded variances and the Council have no idea from where the Audit has picked this figure (\$91.194) The \$6,370.91 was not banked since there was malfunction in the Council safe and it was opened 9 months later. The Cash was \$3,613.60 and cheque was 2,757.31. The Cash amounting to 3613.60 was deposited and the cheque amounting to \$3,517.77 is yet to be rectified and we are working on it

(7) 6.5.4.3 – Lack of internal controls for Parking Meter Revenue

What internal controls are in place for the collection of parking meter revenue? Collection of revenue from the Parking Meters is always done by the two Technicians.

- 2) Internal Control taken to address the collection of Parking Meter Revenue.
 - Council has 2 different types of Parking Meters; Lollipop and the Pay & Display Parking meters.
 - For the Lollipop parking meters, all parking meters have a coin collection mechanism inserted in the meters so all coins inserted in the parking meters goes directly to the parking meter coin box which is locked and cannot be opened unless the coin collection trolley is used and this is utilised only on the counting days. Collections are done twice in the week which is Tuesday and Friday and at the end of the month if the days do not fall into the specific collection day.
 - For the Pay & Display parking meters, there is a coin box that is locked and the key is always locked in the till and only handed out when the coin box arrives to the office and ready for counting. The collection is done twice in a month which is the 15th and the end of the month. If the end of the month falls in the weekend, then Friday is the day for collection.
 - Now all counting is done in the presence of one Accounting personnel in the Main office, tallied and recorded in a separate register. This process started in 2014.

(8) 6.5.4.4 – Inadequate Supporting Documents for payments What is your policy and procedures for processing of payments? Please explain Table 14 and an update with proper evidences.

(9) 6.5.4.5 – No provision for doubtful debts taken up for rates debtors

Assessment No. 0098: Please explain what is the unimproved Capital Value on the rezoning of Agriculture? Assessment number 0098 Is a Council property and is zoned commercial B The Unimproved Value is \$1,142,000 it has never been zoned agricultural and where we are sitting now

Assessment No. 1189: Why did the Council resort to writing off the debt of \$43,597.53 through the line Ministry? Why weren't there any legal proceedings such as garnishee order not being instituted on outstanding rates?

Please provide an update on the issues highlighted in Table 15: Rate Payers with Significant Debtor Balance.

What is the position of the Ministry of Local Government with regards to these sorts of requests such as Write-Offs? Has the Council seek legal opinion on the collection of those outstanding rate arrears?

Assessment number 1189 is a native land and became unalienated in 1999 as such under section 59 (1) (c) not ratable for special rate. Section 60(1) (aa) The lot is not ratable for general rate. The said lot was released to another person and we are levying rates from 2013 till to date

Assessment 0098 the lot was wrongly levied General rates instead of special rates and this has been rectified.

1000- 296 resolved. The lot was zoned agricultural and later subdivided in to residential and commercial lots. Individual lots were rated individually and the Council errored in levying rates on this four lots and this has now being rectified.

The Council has the power in case of hardship with the approval of the Minister to write off the Town rates.

(10) 6.5.4.6 – Anomalies in property, plant and equipment (PPE)

How regular is the Board of Survey conducted? What is the Council's policy on BOS? What is Council's capitalization policy and how often does it conduct reconciliation of Property, Plant and Equipment with ledger accounts and Fixed Asset Schedule?

The Board of Survey is not regularly conducted and the Building & Properties Department is in charge of the exercise. The last Board of Survey was carried out in 2017 and next will be carried on the 2^{nd} quarter of 2019

- There is no current policy on Board of Survey
- The Council does not have a capitalization policy but merely records any purchases above \$500.
- No reconciliation has been done to match with the Fixed Asset Schedule except when a Board of Survey is conducted.

(11) *6.5.4.7 – Deferred Income*

What actually happened to the amount \$141,818? Why wasn't any documentary evidence provided to audit to substantiate this transfer?

The Council received grant from the government amounting to \$200,000 to address the drainage problem within the CBD. The Council utilized \$107,935 and the balance of \$92,065 still banked in Nadi Town Council bank account. The work has ceased because the matter is before the court

The Utilization was as below

Vendor	Amount		
Poly Tarde	\$	34,650	
Fiji Electricity Council	\$	27,301	
Jens Lamp & Light Works	\$	3,000	
Arrow Concrete	\$	21,000	
Arrow Concrete	\$	15,000	
Telecom	\$	6,984	
	\$	107,935	

(12) 6.5.4.8 – Variance between General Ledger and listing for business license income Has Council reconciled the variance of \$72,240? What control measures are in place?

The Council was without a fully devoted Licencing Officer from 2013. The Licencing Officer was recruited in June 2017 and the officer has been tasked to perform reconciliations to correctly ascertain the correct Business Licence subsidiary ledgers which then will be used to reconcile the General Ledger. This is the current status as to date

(13) 6.5.4.9 – Absence of Competitive Quotations What is the Council's policy on acquiring competitive quotes and advise why there wasn't any supporting evidence to justify these transactions listed on Table 17: Details of payments made without competitive quotations.
The Council always source 3 competitive quotes for all purchases except purchases done via the use of petty cash. We will ensure that documentation is attached in the next Audit.

Dear Sir

Re: Nadi Town Council Valuation

Reference is made to the above and your email dated 3rd May, 2019.

The Council would also like to thank the Public Accounts Committee for a very fruitful and informative discussion on 2013 Audit Accounts.

The last valuation was carried out in 2017 however the rating on 2017 valuation was not implemented due to some advertisement errors which is being rectified. We are hoping to implement the ratings on 2017 valuation from 2019. Therefore we are following the 2011 Valuations.

The value of the rateable properties as per 2011 valuation is \$138,060,092.00 and as per 2017 valuation is \$193,795,611.00. The valuation for the extended area is yet to be carried out.

Please refer to the attached letter from the Ministry for Local Government.

Yours faithfully

Robin K Ali

Dear Sir

RE: APPOINTMENT OF VALUERS

We make reference to your correspondence dated 24 April 2019 on the above subject matter.

Please be advised that the Department of Local Government is currently liaising with the Department of Lands on the charges schedule for the municipalities who are yet to carry out sexennial valuation. A meeting is also scheduled for next week with the Principal and Senior Valuers from Department of Lands for their necessary comments and the appointment of valuers.

Therefore, the Ministry will then revert to your request based on the outcome of this meeting.

For any further query, please contact the Department of Local Government.

Thank you.

Public Accounts Committee
Parliament Building
Suva.

Dear Sir,

Re: Audit Report on Municipal Councils for the Year 2013

We refer to the 2013 Municipal Audit report and acknowledge your office comments in key areas. Our response is as follows:

- 1. In reference to delay of the Financial Statements ('FS') by the Councils for auditing, improvements and actions taken to address the late submissions of the Financial Statements:
 - a. Municipal Councils had been requested to submit annual accounts audit to Permanent Secretary in March, 2016. Municipal Councils informed the status which showed a backlog. Discussions with Municipal Councils showed that Councils had been informed by Auditor General Office to switch annual accounts from accrual to either full international or small to medium in year 2013. Municipal Councils commenced transitional of annual statements and all draft annual accounts submitted to date to the office of the Auditor General are converted to international financial reporting standards. In addition, some Municipal Councils informed that the Councils had submitted draft annual accounts to the Office of the Auditor for external audit. Trend noted had been Council submitting one year draft annual accounts to the Auditor General and being finalized then the next years submitted with required prior year adjustments.
 - b. A meeting had been organized with the all heads of finance and the Managers from the Office of the Auditor General in March, 2016 to progress work on external audit. [Meeting minutes attached herein as Appendix1] Since then yearly finance managers meeting have been called to special meetings to discuss status and monthly updates are being taken. This has seen most Municipal Councils preparing backlog and submitting annual accounts for audit. [Status report is attached herein as Appendix 2]

- c. Last year the Ministry of Local Government organized a two days joint workshop with Office of the Auditor General and Municipal Councils Chief Executive Officers/Accountants to discuss audit. [Report is attached herein as Appendix 3].
- d. Records [attached herein as **appendix 4**] shows that the annual accounts submission for external audit has generally improved from 2016.
- 2. In reference to Local Government Act establishing a timeline for the submission of the Financial Statement by Municipal Councils and why wasn't the Ministry adhering to this Act:
 - a. Records at the Ministry of Local Government shows that in between 2011 to 2015 generation and submission of annual accounts have been slow rising to backlog. As informed earlier, Municipal Councils have informed that some backlog accounts were pending with office of the Auditor General. The other reason Municipal Councils have provided is that the requirement for transfer of annual accounts from accrual to international financial reporting standards required time.
 - b. From 2016, Ministry has been working very closely with the Municipal Councils and Auditor General office in having all accounts audited.
- 3. In reference to the role of the Department of Local Government in ensuring that all Municipal Council complies and submits the submission of Financial Statements on time for auditing, Ministry's monitoring mechanism for each Municipal Council, whether all municipalities are adopting the 'Manual of Accounts' for Municipalities and how is the Ministry enforcing this manual?
 - a. Administrative role of the Department of Local Government has been strengthened from 2016 in the area of financial management. This has seen Councils increase speed in preparing and submitting annual accounts for audit. Department of Local Government has had its own performance carried out in 2014 with a number of recommendations by the Auditor General office. Submission to Public Accounts Committee is attached herein marked appendix 5. One of the key recommendations by the Auditor General Office is to legally strengthen the office of the Director Local Government for more effective monitoring of Municipal Councils. In relation to the same, the terms of reference for Local Government Act Cap 125 review has included for consideration to provide legal powers to the Director Local Government office in relation to monitoring. Please find attached terms of reference marked appendix 6. Municipal Councils are monthly submitting financial reports for review and procurements above \$10,000 are vetted by the Ministry [process vetting] and consented to effective 2016. Councils are generally following to Manual of Accounts and Ministry has been strengthening decision making process to ensure transparent decision making is observed. The manual of account, at places, leaves decisions at discretion of the Council. For instance, the minimum purchase amount and type of purchase to call for public tender is at the discretion of the Municipal

Council. The manual of accounts suggests a ceiling amount of \$10,000, however, allows Council to make a decision on the amount required for calling 3 quotations and Public Tenders. This has been controlled from June, 2016 where all works above \$10,000 are to be called for Public tender and sent to Ministry for vetting [process vetting] before being awarded. A new manual of accounts has been prepared and is expected to be reviewed soon following public participation exercise. Please find attached manual of accounts draft attached herein as appendix 7. We have noted that the Auditor General office refers to international financial reporting standards which is more comprehensive than manual of accounts. The Ministry is enforcing manual via:

- a. Receiving monthly financial reports and reviewing.
- b. Follow up on audits and qualifications.
- c. Organizing annual meet with Auditor General office.
- d. Commenced visits to Municipal Councils effective December, 2018.
- e. Promoting Finance Managers attending relevant workshops to upgrade skills. Last year Councils finance managers attended International finance reporting standards workshop. Some Council management did not support this program.
- f. During the annual review of Councils CEO performance, this is part of assessment.
- **4.** In reference to the progress for all Municipalities adopting the cost-sharing arrangements between Municipalities for standard accounting reporting:

Councils have been promoted to establish systems to share resources for the purpose of report making. The finance managers across are at liberty to exchange information to strengthen reporting system. Labasa Town Council head of finance has been working closely with Savusavu Town Council in this area. Ba Town Council head of finance has been requested to work closely with Tavua Town Council in this area. Sigatoka Town Council head of finance has been assisting Rakiraki Town Council. The other Councils have been given requested to work with the available capacity to upgrade own Municipal Council accounts. Standard accounting reporting format is now available with all Municipal Councils. Some Municipal Councils have further been allowed to work with private chartered accounting firms to strengthen reporting standards which has been of major help.

5. In reference to the Department of Local Government advice on the type of internal controls instituted in each municipality and whether Municipalities are on par with the implementation of these controls to ensure timely and accurate detect of material misstatements.

The level of internal control in within Municipal Councils under the Manual of Account leaves it to the Chief Executive Officer of the Municipal Council to organize and carry out. The type and system of internal control depends on the size of the institution. All Councils have an inbuilt system for the purpose of procedural and financial management checks. Ministry of Local Government has been monitoring procurements since 2016 and ensuring that all procurements including staff promotion, recruitment, side transfers,

termination, suspension and any other human resource matters are checked by the Department and endorsed by the Permanent Secretary before action is taken. In addition, Ministry has been sending monitoring team to Municipal Councils to check performance of Municipal Councils. Ministry has from time to time received information on certain irregularities by senior management and based on initial investigation necessary action taken. Municipal Councils have been organizing regular financial meetings and reports tabled are discussed. Complaints in relation to good governance are taken seriously by Councils and investigated. The Council heads, Special Administrators and Chief Executive Officers pay and conditions of employment are managed by the Ministry of Local Government for the purpose of promoting good governance.

In the area of material misstatements, Councils use opening balances from previous years for opening balances which are audited figures. Bank certificates are taken are for the purpose of getting certified end of year bank balances. Accounts receivables and Payables are submitting in regular finance meetings for endorsement. Chief Executive Officers are to sign regular bank reconciliations and summary of accounts receivable and debtors. Councils land and building sales and purchase require the consent of the Ministry of Local Government. The risk of high material misstatement has been reduced over the years through internal and external controls.

6. In reference to Ministry ensuring that all rate payers pay on time and are there any incentives available:

Ministry of Local Government has been working closely with Municipal Councils in promoting the reduction of rates receivables. Free title search has been organized with Registrar office and rates collection policy designed and forwarded [attached herein as appendix 8]. Councils have been on average collecting 75% of yearly rates invoiced compared to 2008 when average collections were 52%. Ministry is looking forward at improving this to 80% above. A rates amnesty for residential ratepayers has been given this year for 7 months with all ratepayers in default being personally contacted by Municipal Councils. From April, 2019 media awareness will be made. Municipal Councils have requested for law amendment to strengthen rates collection process and this shall be part of the Local Government Act review exercise.

7. In reference to the Ministry working towards implementing the audit recommendations highlighted in the audit report:

Ministry is committed in strengthening financial management at all Municipal Councils. Councils are encouraged to support staff retention and skills upgrade programs in within Municipal Councils. Ministry is looking at implementing a number of policies, in addition to existing policies, such as Human Resource and Manual of Accounts policy to strengthen good governance practices. Ministry is also involved in institute review exercise of the Municipal Councils which is currently in progress in partnership with Commonwealth Local Government Forum. Review of the Auditor General Report shows

that Councils will need to strengthen regular financial reconciliation exercise and this is being in all Councils. The other area is to strengthen financial decision making process and new manual of accounts shall address this which is expected to be put in practice before end of August, 2019. Councils getting 100% to financial digital platform is being progressed. Policy paper has been prepared. [Attachment 9]

Respectfully submitted for your information and perusals as per the request,

Vinaka.

Joshua Wycliffe

Permanent Secretary for Local Government

MINUTES OF THE FINANCE FORUM MEETING HELD @ THE NADI TOWN COUNCIL CHAMBERS ON FRIDAY 13TH JANUARY 2016 COMMENCING AT 10.30AM

PRESENT: Special Administrator - Mr. Robin K Ali - Nadi

Director Local Government - Mr. Azam Khan Project Manager-Local Govt - Mr. Alipate

Director Finance - Mr. Prabin Lal - Lautoka
Acting Director Finance - Ms. Sholin Nair - Suva
Finance Manager - Ms. Anita Vanua - Nadi
Finance Manager - Ms. Swastika Rattan - Nausori

Finance Manager - Ms. Esita - Nasinu

Finance Manager - Ms. Praveen Prakash - Tavua
Finance Manager - Ms. Manjula Devi Sahay - Ba
Finance Manager - Ms. Mohini Nair - Sigatoka
Minuting Secretary - Ms. Ilisapeci Q - Nadi

- > Special Administrator Nadi welcomed all those who were present at the Forum and addressed a few words in regards to Councils and Sharing of Assets between Councils.
- ➤ Director Local Government thanked the Special Administrator Nadi for his short welcome speech and also declared the meeting open.

1.0 Review of the Minutes of Last Meeting held on Friday 4th March 2016.

1.1 Director Local Government reminded the Financial Managers of the financial support in the past Forum whereby it has been agreed that the Director Finance Lautoka has to provide support to Ba and Tavua Town Council, Nadi to support Sigatoka Town Council, Suva to Lami Town Council, Nasinu to Rakiraki Town Council, Nausori to Levuka Town Council and Labasa to Savusavu Town Council in terms of updating relevant Accounts.

2.0 Minutes of the Meeting

2.1 Yearly Financial Accounts

2.1.1 All Councils have been advised by Director that the Accounts prepared are to be compliance fully with International Financial Reports Standards (IFRS) for Small Medium Enterprises (SME).

No.	Name of Council		Audit Status		Actions to be taken
1.	Tavua Town Council	AA	Last audited 2013 2014 Accounts still with Ministry	>	Draft for 2015 – 2016 need to be prepared and Lautoka City Council will assist.
2.	Ba Town Council	•	2015 completed	•	2016 need to be submitted by 31st May whether 2015 has been audited or not audited
3.	Sigatoka Town Council	•	All audited - no qualification		-

4.	Nadi Town Council	 2014 completed 2015 almost complete 	2014/2015 and 2016 need to be submitted to the Office of the Auditor General by May 31st
5.	Suva City Council	Last Audited in 20102011 not yet finalised	Decided to Outsource

7.	Nasinu Town Council	 2009 figures not yet finalised 2010-2011 with Auditor General 2012 draft form be sent on Monday to Ministry 	Need to be completed: • 1st Quarter - 2013 • 2nd Quarter - 2014/2015 • 3rd Quarter - 2016 need to be submitted as per the deadline
8.	Nausori Town Council	 2012 still with Auditor General 2013- 2015 draft accounts with Auditor General Still working on 2016 	
9.	Levuka Town Council	• 2011 last accounts audited	 Decided to outsource Finance Manager Nausori need to work with CEO Levuka and provide updates to Alipate Director will send email to CEO Levuka in regards to their Accounts and their accounts are very important to be audited because of the Cultural Heritage

3.0 Asset Management

- 3.1 Director Local Government advised the Financial Managers on the need to keep Electronic copies of Fixed Assets. Board of Survey should be completed by January 31st as per his email. Everything should be recorded properly in the Meeting Minutes as it also protects them from Corporate Criminal Liability.
- 3.2 He also asked the Financial Managers if they wanted an Asset Management Workshop and all of them agreed

- 3.3 He also mentioned that Asset Management is very broad and should accommodate at least the following information:
 - Asset Classification
 - Purchase date
 - Maintenance Schedule
 - Operational Grant Asset etc.

4.0 Rates

4.1 Rates Record

- 4.1.1 The Challenges are the Change of Ownership and Councils are not being informed by the Solicitors and respective parties
- 4.1.2 Rates report should include Current, Ratepayers Arrangement and Defaulters

4.2 Rate Variation Order

4.2.1 Director mentioned that the Rate Variation Order would be coming by end of January for the write off interest.

4.3 Sexennial Valuation

4.3.1 Director said that Labasa got 30% increase due to Valuation and Finance Manager Nadi said that Nadi got around 40% increase.

5.0 Green Waste Management

- 5.1 The challenge is with the small Councils like Tavua, Rakiraki and Sigatoka, it depends on their Income Capacity.
- 5.2 Director Local Government asked the Financial Managers to prepare a Solid Waste Management Financial Papers for 2015 2016 by Friday 20th January and to be sent to Alipate addressed to the Permanent Secretary. Financial Managers need to work with the Health Department in collecting data for Transportation, Collection, Landfill and the percentage of the Total Budget spent on Solid Waste.

6.0 Information Systems

6.1 Director – Local Government advised that Financial Managers had to email Alipate regarding the Challenges they faced for Financial Information Systems by Monday 16/01/17 before 8.30am

7.0 Financial Annual Reports deadlines are as follows:

Name of Councils	Dates to be submitted	
Sigatoka Town Council	28th February	
Nasinu Town Council	31st March	
Nausori Town Council	31st March	
Levuka Town Council	28th February	
Nadi Town Council	31st March (Consolidated Reports)	
Tavua Town Council	28th February	
Ba Town Council	28th February	
Lami Town Council 28th February		

8.0 General

- 8.1 The Director reminded the Financial Managers on the importance of signing of, vouchers, and supporting documents should be attached together
- 8.2 They need to have a practise of having meeting with staff especially the Market Staffs
- 8.3 All Municipal Councils need to have Training Policies. Chief Executive Officers need to develop Training Policies.
- 8.4 Monthly Committee Meetings
- 8.5 Finance Manager Tavua also informed the lack of Human Resources in Tavua Town Councils. If one staff required to do more than one job than there might be a breach on Internal Control. Affordability is also a challenge for Tavua.

9.0 Session by the Project Manager Local Government

- 9.1 Alipate reminded the Financial Managers on the importance of submitting Monthly Acquittals. Government Grants are supposed to have separate Bank Accounts and not to be mixed with other Council Funds. Also it is not allowed to use Government Grants on other Council purposes apart from what it has been intended for.
- Manager Finance Nadi thanked everyone for coming to the meeting.

Meeting end at 1.30 pm

MINUTES OF THE FINANCE FORUM MEETING HELD @ THE NADI TOWN COUNCIL CHAMBERS ON FRIDAY 13TH JANUARY 2017 COMMENCING AT 10.30AM

PRESENT: Special Administrator - Mr. Robin K Ali - Nadi

8.	Nausori Town Council	 2012 still with Auditor General 2013- 2015 draft accounts with Auditor General Still working on 2016 	
9.	Levuka Town Council	• 2011 last accounts audited	 Decided to outsource Finance Manager Nausori need to work with CEO Levuka and provide updates to Alipate Director will send email to CEO Levuka in regards to their Accounts and their accounts are very important to be audited because of the Cultural Heritage

3.0 Asset Management

- 3.1 Director Local Government advised the Financial Managers on the need to keep Electronic copies of Fixed Assets. Board of Survey should be completed by January 31st as per his email. Everything should be recorded properly in the Meeting Minutes as it also protects them from Corporate Criminal Liability.
- 3.2 He also asked the Financial Managers if they wanted an Asset Management Workshop and all of them agreed

- 3.3 He also mentioned that Asset Management is very broad and should accommodate at least the following information:
 - Asset Classification
 - Purchase date
 - Maintenance Schedule
 - Operational Grant Asset etc.

4.0 Rates

4.1 Rates Record

- 4.1.1 The Challenges are the Change of Ownership and Councils are not being informed by the Solicitors and respective parties
- 4.1.2 Rates report should include Current, Ratepayers Arrangement and Defaulters

4.2 Rate Variation Order

4.2.1 Director mentioned that the Rate Variation Order would be coming by end of January for the write off interest.

4.3 Sexennial Valuation

4.3.1 Director said that Labasa got 30% increase due to Valuation and Finance Manager Nadi said that Nadi got around 40% increase.

5.0 Green Waste Management

- 5.1 The challenge is with the small Councils like Tavua, Rakiraki and Sigatoka, it depends on their Income Capacity.
- 5.2 Director Local Government asked the Financial Managers to prepare a Solid Waste Management Financial Papers for 2015 2016 by Friday 20th January and to be sent to Alipate addressed to the Permanent Secretary. Financial Managers need to work with the Health Department in collecting data for Transportation, Collection, Landfill and the percentage of the Total Budget spent on Solid Waste.

6.0 Information Systems

6.1 Director – Local Government advised that Financial Managers had to email Alipate regarding the Challenges they faced for Financial Information Systems by Monday 16/01/17 before 8.30am

7.0 Financial Annual Reports deadlines are as follows:

Name of Councils	Dates to be submitted	
Sigatoka Town Council	28th February	
Nasinu Town Council	31st March	
Nausori Town Council	31st March	
Levuka Town Council	28th February	
Nadi Town Council	31st March (Consolidated Reports)	
Tavua Town Council	28th February	
Ba Town Council	28th February	
Lami Town Council 28th February		

8.0 General

- 8.1 The Director reminded the Financial Managers on the importance of signing of, vouchers, and supporting documents should be attached together
- 8.2 They need to have a practise of having meeting with staff especially the Market Staffs
- 8.3 All Municipal Councils need to have Training Policies. Chief Executive Officers need to develop Training Policies.
- 8.4 Monthly Committee Meetings
- 8.5 Finance Manager Tavua also informed the lack of Human Resources in Tavua Town Councils. If one staff required to do more than one job than there might be a breach on Internal Control. Affordability is also a challenge for Tavua.

9.0 Session by the Project Manager Local Government

- 9.1 Alipate reminded the Financial Managers on the importance of submitting Monthly Acquittals. Government Grants are supposed to have separate Bank Accounts and not to be mixed with other Council Funds. Also it is not allowed to use Government Grants on other Council purposes apart from what it has been intended for.
- Manager Finance Nadi thanked everyone for coming to the meeting.

Meeting end at 1.30 pm

Closing Remarks; Auditor General - Mr Ajay Nand, Office of the Auditor Generals11
ACKNOWLEDGEMENT12
ANNEX 1 : PARTICIPANTS LIST

Executive Summary

The Municipal Council & National Fire Authority Finance Management Council workshop was convened at the Tanoa Plaza, Suva from $11-12^{th}$ July, 2018. A total of 35 participants attended the meeting and they were from the following groups: Chief Executive Officers and Finance Managers from the thirteen (13) municipal councils and National Fire Authority. The Ministry staff and the Office of the Auditor Generals were jointly facilitates this work shop. (Annex 1- List of participants).

The two-day meeting was an opportunity to discuss and debate issues and challenges facing the councils. The workshop was therefore designed to facilitate this process.

The training also ensured that at its conclusion, participants would walk away with sound resolutions, shaped by two days of intense discussion and debate.

Background

This important meeting has been discussed and planned with the Office of the Auditor General's Office following the municipal councils past years audit responses to Public Accounts Committee in the beginning of this year.

It was noted that a number of municipal council's audited accounts have been on a backlog status from 2011 onwards which was not satisfactory to the PAC and the ministry has been tasked to work with municipal councils and OAG in improving this trend.

It was also noted that the number of audit queries is on a significant level which needs to be currently addressed and improve upon in the future.

Therefore it felt that the best way to achieve this was to design a workshop that would essentially focus on the financial issues facing by the municipal council.

So at the July 11th and 12th workshop held at the Tanoa Plaza, the Ministry and OAG introduced presenters who helped set the platform through their own extensive experiences by sparking debate and discussions across carefully thought out issues.

At the end of the conference, participants were informed that the reports will be prepared which would reflect their collective views and opinions which arose from each of the key topics discussed.

Opening Speech by Permanent Secretary for Local Government, Mr Joshua Wycliffe

The Chief Guest, Mr Joshua Wycliffe, the Permanent Secretary for Local Government, Housing and Environment officially opened the workshop. Instead, Director for Local Government – Mr Azam Khan welcomed the participants and thanked the Office of the Auditor Generals for jointly organised this important workshop.

The opening session highlighted the importance of financial management at Council level and Chief Executive Officers and Finance managers are the key personnel responsible for this. Councils including NFA needs to be more vigilant and more focus is required in the financial aspect of their organisation to ensure that their financial health is maintained at all levels.

The PS thanked the Office of the Auditor General for this initiative which was highlighted from the Public Accounts Committee to work hand in hand for the improvement of financial management in the Council and NFA.

Shared Services approach is the way forward emphasised to enhance the Councils financial management especially in the areas of revenues. Councils are also encouraged to use this opportunity to share their good financial management practices which can be a lesson learnt from other affected councils. Also to share their challenges which can be discussed and assisted through the handful experience of the Presenters for this work shop and other well off Councils.

Backlog of Council Accounts Audits is one major issue that we need to address accordingly and this is the main reasons for this workshop that is to work with Office of the Auditor General and the Ministry in improving this trend.

In conclusion, participants were reminded that they have to make use of this opportunity to discuss with the Presenters and fellow colleagues on strategic ways to improve financial management to their respective Councils.

<u>Day 1: Wednesday, 11th July, 2018, Session One: Introducing Governance & Risk Managment, Speaker *Mr. Uday Singh*, General Manager- Risk and Governance, Fiii National Provident Fund</u>

The main objectives of the presentation is to present high level of presentation on governance and risk and introduction of key concepts to assist the participants in understanding governance and risk management to bring about improvements in organizational performance.

Some of the key elements highlighted in the presentation are as follows;

- 1) Corporate Governance Corporate Governance refers to the way in which an entity is governed. It involves 3 elements: Systems; Vested Authority and Decision making; and Control
- 2) Integrated Approach to Governance, Risk and Compliance
- 3) Global Failures and Lessons Learnt Failure of Board and Management oversight; Information Asymmetry; Failure of compliance to Regulatory standards; Poor Risk Management and Lack of risk diversification; Unethical Business and Financial Practices; Failure of compliance to accounting standards; Audit failure and absence of Auditor Rotation.
- 4) Concerns in Municipal Council's Governance With reference to the 2014 audit report issued, there are general concerns on financial management, governance, risk and compliance.
- 5) Principal and mechanism of Corporate Governance.
- 6) Demarcation Roles of Special Administrators and Chief Executive Officer.
- 7) Risk Management Governance Risk Categories, Example of Risk, Risk management process and Assessment of Risk maturity.
- 8) The Case of FNPF Governance

The main recommendations drawn from this session are:

- The Councils and NFA to note the importance of Governance and Risk Framework to deliver success, sustainability of the councils, consistency in the management of operations and improvement in work processes, efficiency, and excellence in service delivery in line with Councils mandate.
- The importance of Councils to have Strategic Plans and align them to National
 Development Plan to provides a sense of direction and outlines measurable goals.
 Strategic planning is a tool that is useful for guiding day-to-day decisions and also for
 evaluating progress and changing approaches when moving forward. In order to
 make the most of strategic planning, Councils should give careful thought to the
 strategic objectives it outlines, and then back up these goals with realistic,
 thoroughly researched, quantifiable benchmarks for evaluating results.
- To learn from the case of reforming of FNPF in terms of governance and risk management approach and try to implement some of those changes to Councils' operations. This can be benchmarked from other Countries municipal council's standards.

Session Two: <u>Internal Control - Presenter: Mr Moshin Ali, Director Audit,</u> Office of the Auditors Generals

The content of the presentation was mainly focus on the importance of Internal Controls in an organisation that is to promote orderly, economical, efficient and effective operations, safeguard resources against loss due to waste, abuse, mismanagement, errors and fraud, promote adherence to laws, regulations, contracts and management directives, develop and maintain reliable financial and management data, and accurately present that data in timely reports.

Internal Control is a process, effected by the Ministry, Council's Special Administrator, CEO's, management, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives.

Some of the highlights of the presentation are as follows;

- the five components of Internal Controls,
- · categories of internal control,
- monitoring internal control,
- documentation of internal control,
- · responsible of internal control,
- types of Risks,
- policies and procedures,
- · security of assets and records,
- types of internal controls,
- · red flags for fraud, and
- how does fraud occurs.

The main **recommendation** drawn from this session is that the councils need to have internal control in all aspect of its operation especially in in the area of finance management. It is also recommended that internal control needs to be well documented and reviewed in the timely manner. In summary Control is a

- Process
- Management process
- Embedded to each level of organizational hierarchy
- Forward looking
- Closely linked with planning
- Tool for achieving organisation activities; and
- Planned performance and actual performance.

Session Three: Financial Statement Analysis, Presenter - Ms. Renu Chand, Partner, KPMG and Ms. Reshma Chand, Director, KPMG.

The intent of this presentation is to highlight the importance of analysing the organization financial statements for critical decision making. The purpose of financial statement analysis is to examine past and current financial data so that a company's performance and financial position can be evaluated and future risks and potential can be estimated

Understanding your financial statements assists in the accuracy of budgets prepared by having proper assumptions for revenue growth, expenditure changes and capital needs.

The outline of the presentation is as follows;

- Elements of Financial Statements
- ❖ Why is Financial Statements analysis important?
- Budgetary requirements
- Cash Flow issues
- Financial Performance Measures
- Case Study Suva City Council

The main recommendation drawn from this session is that Council and NFA through the Finance Managers should be able to analyse their financial statements using the financial performance measures to determine the financial health of the organisation and be able to make quality decision.

The audit variances were also raised from the Councils which were affecting their audit reports qualification and it is recommended that the ministry to work with the councils and OAG in addressing this problems. The ministry to come up with some procedural measures in the "write offs" of those identified variances with the Councils and address the issues accordingly.

Session Four: Understanding Audit Reports, Presenter - Ms. Finau Nagera, Director of Audit, Office of the Auditor General

The focus of this presentation was to understand the Auditors reports, forms and content of audit reports, types of audit opinion issued and typical qualification issues in the reports. This is to enable us to improve our understanding on the Auditors reports.

Auditor's Report is a

- End product of an audit
- o Important channel through which opinions of an auditor about the financial statements and the findings of the entity audited are expressed.
- Givestakeholders(RatePayers,Parliament,Government,public)confidence that it can rely on the financial statements prepared by management
- An auditor's report provides reasonable assurance on the financial statements

Unqualified Opinion means that financial statements gives a true and fair view (or are presented fairly in all material respect) in accordance with applicable financial reporting frameworks.

Qualified Opinion – The effect of any disagreements with management re-departures from financial reporting framework, or limitation on scope is not so material and pervasive (unqualified opinion cannot be expressed).

Adverse Opinion – The auditor disagrees with the representation made by management in the financial statements to the extent of confirming that it's not a fair reflection of the financial position, performance and cashflow.

Disclaimer of Opinion – There is lack of sufficient appropriate audit evidence to express an opinion. Due to a significant scope limitation, the auditors were unable to form an opinion or did not form an opinion on the financial statements.

The main recommendations were the following:

- The Councils to understand the audit reports issued and be able to provide sufficient response when and is required.
- ♣ It is noted in the presentation that most of the councils being issued a qualified opinion and disclaimer of opinion hence improvement is required from the Councils in the future.
- ♣ The Councils needs to work with the ministry and Office of the Auditor Generals in dealing with their audit issues.

<u>Day 2: Thursday, 12th July, 2018</u> Session Five: IFRS for SMEs, Presenter Mr. Steve Nutley, Partner, KPMG

The main objective of this session is to highlight the accounting reporting standards that all organisations should be following in the preparation of the annual accounts for auditing purposes.

The presentation also highlights the difference between IFRS and IFRS for SMEs. Some of the differences are listed below;

- ✓ Topics not relevant for SMEs are omitted; for example earnings per share, interim financial reporting and segment reporting.
- ✓ Many principles for recognising and measuring assets, liabilities, income and expenses in full IFRS Standards are simplified.
- ✓ Significantly fewer disclosures are required (roughly a 90 per cent reduction). The Standard has been written in clear, easily translatable language.
- ✓ To further reduce the burden for SMEs, revisions are expected to be limited to once every three years

Recommendations suggested included: Council's to understand the difference of the two standards and be able to prepare their own annual financial accounts for auditing purposes. Outsourcing of preparations of accounts is a cost to the council in some extent; however it is entirely depend on the capacity within. While some councils accounts are being prepared externally, great emphasis is required for the councils work with their external accounting firm in building their capacity to be able to prepare their accounts in house in future.

Session Six: Government Grant Capital Projects: Presenter Mr Mohammed Shah

The Construction Implementation Unit (CIU) of the Ministry of Economy is now responsible for all Government construction projects outside Fiji Roads Authority worth F\$600 million.

Most contracts from CIU are given to the private sector and through CIU, government wants to create confidence in the construction industry through improving tenders and contract systems. CIU contract Tender Evaluation criteria are based on a 70% non-pricing attributes and 30% price attributes. Some shortfalls with tenders and contracts received are:

- a. Administration section ie, FNPF, FRCS –tax, FNU levy requirements not always met
- b. Late tenders strictly not allowed
- c. Changing scope of works
- d. Closure documents big problems
- i. Eq. " as-built" drawings
- ii. Engineer's certificate
- iii. Product quality certification
- e. All tender and contract information available through website portal

Some of the highlights of CIU presentation are as follows;

- Most of the projects contractors' selections are done through Expression of Interest which is not appropriate.
- All government grant project contractors are to be determining through proper tenders and selection criteria needs to be set out clearly.
- All tenders are to be evaluated thoroughly by the Councils and approved from the necessary committees and management before sending to the line Ministry for consideration.
- CIU will be taking over on the monitoring of some Councils key projects which they will notify the Ministry in due course.
- Councils needs to strengthen their capacity in project management to ensure that government investment is effectively and well managed according to timeline, budget, quality and good governance is maintained at all times.

Closing Remarks; Auditor General - Mr Ajay Nand, Office of the Auditor Generals.

The Auditor General, Mr Ajay Nand officially closed the two days' workshop on Strengthening Councils Financial Management.

The closing session highlighted that Strategic Planning is key to good governance and municipal councils have been urged to update and align their strategies to the Five Year and 20-Year National Development Plan. The Major component of NDP is the UN Sustainable Development Goals which all countries are working very hard to achieve by 2030 where municipal councils are very well placed to assist in the achievement of the plan.

Empowerment of council management and employees through learning is the first and most important step towards addressing financial and non-financial anomalies. Special Administrators and Chief Executive Officers of the respective councils are encouraged to invest in the training and development of their employees.

The Auditor General conveys his appreciation to the Presenters for the two days' workshop, the Permanent Secretary and Director for Local Government for the initiative and support and his staff for their support and assistance in facilitating the workshop.

In conclusion, the Auditor General's Office will continue to collaborate with line Ministries and other stakeholders including municipal councils and other entities who intend to up skill their employees.

ACKNOWLEDGEMENT

The Ministry of Local Government, Housing and Environment through the Permanent Secretary would like to express our deep appreciation to Office of the Auditor Generals, Municipal Councils, National Fire Authority and Department of Local Government staff for their participation and support for this Municipal Council Financial Management two days' work shop.

The review should clearly outline all the functions, activities or services provided by municipal councils that should be monitored by the Department of Local Government.	Review of the Local Government Act A cabinet paper is currently being prepared on the review of the Local Government Act Cap 125. The Ministry sought the assistance of the PSC through its Volunteer Scheme early 2013, a Team consisting of four (4) volunteers was appointed to facilitate consultation process to review the principle Act. The Team managed to put together the first draft after having conducted consultations with stakeholders. The draft was presented to the PS.	Review of the Local Government Act to strengthen Monitoring Policy Framework Ministry of Local Government, Housing and Environment has noted the need to strengthen the legal framework to ensure that the policies and standards of Department in monitoring Municipal Councils are reflected in the Local Government Act. This has been recommended as a Terms of Reference for the Review exercise and the Review process shall be commencing soon with more information being given from the Ministers office.
	4.2 Absence of Standard Operating Procedures for	• The Department should formulate and document procedures for monitoring each	Procedures for monitoring Council performance Whilst aspects of the Local	The ministry noted the OAG's comment and has developed policies and standard templates which are currently using now for monitoring the

	• DLG should consistently record complaints received from ratepayers and the public regarding council"s performance. Follow up actions should be taken to provide assurance that councils have addressed the issue. Furthermore, the DLG"s SOP should clearly indicate the timelines for referring complaints to councils to ensure they are addressed in a timely manner. • DLG should develop a standard reporting template where Councils are only able to report relevant information that will allow DLG to easily assess the performance of respective councils in different areas, compare performance of "like" Councils, identify issues and recommend areas for improvement in a timely manner.		Grievance Register attached as Annexure 4) Complaints Record: The ministry had developed a Grievances Policy Management for Municipal Councils covering all grievance register, grievance recording, grievance inspection, references to agencies and grievance management. The framework highlighted the importance of municipal councils in addressing grievances and complaints received from its stakeholders including rate payers, business house, government agencies, media and staff. (Refer to Annexure 4).

Local Government Act Cap 125 of 1985 (1972) and amendments thereof

Terms of Reference for Local Government Act Review Committee (LGARC)

Purpose

The aim of the review is to reform the current legislation governing local government in Fiji under Local Government Act Cap 125 of 1985 (1972) and amendments thereof to create a more contemporary, easily read and comprehensible Act, that clarifies arrangements for local governance and the local government sector to meet current and future needs of the Fijian people. The Act has had a number of amendments but there has been no major revision since 1985, a period of more than 30 years. This makes it imperative to review, amend, supplement or remove a substantial number of existing provisions to ensure an Act that meets contemporary demands and is inclusive of issues and advents that have taken place over recent decades and have impacted upon local governance.

Background

The Local Government Act Cap 125 of 1985 (1972) and amendments thereof makes provision with respect to urban local government in the Fiji Islands and for this purpose provides for the establishment of local government Councils, defines their functions and powers and contains rules for their election, functioning and administration. Specific provision is made for the valuation of land, compulsory acquisition of land and drainage, extension of municipal boundaries, declarations of towns and cities and financial responsibilities of councils. Additional provisions include composition of Councils, elections of office-bearers, committees and by-laws, and processes and provisions for their operations.

The Act provides the Minister for Local Government with a range of supervisory powers along with provisions for Councils to refer relevant matters to these Ministerial powers. In addition to the Local Government Act, the Municipals as a local authority have jurisdiction under several other legislations. And this creates a number of complex linkages and issues. The Act also establishes a Local Government Committee to provide advice and recommendations as required.

Scope

The review will consider all aspects of the Local Government Act Cap 125 of 1985 (1972) and amendments thereof, and where appropriate related legislations with a view to more 1

accurately and consistently reflecting policy intent and improving clarity, including provisions setting out:

- objectives, roles, functions, and powers of councils;
- roles and responsibilities of councilors, mayors/special or chief administrators and council staff;
- directions about good governance and administrative processes required to be followed by councils directed to ensuring all decision-making, actions and reporting are open and transparent, free from bias and improper considerations, and provide for community input;
- a system of electoral representation that provides fair and equitable representation;
- electoral arrangements that deliver a democratic, transparent and secure system of elections for local government resulting in high levels of participation;
- processes for ensuring efficient planning and reporting, and sound financial management
 by Councils that ensure effective accountability to their communities;
- processes for maintenance of heritage registers with an evaluation of impacts upon municipal council operations arising from the 2016 Heritage Act and its definition of cultural heritage;
- environmental management including issues such as climate change and its impact on municipal councils and how this can be addressed in legislation;
- management of risks in all areas of planning and operations;
- offences under the Act;
- relationships between Local Government and the Central Government, including the role of the Minister for Local Government, in guiding, directing or intervening in council governance.

The review will also include consideration of related legislation which imposes responsibilities on Councils and how this interacts with the Local Government Act Cap 125 of 1985 (1972) and amendments thereof with a view to clarifying that interaction.

Appendix 1 includes a more detailed list of key areas for review based on stakeholder consultations conducted by the Local Government Committee in preparing these terms of reference. Also, Appendix 3 sets out a set of principles for Local Government legislation proposed in a research report prepared for the Commonwealth Secretariat. The Review Committee may wish to take these into account.

Principles

The review will have regard to:

- The recognition in **Local Government Act Cap 125 of 1985 (1972)** of local government as a separate and democratic tier of government in Fiji charged with responsibility for delivering peace, order and good government for local communities; and recognize that these same principles are reaffirmed in the general principles of good governance in the 2013 Fijian Constitution.
- The necessity for the legislation to strike an appropriate balance between autonomy for councils in their operations and decision-making processes and the wider interests of the Fijian people and Government.
- The need to reduce, wherever practicable, the imposition of unnecessary administrative requirements on local governance, taking into account the limited resources available to the Ministry to supervise the work of Councils.

Process

The review will involve extensive engagement with the local government sector and the broader Fijian community, through the release of papers and receipt of submissions, to ensure their views are taken into account in making recommendations to the Minister for Local Government.

Key stages include:

- Identification of and consultation on issues under the current Act
- Consideration of findings and outcomes of relevant previous inquiries into Local Governance (* see Appendix 2)
- Development of and consultation on proposed directions for the new Act

 Preparation and of the Exposure Draft Bill for consideration by the Minister for Local Government and Cabinet

Composition of the Local Government Act Review Committee

The Local Government Committee (LGC) is of the opinion, that the Local Government Act Review Committee (LGARC), shall be an independent body and should be composed of either three or five members. It shall be headed by a Chair, with a sound and extensive background in local governance. The other members should include persons with a demonstrated expertise in areas such as; municipal administration and management, public finance, infrastructure, building and development, public health and environment management, local service provision, local government heritage management, civics, ethics and governance. The Local Government Act Review Committee (LGARC) will be provided with appropriate secretariat services.

Terms and Benefits

The Local Government Act Review Committee will be provided terms and benefits including rates of sitting allowances, travel allowances and per diems and procedures for claims of such benefits.

Timelines and Reporting

A timeline of activities, reports, reporting mechanisms and channels, and procedures for revisions and submissions of drafts leading to final submission of a recommended Act will be provided to the Local Government Act Review Committee (LGARC) by the Minister.

Confidentiality

The Local Government Act Review Committee (LGARC) at all times will ensure necessary confidentiality of the review process and any documentation and reports arising from it.

Drafts and Final Report

The process and documentation leading to the final Recommended Bill will be the responsibility of the Committee, and they may engage consultants and obtain legal opinions sourced in a transparent manner in consultation with the Minister for Local Government or Delegated Authority.

Appendix 1: Key Areas for Consideration by the Local Government Act Review Committee (LGARC)

Below are some of the key areas that were identified through stakeholder consultations between February 2016 and June 2017, by the Local Government Committee (LGC), in drawing up the terms of reference for Local Government Act Review Committee (LGARC).

- 1. Provision of a clearly defined set of roles and responsibilities of municipal councils to complement the broader statement made in the current Act on general principles found in Section 88.
- 2. Inclusion of relevant provisions to ensure effective environment and urban management and economic development outcomes at all levels of local governance.
- 3. Options for Municipal Elections that provide for equity of representation in election of office-bearers such as mayors, and legislation to ensure accountability as well as protection of their offices, where appropriate.
- 4. Provisions for voter education and for the possible appointment of additional Councilors or advisers to ensure all sectors of society are adequately represented on Councils.
- 5. Options for a range of structures such as Municipal Boards, Councils, and Corporations or like structures to administer municipalities in Fiji.
- 6. Interactions needed with complementary or conflicting legislation such as the Public Health Act, Environment Act, Town and Country Planning Act, Heritage Act, Land Sales Act of 2014 and others as determined by LGARC, in order to improve service delivery.
- 7. Financial and strategic planning including rating systems, rates collection and other revenues and resources required to effect, implement and provide for good governance, accountability and transparency.
- 8. Formation, purpose and operations of committees and sub-committees
- 9. Structures, duties, obligations and responsibilities needed to ensure accountability, including transparent and clear legislation on areas such as conflict of interest, declarations of interests, and monitoring of the performance of Councils.
- 10. Regulations and By-laws existing and those required to ensure the effective implementation of the Act, taking into account the resources needed for drafting such Regulations and By-laws.

- 11. The need for an efficient Town Declaration and Boundary Extension/Adjustment process that provides for clarity of objectives, timelines and outcomes in making such declarations or determinations.
- 12. Consider each provision of legislation in the reform of the Act, in the context of its implementation and processes in order to enable ease of understanding of such legislation and its applications at all levels of governance.
- 13. Possible arrangements for regional cooperation between Councils or the possibility of larger regional Councils to rationalize different levels of local government. For example, arrangements for municipal councils to collaborate with adjoining Rural Authorities and Provincial Councils.
- 14. The scope to improve arrangements for provision and funding of services by municipal Councils to Fijian villages within or adjacent to their boundaries.
- 15. The viability of making functional the current provision for District Councils to provide a more effective transition of rural areas into town boundaries, and or where new towns or townships are declared.
- 16. Incorporation of climate change as a key element of environment management under the Act.
- 17. Provisions needed to ensure adequate and appropriate community engagement and participation.
- 18. The roles, responsibilities, authority or delegated authorities within the Ministry of Local Government, including the Director of Local Government.
- 19. Specific recognition of the Fiji Local Government Association and its role as a point of contact between Central and Local Government.
- 20. The need to complement and support a reformed Local Government Act with clear statements of Government policy that provide more detail on the roles and responsibilities of Councils, how they are expected to operate, and the Government's longer term objectives for the overall system of local government and governance.

Appendix 2: List of Reports of Previous Inquiries into Local Governance

- 1. Fiji Local Government Association Submission Azmat Khan et al. (2008)
- 2. Report of the Local Government Review/Reform Committee Aruna Pillay et al. (2008)
- 3. Tamara Report (1998)
- 4. Urban Policy Action Plan (UPAP) (2006)
- 5. Urban Growth Management Plan for Greater Suva Region (UGMAP) (2006)
- 6. Lionel Yee (1980?)
- 7. Principles for Local Government Legislation: Lessons from the Commonwealth Pacific Graham Sansom, Commonwealth Secretariat (2013)

Appendix 3: Principles for Local Government Legislation

(Drawn from 'Principles for Local Government Legislation: Lessons from the Commonwealth Pacific' – Graham Sansom, Commonwealth Secretariat (2013)

Principle	Explanation
Fit for purpose	Legislation should: clearly state the purpose, mandate and role of local government identify key challenges and establish frameworks to address them be suited to the local context and culturally appropriate as far as possible avoid excessive layers or multiple systems of local governance avoid undue complexity and match processes and expectations to likely availability of financial and human resources
Democracy and representation	 There should be elections under universal suffrage or a genuinely accepted traditional equivalent Appointed councillors or reserved seats may be used to ensure adequate representation of all sectors of society Local governments should be protected against arbitrary dismissal or dissolution
Local	 Local governments should be: principally accountable to local communities through elections and/or regular community engagement and reporting (including through traditional assemblies where appropriate) encouraged to exercise strong local leadership in consultation with other community leaders able to determine local priorities given scope to make local laws, subject to necessary oversight and provision for appeals
Probity	 Legislation should: ensure appropriate 'separation of powers' between elected councils and management avoid concentration of executive (and especially expenditure) authority in the hands of a few individuals

	preclude undue political interference in the appointment of staff
	• include specific provisions for the proper appointment and, where
	justified, dismissal of the chief executive (or equivalent)
	require open and transparent decision-making and independent audits
	 provide effective complaints procedures
	as required, incorporate other administrative procedures and checks
	and balances to minimise scope for malpractice
Oversight and	Legislation should provide for:
support	an appropriate and adequately resourced central agency to monitor
	local government operations and assist or intervene where necessary,
	but without excessive involvement in day-to-day management
	 capacity building support
	 independent inquiries into alleged malpractice
Capacity and	Legislation should:
sustainability	provide access to adequate local revenues and other resources
	matched to the designated role, functions and priorities of local
	government
	ensure sound asset and financial management
	■ promote continuous improvement, including ongoing training and
	professional development for both councillors (or equivalent) and
	staff

Efficiency,	Legislation should:	
effectiveness and	 prescribe an appropriate form of corporate or service planning 	
equity	(including community consultation) to match resources to agreed	
	targets and priorities	
	 require equitable service delivery to all parts of the local government 	
	area and all sectors of society (consistent with plans and priorities)	
	 enable service delivery partnerships with related organisations 	
	(subject to necessary safeguards)	
Community	Legislation should:	
engagement	require community consultation on key issues and major policy	
	decisions	
	make provision for long term development planning with broad	
	community involvement	
Inter-government	Legislation should include mechanisms to facilitate:	
cooperation	regular policy dialogue and joint action between local and central	
	governments	
	cooperation between adjoining or closely related local governments in	
	planning and service delivery	
Clarity and	Legislation should be:	
consistency	as brief as possible, avoiding excessive reliance on regulations, by-	
	laws etc that require further legal drafting	
	easy to interpret	
	consistently applied	
	cross-referenced with other principal Acts to form a coherent package	
	clearly linked to associated policy frameworks

1.0 INTRODUCTION

1.1 General

There is a need for a manual of procedure to guide the officers of the local government. In the local government, an accounting manual provides a useful means of attaining standard and uniform procedures. It also is of assistance in initiating staff and other interested persons to the particular accounting work.

In setting a standard the minimum requirement of the relevant law and of those who support the funding of the organization has to be taken into account.

The uniformity of procedure gives opportunity for comparison between different accounting periods of operation and between like organizations. Accordingly it becomes a necessary requirement to state in the published accounts material changes in their presentation.

The local government accounting has some complexities. Therefore the need for a manual becomes even more of a necessity. Furthermore in a country like Fiji because of the varying sizes and activities of the local government entities, uniformity is more difficult of attainment. An illustration will clarify this aspect. Separation of duties to achieve the desired internal control may be quite feasible in a big city council but no so for a small town council with few staff. However, in any case the minimum requirement and main principles must be met.

A difficulty in achieving uniformity is the lack of prescribed accounting terminology, especially in the public sector. But this is not a disadvantage in Fiji only, because many of the developing countries face similar problem.

While every effort has been made to provide as much consideration of details as possible in this manual, it is not possible to deal with every complex issue that may arise. Particular heed has been taken of the principle bases involved. However, in matters of detail affecting any one or few entities, there are consultative facilities available to assist. First there is the ministry of the government concerned with local government and then the auditor of the accounts who is regarded as an expert in the particular field.

1.2 Main Principles

Whenever available and possible national accounting terms should be adhered to. Any variation must be explained in the published accounts. Such explanations are even more important when a change occurs between two accounting periods.

Financial statements should show the total cost during the accounting period for the services. In similar way the total revenue for the period should be reported.

Where expenditures and revenue of an entity is related, it should be possible for a reader of the accounts to perceive the relation.

The accrual basis of accounting provides through the double entry method of keeping books of account a record of total revenue and expenditure. While in the private sector this basis has been the accepted practice for some time, in the public sector also it is increasingly adopted. In the local government in Fiji the position is still in a state of evolution and it will be necessary to allow a period of time for the change to take place. During such period the required guidance and assistance should be made available to the councils concerned.

While accrual basis of accounting provides a full record of revenue and expenditure, it is possible for accounts kept on case basis to provide similar information by including supporting notes about revenue or expenditure accrued but not received or paid respectively.

In dealing with accruals, it is often necessary to make assessments. This is because the cash has not been received or paid and there may be element of doubt about the final outcome. In making such assessment an important concept to bear in mind is that of materiality. In this way without rigidity, the accounts would still represent true and fair position. While pronouncement of professional accountancy bodies provides guidance to materiality, each situation will require to be dealt with on its own merit.

Commitments for which liability has not been determined should be taken into account in arriving at the amount for counting liability. Such commitments are not to be included in the accounts but only shown in memorandum records. The principle is that unless goods and services have been provided, no entries in the books account should be made. Here again the concept of materialization should be applied.

The accounts should show readily the total position that is the principle of consolidation should apply. It is in order, or certain circumstances even necessary, to show separately accounts of various funds. However, at the same time the accounts should disclose the total worth and liability of the organization.

Depreciation of fixed assets relates to the reduction in the value of assets resulting from usage in the service of the organization. When such assets are purchased their cost is not charged expenditure but capitalized and shown on the balance sheet and only their amortization is met by revenue account of each financial year. The assets will continue to be shown in successive balance sheets until written off to revenue or otherwise disposed.

However, before dealing with depreciation, it is necessary to find out how assets purchased or created are dealt with in the accounts of local government entities. In such accounts this is a complex question. There is at present no uniformity. The practice differs from country to

Country, although efforts are being made to standardize these accounts. Sometimes the choice has to be related to what is most appropriate for a particular country.

At one end of the spectrum there are local authorities which do not create fixed assets at all. At the other end there are entities which capitalize all such assets. Then there is still another option practiced which is mixture of the two types of accounting for fixed assets. Unfortunately the Act in Fiji is not specific on this issue and thus gives rise to some fluidity in the position.

At the same time it must be acknowledged that compared with the private or commercial sector, there are some areas in the public sector not capable of meaningful definitive treatment. One such example is the treatment of public or community assets, such as roads, bridges and parks. Can they be treated as fixed assets or merely as improvement of the value of the land? In some countries it has been resolved that only realizable and / or insurable assets should be shown in the balance sheet. This means that expenditure on roads, bridges and parks is written off to revenue account in each year. While this provides a solution of some ease, it is doubtful if it is a proper reflection in the accounts of what has been intended or done. If the councilors are practicing the principle that they will not use loan monies for recurrent expenditure and the community assets were funded out of loans, then while their intention may have been complied with, the accounts do not show it clearly. In such case the loan raised will usually be treated as revenue. Accordingly neither the outstanding loan nor the capital expenditure financed from it is in the accounts, although this information may be shown in the notes to the accounts.

An illustration of the other extreme is to show all initial cost of community assets as creating fixed assets. Subsequent expenditure is treated as repairs and maintenance, unless there has been substantial upgrading of the project. In this system of asset accounting no depreciation charge is made as the assets are expected to be fully maintained at initial status.

A modification in the above method is to continue to show community asset as fixed assets till the currency of the loans which funded such expenditure. While the cost of maintenance of these assets is charged to revenue, they are also written down in value as the loan is paid off, the charge going to the revenue account. This does mean that the revenue account is charged both with the annual maintenance and the write down of the assets. However, the effect of this is cushioned somewhat if a loan repayment rate is levied and the write down is charged to that account. This system of creation of the assets and their write down gives a proper view of the intention of the local government accounting and it should be adopted.

1.3 Clarity and Completeness

While local government accounts are complex in some ways, the readers, particularly those not familiar with the working of municipalities, should be provided with full and clear description in

the accounts, including comprehensive notes to them. They should be also complete in themselves not necessitating reference to other records to understand them.

Instead of very brief, one or two word description of revenue or expenditure, it is preferable to expand the description so that the reader knows what the receipt or payment was for.

1.4 Conclusion

In this manual the reference to municipal council that is city, town or district councils is simply as "Councils". The word "Councilor's" refers to members of these councils. The relevant law is the Local Government Act of 1972 and subsequent amendments, which in the manual is referred to as the "Act". The Act defines the term "Mayor" as inclusive of "Lord Mayor" or "Special Administrators". Accordingly the term used in the manual is "Mayor" or "Special Administrators".

2. LOCAL GOVERNMENT ACT

2.1 General

To be familiar with accounting system in the local government, it is necessary to understand the relevant provisions of the Local Government Act. In this part of the manual a brief summary of the law is provided. For readers wishing to have full details, reference should be made to a copy of the Act.

The Local Government Act of 1972 succeeded the earlier Towns and Townships Ordinances. Since its enactment the Act has been amended in 1973, 1975 and 1976, up to March 1990.

The Councilors' and officers of local government also have certain responsibilities under other laws, as for example, the Public Health Act. This is so because the municipal councils also function as local authorities for the purposes of those other laws. Therefore it is necessary for the executives to be cognizant of such law also.

2.2 Legal Status

The basic constitutional principle in Fiji, is common with many other countries, the central government remains the supreme administrative authority in the country. While it's certain functions and powers are delegated to municipal councils through the office of Minister for Local Government. The central government continues to be responsible for the good governance of the country.

Municipal councils are essentially territorial in nature and thus are concerned with activities and provision of service within defined areas. They are established by statute and their powers, duties and responsibilities are prescribed by the relevant law. They are body corporate and thus have perpetual succession as distinct from their members and officers.

While municipal councils have certain legislative powers, such powers are subordinate to those of the central government. In this way regulations and by-laws promoted by Councils usually require sanction of the central government before taking effect.

The Ministry responsible for the oversight of the activities of municipal councils is the Ministry of Housing and Urban Development. And the relevant law is the Local Government Act.

2.3 Types of Municipal Councils

The Local Government Act in Fiji provides for the establishment city and town councils and district councils. The Act defined municipality as town, inclusive of city, or district council qualification for the status of a town is currently a population of 20,000 and that of a city, 40,000. While there two cities and eight towns, there is no district council at present.

Under Laws of Fiji, chapter 125, the Local Government Act provides for the establishment of cities, town and district councils. The Act defines municipalities as town regardless of city, or district council. To qualify as a town, town boundary population should be of 10,000 or more, whereas for declaration of a city, population should be 20,000 or more. At present there are three cities and ten towns.

2.4 Body Corporate

A Council is a body corporate with perpetual succession and common seal. It is capable in law of suing and being sued, and accepting dedication of real and personal property.

2.5 Election of Councilors'

The Act provides for the constitution of a council for municipality. The number of members in each council is determined by the Electoral Commission established by the Constitution Fiji. However, the Minister does have the power to advise commission as to the minimum number of councilors.

Where a municipality is divided into wards, The Electoral Commission shall determine the number of councilor's for each ward.

Each councilor shall hold office for a period of three (3) years, but shall be eligible for reelection.

The election of councilors is to be held every three year Casual vacancies are filled by byelections in between triennial elections.

The Act sets out the minimum qualifications of electors' councilors.

INSERT SPECIAL ADMINISTRATOR

2.6 Minister's Powers

The Minister provides the link between the central government municipalities. He also represents the government in dealing councils.

Under the Act, the Minister has certain powers, duties and responsibilities. He appoints members of interim councils pending the first election.

The Local Government Committee members are also appointed by the Minister him. This committee is constituted under the Act. On reference from the Minister, the committee is required to advise the Minister on the particular subject.

It is within the Minister's powers under the Act to declare area as a city, town or district council. Moreover having to do so, upon representation made to him, he may later change boundaries.

The Minister is responsible to receive the Annual report incorporating the audited financial statements from Councils which is laid before the

The Councils have limited borrowing powers. When they need to exceed such powers, the prior approval of the Minister is necessary.

While the funds of the councils are not meant, in the normal way, to be given away as gifts, the Minister has the power to allow contribution for charitable purposes.

The Minister has the power to direct appointment the audit of a council's accounts through the Office of the Auditor General.

While valuation of land within council's boundaries is required by the Act to be undertaken every six years, the Minister may postpone such valuation in a formal written manner.

Before a council may abandon a claim for rates, it must be first endorsed in the Council meeting before a formal request is made to the Minister. The approval must be in a formal written manner.

Where a council wishes to undertake projects of public utility nature, it is necessary for it to have the Minister's approval. Similarly consent of the Minister is required to acquire land by Councils or deal in land.

The councils have power to make by-laws but they will have effect until they are approved by the Minister and published in the Gazette.

In addition to the powers of the Councils to make by-laws, the Minister also has the authority under the Act to make regulations on matters specified in the Act and to order a Council to make by-laws or amend them.

While the Councils have a fairly free hand to decide how best to serve the community of their areas, the Minister has the superimposing power to restrict any activity considered by him/her necessary in the public interest.

In his/her supervisory role, the Minister has the power under the Act to instigate an enquiry into the affairs of a council. If after such enquiry he/she is satisfied that the council has defaulted in its objectives, he/she may reduce the grant payable by the government or more severely, dissolve the council and appoint administrators or Special Administrators to carry out the functions of councilors.

Finally, the Act gives powers of surcharge to the Minister. If as a result of a report by the town clerk/Chief Executive Officer, auditor or inspector, the Minister is satisfied that any expenditure had been incurred without proper authority, the Minister may disallow such expenditure and surcharge the whole or any part of it.

2.7 Internal Organization of Councils

Each council is required by the Act to elect a mayor, or where provided in the Act, a Lord Mayor. A deputy mayor is also elected to carry out the duties of the mayor in his absence.

In the absence of the elected councilors, the Minister appoints Special Administrators to manage councils operations.

The mayor's functions are to chair meeting s of the council and carry out certain other duties as specified in the Act. He also has special powers to act in case of an emergency.

A council has the power under the Act to delegate some of its functions to special or standing committees. However, it can delegate its authority to borrow money, make by-laws, execute contracts or institute legal action. The mandatory standing committees are:

- Building, Engineering & Town Planning Committee
- Finance & Strategic Planning Committee
- Human Resource Committee
- Tender Committee

The Act also gives authority to appoint persons who are not councilors to the committees except they cannot be included in the committee to regulate and control finances. Furthermore some members from outside the council are not to have any voting rights at meetings. In case of elected committee, the other condition is that at least two – thirds members of the committees must be councilors.

When a councilor ceases to be a member of the council, he also ceases to be a member of any committee.

The full council is required to meet at least once a month, but usually there are further special or emergency meetings. Most of the committees also meet once a month.

While Full Ordinary council meetings are open to the public and news media, committee meetings are restricted to councilors and invited persons. Notices of committee meetings are restricted to members of the relevant committees.

The Act also gives power to the councils to appoint their members to committees constituted jointly between municipal councils and/or with other types of local authorities established under

the Fijian Affairs Act and Public Health Act. Such committees usually formed for some specific need and do not function as standing committees.

The Act contains provisions as to who shall preside at councils meetings, the quorum at such meetings and the casting or second vote of the chairman.

The Act also sets out the circumstances in which a councilor may be removed by the Minister and the manner in which casual vacancies in the offices of the mayor, deputy and councilors shall be filled.

For the conduct of council and committee meetings, the council is empowered in law to make by-laws subject to the Ministers approval.

Councilors' are expected to be independent in their service to the council. Accordingly the Act provides where a councilor has any pecuniary interest in any matter before the meeting he will make such interest known and refrain from speaking or voting on the particular agenda item. For a councilor chairing a meeting, a pecuniary interest or holding of an office which may conflict with his duty as chairman, he is required to disclose the interest or appointment, vacate the chair and absent himself from the meeting during consideration of the particular subject.

2.8 Powers and Duties of Councils

Every municipal council Vision & Mission to promote health, welfare and convenience of the inhabitants of the municipality.

Municipal Councils uses their own Resolutions, By-Laws and other relevant Acts which is associated and incorporated with the Local Government Act to promote their vision and mission.

In a more specific area, a council may undertake, subject to the Minister's approval, public utility services including public transport to construct or maintain any public works which may be necessary or of benefit to the ratepayers.

The councils have the power to have dealings in land. They may purchase, lease, exchange or sell land. However, the Minister's approval is again required to sell or exchange council's land.

It is conceivable that a situation may arise that a council is unable to purchase land, for which it has need, by agreement and on reasonable terms. If this happens the council may invoke the powers of compulsory acquisition of land. The procedure to do so is first to seek the Minister's approval. Before giving his approval the Minister would need to be satisfied of the necessity for compulsory acquisition and for this purpose may ask for any inquiry to be carried out. Once the Minister's approval has been obtained the council has to apply to the High Court for an order in accordance with the Crown Acquisition of Lands Act. While it is not common in Fiji, in some other countries, usually more developed ones, provision of dwelling houses, particularly for those on low income bracket, is the responsibility of the councils. The Local Government Act gives power to the councils to provide dwelling houses. They may do this entirely on their own

or in collaboration with many statutory bodies or other organization. In the matter of determining rental for council houses, the Minister has the authority to fix the maximum amount.

2.9 Officers of Councils

The Act specifies certain minimum number of officers to be appointed

Salary determination on senior management positions is determined by the Ministry through Performance Management System whereas the junior positions rest with the respective councils.

The Act prohibits a councilor from holding paid appointment in his council. However, this does not prevent the Mayor being paid an allowance. He, and also other councilors if nominated for the purpose, is paid meeting allowance.

Where an officer has direct or indirect interest in a proposed or existing contract to which he was not a party, he/she has to declare interest in a formal written manner

Employees are recruited and contracted by individual councils. However, for industrial purposes there are trade unions for different categories of workers on national basis.

The titles of the department heads may vary across municipalities but titles should be in line with the classification of the municipality

For Cities - Director
 Medium Towns - Managers
 Small Towns - Officer

2.10 Finance, Accounts and Audit

Sections 37-57 of the Local Government Act deal with the municipal fund, bank accounts, loans and overdrafts, investment, keeping of accounts annual financial statements and their audit. The Councils have to adopt either IFRS or IFRS for SME's based on the revenue generated.

Every council is required by law to have a municipal fund into which rates, fees and other moneys belonging to the council are paid in. The major items of cash received by councils are general and special rates on land, rents on the property of councils, market fees, motor vehicle parking fees and other income for services rendered, loans and grants. The income from land rates is significant. Accordingly the Act makes special provision for it.

Council may raise a loan by way of bank overdraft or commercial loans through a formal approval of the Ministry of Local Government. Seeking commercial loans, councils should negotiate with financial institutions for best interest rates. Council could resolve to obtain an overdraft not exceeding in aggregate 5% of the recurrent estimated revenue of the council, but

for an amount in excess of this percentage and up to 15%, the assent of the Minister is necessary and beyond that the Minister could only approve after consultation with the Minister of Finance.

2.11 Investment

Councils having surplus funds can either invest in stock, bond, debentures and similar securities. Prior to investment approval must be obtained from the Minister.

Interest Bearing Deposit and returns from Investment properties of Council rests within municipalities.

2.12 Estimates of Income and Expenditure

The Councils are expected to operate under strict budgetary control (operating/recurrent and capital budgets) – very much similar to what happens in the central government.

Operating expenditures should be aligned in the yearly operating and capital budgets. Any expenditure not incorporated in the yearly budgets has to be approved in a Special or Emergency Meeting where transfer of funds has to be made from an existing unutilized budget.

To comply with this principle the Act provides that every council shall by November of each year prepare and approve estimates of income and expenditure of the council for the next succeeding year. The council should send a copy of the approved budget to the Minister.

For purchases of services or goods a preliminary costing should be performed by Council prior to the tender process to the management.

2.13 Keeping of Accounts

Budget Variance report should be included in the Finance Committee in order to monitor actuals against budget.

Budget Variance report shall be reported on a cash/ real time basis.

Reports accompanied in the Finance Committee are as follows:

- Budget Variance
- Debtors apart from rates Listing
- Creditors Listing
- Cash Flow Forecast
- Confirmation of Payments
- Bank Reconciliation
- Rates Collection
- General

Where such general and special accounts are kept, there is no authority to transfer funds from one special account to another. However, shortfalls in special accounts may be met by the general account; likewise surpluses in them could be transferred to the general account.

2.14 Public Availability of Accounts

Audited financial and Annual Accounts can be made accessible to the public.

2.15 Audit

The accounts of all municipal councils in Fiji are subject to audit as required by the Act. Unless the Minister directs otherwise, the auditor of these accounts is the Auditor-General of Fiji.

The Accounts should be submitted to the Office of the Auditor General on or before 31st May and a copy of the draft financials be submitted to the Ministry of Local Government.

2.16 Annual Statements

The keeping of accounts culminates into production of annual financial statements at the end of the year. These statements are required to be published in a newspaper, which must be done on or before 31st August of the succeeding year.

The two basic financial statements are the statement of Financial Position and statement of Income and Expenditure. The auditor is required to audit these statements and to give his opinion on them.

3.0 ANNUAL REPORTING

3.1 Requirements of the Law

The Act requires Councils to keep proper accounts and records of the general and separate accounts. Separate accounts refer to money raised or allocated for specified purposes and general account covers the rest of the activity of the councils. The Minister could direct the manner in which the accounts should be kept.

The financial year of the councils is 1st January to 31st December. The Act requires that by 31st May the councils should produce statement of the financial position of the general and special accounts showing the assets and liabilities as at the preceding – 3 December. They are also required to produce a statement of income and expenditure for the year. Again the Minister could direct the form in which these statements should be produced. They should be approved or accepted by the mayor and town clerk on behalf of the council.

The Act further requires that after these financial statements have been audited, they, or their summary, together with audit report on them should be published in an English language newspaper. If a summary only of the accounts is published, a note should be included that any ratepayer or person holding a security charged upon the council's property may inspect the full statement at the council's offices.

3.2 Object of Keeping Accounts and Annual Reports

The primary object of annual reporting is to enable councilors (elected council) or the management to discharge their responsibility of accountability to the government and ratepayers. Councilors' and staff are answerable for their performance. They must demonstrate that they have carried out their responsibilities effectively and efficiently over the economic resources entrusted to them to meet the mission and objectives of the council.

Accounting reports are used to aid management in making economic decisions for the best interest of the Council. Accounting reports should be presented in a simplified manner so that non-financial background members can easily understand such reports presented to Council for decision making.

The objective of the report should be to cover the following aspects:

- a) Corporate mission and performance objectives or targets,
- b) Cost of services and
- c) Financial position and resources

3.3 Statement of Objectives

The statement of objectives sets out in a formal way what the organizations aims to achieve. Some of the benefits that derive from publishing and statement of objectives may be summarized as:

- Increased awareness of the council's economic and social purpose,
- Easier understanding of the financial statements of council which will reflect how the objectives were being achieved and
- The ratepayers will have a better appreciation of their council's working and how the rates paid by them were being used.

The introductory part of the statement of objectives should align with the mission and vision of the council.

Finally the statement of objectives will set out the functional objectives with greater detail with stress on output or outcome of each of the objectives. In this part of the statement it necessary to be comprehensive enough to cover all material aspects but at the same time to be precise. Wherever reasonably possible to do so, quantities, timing and cost should be given.

3.4 Cost of Services

The information on cost of services very much relates to the outcome of the budget results and it links with the annual performance objectives of the council. It is often difficult to provide measurable performance factors.

Generally performance reporting will include graphs, tables and charts to show what the council planned to do during the year and how much of it was achieved, and at what cost.

3.5 Financial Position and Resources

Because of the system of accounting adopted in the public sector to cope with the particular kind of assets, it is generally necessary to go beyond the conventional balance sheet or statement of financial position to give full information about the resources at the disposal of the entity.

The balance sheet or statement of financial position will disclose all the assets and liabilities in the books of account. However, there are other assets and liabilities not so accounted for. Details of all such resources and commitment should be included in the report.

As discussed earlier in this manual, it is proposed to show in the books of account only those fixed assets which are realizable and or insurable. Capital expenditure on community type assets, such as roads, bridges, parks and gardens, are only included in the accounts as undischarged capital expenditure until the relative loans are paid off. They are not included as

fixed assets nor does the balance sheet show any description of them. To remedy this lack of information a statement of resources giving information on all such assets in quantitative terms and also by valuation, when such is available, should be included in the report.

Even under the accrual system of accounting no liability is recorded until goods and services have been received. However a committal of expense places restrictions on the future use of the resources. Such commitment may relate to contracts for supply of goods or services, contingencies, as for instance for litigation in progress in courts and guarantees given when there is no current liability but one could arise through the action of someone outside the control of the entity. All such commitment should be disclosed in the report.

3.6 Statement of Sources And Application of Funds

A report, generally called statement of sources and application of funds, to show the flow of cash funds has become generally accepted as a necessary element of annual reporting. This statement brings together in a summary form all movement of cash whether of revenue or capital nature, and shows the entity's position of cash viability.

3.7 Balance Day Transfers

Under IFRS there are usually some entries to be made in the accounts at the end of the year to reflect the true position.

Where a common bank account is kept to cater for several separate accounts, it is convenient to make adjustments between the accounts through the journal rather than drawing cheques against an account and receiving it as a credit to another account. An example is that of overhead expenses, which could be accumulated in one account and distributed by journal entries to the others. As far as possible these adjustments should be made as they occur, preferably within the month. If this is not done, the month's accounts will not show the true position. However there are some adjustments which are normally made only at the end of the year. Examples of these are provisions for depreciation of fixed assets and for doubtful debts. But if a debt has definitely become bad and cannot be recovered, there is no point in waiting until the end of the year to write it off from the books of account.

Other conventional ends of the year closing entries are made to transfer revenue and expenditure accounts to the accumulated fund. However even for these it is possible to show matching results in the monthly reports. In this way the councilors will be able to follow the progress of the results and then the annual figures are more of an expectation than surprise to them.

3.8 External Audit

An external audit is an independent examination of the financial statements prepared by the Council. It is usually conducted for statutory purposes (because the law requires it) and is independent of the entity being audited. The main responsibility of external audit is to perform the annual statutory audit of the financial accounts, providing an opinion on whether they are a true and fair reflection of the company's financial position. As part of this, external auditors often examine and evaluate internal controls put in place to manage the risks which could affect the financial accounts, to determine if they are working as intended and whether they have been properly prepared in accordance with the IFRS.

The external auditor will be the Office of the Auditor General and it is their prerogative to conduct the audit on their own accord or outsource the external audit to another audit firm. The Council has no jurisdiction over the appointment of the external auditors. The purpose of the statutory audit is to provide an independent opinion to the Councilors' /Special Administrator on the truth and fairness of the financial statements.

Auditors will generally go to great extent to obtain explanations they seek before finally deciding to give qualified audit reports. Once the audit is complete, it is the role of the external Auditors to have a "Exit" meeting to discuss some of the findings with the Finance team of the municipality as to allow the Finance team to provide explanations before the Management Letter is issued to the Council for comments. The Management Letter simply identifies weaknesses in the Internal Controls and other related issues pertaining to the preparation of the Financial Statements which could distort the Financial Statements.

Municipal Rates - Standard Operating Procedure

Background

General and Special Rates

- 1. Section 58 and 59 of the Local Government Act Cap 125 allows Council to rate properties for two specific purposes as follows:
- a. General Rates- Council may from time to time levy a general rate not exceeding 10cents in the dollar on the unimproved value of the rateable land within the Municipality assessed. Fijian Municipal Councils have been charging on average 1cent for General Rates. General Rates collected are for the purpose of supporting General operations and records are maintained in the General Fund Account.
- b. Special Rates- Councils may from time to time raise Special funds for a specific purpose which may be confined to an area or cover the whole area, however the funding is to be accounted for specifically via a Separate Fund Account. Maximum rates that can be charged is 5cents in the dollar. Special Rates struck by a Council needs to be gazetted.

Rateable Land

- 2. Section 60 of the Local Government Act Cap 125 states that all Land, including Crown land, within a municipality shall be rateable land for the purpose of this Act except for the following which shall not be assessed for General Rates:
- a. Crown Lands not leased or licensed.
- b. Lands used exclusively for the purpose recognized or Registered schools or other educational institutions, not run for profit, certified to be such by the Minister Responsible for Education.
- c. Lands used for the purpose of hospitals, maintained out of Public Funds or other medical institutions, not run for profit, approved by the Minister responsible for Medical Services for this purpose.
- d. Lands used for the purpose of mental homes or mental hospitals and orphanages not run for profit.
- e. lands used exclusively for purposes of public worship.
- f. Cemeteries and crematoria not run for profit.
- q. prisons.
- h. lands used exclusively for registered charitable institutions for public charitable purpose.
- i. lands used for purposes which the Minister may by notification in the Gazette specify.

Uniformity

3. Section 61 states that general struck shall be uniform in cents. Difference in total rates struck for a property is based on two indicators which are unit cents struck and the unimproved value of the property. Units cents shall be uniform, however, the unimproved value of the property shall differ which is ascertained by the Valuation team carrying out sexennial valuation.

Rating for Agriculture Land

4. Section 62 allows a Municipal Council to vary rates to be struck on Agricultural Land based on finding that the property is not fit or ready for subdivision for building

purposes. The section allows the applicant aggrieved by any decision of the Council to appeal to the Minister responsible.

Rating Valuations

- 5. All land in within town boundary are to be valued for rating purpose on unimproved value meaning the capital sum which the land if it were held in an estate in fee simple unencumbered by any mortgage or charge thereon might be expected to realise at the time of valuation.
- 6. Sexennial Valuation shall be caused to be carried out at the interval of every six years provided the Minister may by order postpone the making of a general valuation beyond six years. The Council may at any time cause a valuation to be made of any rateable property where:
- i. Land has been erroneously omitted.
- ii. such land was not rateable at the date of most recent valuation.
- iii. the sealing of the Council of an official survey plan.
- iv. the sale or letting since the time of such valuation of any land on which work has been done.
- v. a change in the use for which land is zoned.

Piecemeal sexennial valuation is to be met by the subject ratepayer. Council has been empowered to cause a valuation of a rateable property where the unimproved value of the land has for any reason decreased since the most recent general valuation.

Appointment of Valuers

7. Section 65 states the process of appointing valuers. Section 66 states the process of the process to enter valuations and assessments of rates in the rate book. Section 67 states the need to cause publication twice in a newspaper on rates.

Rates Book Maintenance

8. Rates Sexennial Valuation

A Council shall cause general sexennial valuation at the interval of at least six years interval. The Council is responsible to budget for the exercise, determine valuers and advise Permanent Secretary for Local Government to seek Ministers consent. In the case the Ministry is of the opinion that the subject exercise shall be postponed, then the relevant Council will advised. It is the responsibility of the Council to closely with the Ministry to establish date of sexennial valuation.

- 9. During the process of rates sexennial valuation, Council must assist valuers by supplying relevant land use information, building permits register and other statistics as and when required. At the completion of the valuation, Council shall carry out a citizen participation program where the valuers shall be given an opportunity to inform town citizens on valuation struck.
- 10. Council during the annual budget session shall discuss unit cents to be struck for the year. The amount struck shall be published twice in a local daily and a special leaflet prepared for the ratepayers that shall go with the rates demand notice. The

leaflet shall cover rates payment mode, possible actions Council may take to recover outstanding rates and services that the Council shall be providing through the general rates collected.

9. Rates Register and Journalizing

All Municipal Councils are to employ fit and proper officers to maintain records and collect rates. In its Finance Standing Committee the Rates Section is to provide a Rates Control Account for the month and Rates subsidiary account [outstanding balances].

It is important that the Rates Subsidiary account and Rates control account are verified by the Treasury head before being submitted in the standing committee meeting.

10. Rates Ageing Analysis

- i. Rates are due to be paid by the end of the month, however, arrangements as per Act may be made to settle the rates during the year.
- ii. The Rates unit/departments shall prepare monthly rates ageing analysis and present to the Finance Standing Committee showing:

No	Type of Property [Residential/ Commercial Industrial/etc]	Value of Rates Outstanding on properties In between \$0-2000	No of propertie s Outstanding with Rates in between \$0-\$2000	Value of Rates Outstandin g on properties In between \$2001 to \$5000	No of propertie s Outstanding with Rates in between \$2001 to \$5000	Value of Rates Outstan ding on properti es Above \$5001	No of properti es Outstan ding with Rates above \$5001
1	Residential A with Current Rates outstanding only						
2	Residential A with Rates outstanding more than one year but less than 3 years						
3	Residential A with Rates outstanding more than 5 years but less than 10 years						

4	Residential A				
	Rates	8			
	outstanding				
	for more than				
	10 years				

Rows shall be created in similar fashion for Residential B, C, D, E, Industrial, Commercial and Civic.

A statement analysis shall be prepared by the Head of the rates section showing:

- 1. Rates collection performance in every category above and stating challenges.
- 2. Challenges shall have recommendations on how to overcome the same and the Finance Standing Committee meeting shall in detail evaluate challenges and recommendations and take necessary action.
- 3. Analysis shall further in summary form inform the finance standing on:

No	Land Use Type	Active [Meaning no of rateable property has	Inactive [Meaning no of rateable property where	Total No
		met to discuss payment	no communications	
		arrangement	have been held	
		or made	with the Council	
		payments or is before Court	on rates	
		before Court	outstanding	
1	Residential Rates			
	Properties			
2	Commercial Properties			
3	Industrial Properties			
4	Civic Properties			
	Total			

For inactive accounts, the standing committee shall discuss on the possible actions to be taken and every other department assistance shall be taking to convert inactive accounts to active accounts.

Council shall monthly review collection strategies on inactive accounts and ensure that turnover is improved upon.

In addition, weekly meeting in between the Town Clerk/CEO, Head of the Finance and Rates Unit Head shall be held to discuss rates collection progress. If the Town Clerk/CEO feels fit to engage other Heads of Department for the purpose of improving rates collection he may do so. The meeting shall be recorded and presented in the Finance Standing Committee Meeting for endorsement.

11. Rates Concession

- i. All rates concession granted shall be by Council resolution and a certificate of concession amount entered into the file signed by the Town Clerk/CEO.
- ii. Rates concession may be via discounts for early settlement as per Council resolution which would be reflected in the rates demand notice and would not individually require certificate from the Town Clerk/CEO.
- iii. Rates concession maybe via rates amnesty interest waiver struck which above 7% requires Ministerial approval and would not individually require certificate from the Town Clerk/CEO.
- iv. Rates on cases of hardship or special arrangements in line with Ministerial approvals will need Town Clerk/CEO certificate endorsement and Council resolution to be maintained in file.

Hardship cases shall be carefully assessed, taken to the Council meeting for resolution and referred to the Ministry for endorsement. There shall be a statement from the rates section on the land use type [Zoning] and future payments of rates including current year rates.

Suva City Council 2012 assessment form shall be used to assess hardship cases. v. Interest waiver on rates shall be as per Ministerial approval in consultation with the Council. It shall be noted that during the year 2017 interest on waiver across the board has been granted for the first three months and ratepayers who would have made arrangements during the period to settle before 31/12/17 qualify for interest waiver. An activity report as at 31/12/17 shall be submitted to the Ministry for record keeping.

Rates Awareness

12. Rates Demand Note

- a. All efforts shall be made by Municipal Councils to issue demand notice to ratepayers before the mid December of the current year for rates to be struck for the coming year. In addition, to the Rates demand notice a newsletter shall be attached informing ratepayers on:
 - i. Essential services provided by the Council and its cost on the Council including Solid Waste Management and Sanitation services such as Grass Cutting, Drain Cleaning/maintenance and General cleaning and Sanitation enforcement including Health/Building and Environment enforcement.
 - ii. Rates struck for the year with discount and payments option
 - iii. Council beautification and Park upkeep plans
 - iv. Council Capital Projects ongoing and proposed new developments to start in the new year.
 - v. How Council intends to deal with rates defaulters who are unwilling to pay or come forward to discuss arrangements or challenges.
 - vi. Contact person for further information.
 - vii. Council conditions on rates account to be paid before renewal of Business License/Building permits/Rezoning.
 - viii. Interest on overdue accounts.
 - ix. Rates payment centres. All large and medium Councils are to open rates section and cashier on Saturdays 9.00am to 1.00pm to provide service to the community effective from December, 2017.

- x. The newsletter shall highlight possible actions as per law Council may take on defaulting rates in arrears account and the cost to be borne by the Council.
- xi. Newsletter shall provide electronic mail and telephone contact for ratepayers to contact on for further information and feedback.

Possible Actions on Recovery

13. Where Council feels that the ratepayer in unwilling to pay despite reminders Council by resolution may opt for further legal on the subject rates cases. Such cases before Court must be well recorded and monthly reports presented in the Finance Standing Committee.

Rates in arrears before Court shall be accounted under rates in arrears or default. Cases to be filed before Court must be properly financially planned to ensure that the Council does not end up injecting heavy cash in initial stages.

Internal Rates Audit

14. Town Clerk/CEO shall carry out half yearly internal audit of the rates unit of the Council and team shall include a senior finance team person who is directly not associated with the Rates team and two senior staff members from other departments. Report shall be submitted at the Council standing committee meeting.

Digital Government in Fiji

A Policy Paper

KPMG Services Pte. Ltd

March 2019

This report contains 40 pages

(PAG Services Page Ltd., (Registration No. 2001)3946G, a Singapore incorporated only

comment classification: KPMG Confidentia

Policy Recommendations

A summary of the policy recommendations on best practices of Digital Government in the greater Suva region is shown below.

Appoint Central Lead Body

Staff Buy-In

Educate and train staff of local councils

Encourage staff to promote the Digital initiative

Understand User Needs

Understand how users are currently doing the transaction

Design e-services based on an understanding of what users want to do

Security and Privacy

Identify potential threats to the system

Maintain integrity of the system

Classify and manage confidential data

Open Standards and Source Codes

Identify and adopt open standards

Ensure source codes remain open

Consistent User Experience

Create user platforms with consistent themes

Enhance integration across platforms / local councils

Stakeholder Education and Promotion

Organise large-scale publicity campaigns

Introduce services in phases

Bridge the Digital Divide

Include users with diverse backgrounds and digital competencies

Address varying conditions in accessing e-services

Collect Performance Data and KPI

Monitor number of transactions

Monitor number of transactions

Increase digital take-up

Increase completion rate

Improve user satisfaction

1 Introduction

KPMG has been engaged by the Asian Development Bank (ADB) to develop a policy paper for implementing a Digital Government in the greater Suva area. To do this, an assessment of the current state of operations and digitisation among the local councils was first undertaken via series of workshops and individual meetings including with the Ministry of Local Government and Planning in December 2017, and March, May, July and September 2018. An end goal was then developed, based on best practices globally, with key implementation steps that need to be taken.

1.1 Overview of Local Councils in the Greater Suva Area

Within the greater Suva area, four local councils carry out local administrative functions for the residents of the respective towns. These four local councils are:

- Suva City Council serves a population of 93,870 (as per the 2017 census) and is run by a government appointed Special Administrator. Services of the Council include, town planning, development control, health inspection, rates collection, building permits, waste management, management of the municipal, fish and handicraft markets, traffic and car parking and business licensing and approval.
- Nausori Town Council, is a rapidly growing area with a prospering business sector. In addition to housing the Nausori International Airport (Fiji's second international airport), there are a total of 595 registered businesses in Nausori Town. This is likely to increase with the ongoing developments taking place. The Nausori Town Council serves a population of 57,882 (according to the 2017 census) residents in Nausori, Davuilevu, Naulu, Nakasi and Wainibuku. The services provided by the council include rate collection, building and plan processing, town planning includes subdivision, conditional development & rezoning processing, business licensing and approval, rubbish collection, town maintenance, management of the municipal market, traffic and car parking.
- Nasinu Town Council is a popular municipality in Fiji and is one of the fastest-growing towns. It is a major residential hub, housing a large majority of the work force in Nasinu and Suva. The Council was established in 2000. With a population of 92,043 (based on the 2017 census), under the management of the Chief Executive, the Council is responsible for providing services such as rate collection, traffic and parking, building approvals, business licensing and approval, rubbish collection, town maintenance and planning. The township of Nasinu includes the Laucala Beach Estate, Valelevu, Nadera, Nadawa, Caubati, Kinoya, Newtown, Nasole, Nepani, Makoi and Narere.
- Lami Town Council is responsible for providing services such as public works, drainage, waste management, health promotion and welfare, garbage collection, building permits and local tax payments. These services are provided by the five departments with the Council Town Planning and Building Services, Health and Environment Services, Public Works and Services, Enforcement and Parking Meters and Finance and Administration. The Council is managed by an appointed Chief Executive Officer. According to 2017 census, the total population of Lami was 24,657.

1.1.1 Challenges

The four local councils face similar challenges in their operations and interactions with residents, as shown in Figure 1.

Majority of processes are manual in almost all areas of operations

Funding gap as rates are unable to cover expenses from undercollection or nonpayment

Limited resources to meet increasing expectations

Physical storage of files that is spaceconsuming and not protected from weather elements

Duplication of resources across services and departments

Lack of 2-way communication with stakeholders and residents

Approvals and licenses are timeconsuming and duplicative

Figure 1: Overarching Challenges Faced by Local Councils

1.1.2 Suva City Council

The main operations of the Suva City Council are around rates collection and issuing approvals and licences. Almost all of the council's operations are performed manually, for example:

- While rates and business licence invoicing are system-generated, queries and payments are mostly done in person;
- The process for building approvals is entirely manual, from the lodging of applications to the processing of the permits within the council; and
- Procurement is all manual, including the submissions of bids from suppliers.

In addition to the manual nature of the processes, there is significant duplication of resources with different departments having to process the same application. Duplication also exists on the user side, as the same application has to be filed at a number of different departments.

The Suva City Council currently has a functioning website with information on rates, application processes and checklists. The website also has a feedback email and portal that allows residents to communicate with the council. However, the website does not host e-services.

The main challenges of the Suva City Council are:

- There is a leakage of rates, both from the council's under-collection of rates, from the council not capturing all of its rate-paying population and under-charging of rates, as well as residents' non-payment of rates;
- Limited resources to meet increasing expectations from residents;
- Requirement on the council to provide services to peri-urban areas outside the greater Suva area boundary;
- Data files are stored as paper records, with the council having about 11,000 files currently; and
- There is no sharing of resources between local councils.

1.1.3 Nausori Town Council

The main operations of the Nausori Town Council are around rates collection, licence approvals and property management. Like the operations of the Suva City Council, operations at Nausori Town Council are largely manual and requires in-person payment of rates.

The council also has a functioning website with some information on rates, but the information is not updated. There are also no e-services provided on the website.

There were previous plans to digitise the council, but plans were not progressed. The main challenges of the Nausori Town Council are:

- There is a leakage of rates, both from the council's under-collection of rates, from the council not capturing all of its rate-paying population and under-charging of rates, as well as residents' non-payment of rates;
- There is loss of institutional knowledge as knowledge is kept by individual staff members and leaves the council when staff leaves;
- Limited communication with stakeholders:
- Data files are stored as paper records; and
- Significant resistance to change, especially in terms of digital initiatives, from staff and customers as they are not technically competent with technology.

1.1.4 Nasinu Town Council

The main operations of the Nasinu Town Council are around rates collection, licence approvals, property management and city planning. Residents are mainly from middle-to low-income households with limited contribution to rate payments, such that the council's rates collection is low. Like the other local councils, processes are generally manual.

The main challenges of the Nasinu Town Council:

- Funding gap as rates are insufficient to cover operating costs;
- Limited resources to meet increasing expectations from residents and increasing application volumes;
- Files are in paper records with no digital copies, taking up physical storage space that is costly;
- There is significant duplication of resources in processing applications / invoices;
- · Approvals are slow due to the manual nature of the process; and
- Significant resistance to change, especially in terms of digital initiatives, from staff and customers as they are not technically competent with technology.

1.1.5 Lami Town Council

The main operations of the Lami Town Council are around rates collection, licence approvals and property management. About 90 per cent of all rate payments are done manually.

The main challenges of the Lami Town Council are:

- Severe resource constraints as most of the operations have to be self-funded;
- Bad debts are high, at about \$1.7 million, and chasing residents for payments is challenging;
- Files are in paper records with no digital copies, taking up physical storage space that is costly, and also leaves the files susceptible to damage from fires and other weather conditions; and
- There is limited technical capabilities of staff in using new IT systems.

1.2 Areas for Digitisation

The similarity of the nature of operations and extent of digitisation in all four local councils mean that the development and implementation of Digital Government will be similar across the councils. The priority areas for digitisation are:

- Digitising file records and establishing an online registry / filing system;
- · Developing a shared procurement system; and
- Developing a shared rates enquiry and payment system.

1.3 Current State Assessment

The Information for Development Programme (InfoDev) of the World Bank has set out a three phase approach to developing the digital agenda for Governments. There are

¹ The E-Government Handbook for Developing Countries, a Project of InfoDev and the Centre for Democracy & Technology

three key phases – publish, interact and transact – with increasing levels of maturity and interaction with the public.

An assessment of the four town councils showed that:

- The Lami Town Council and the Nasinu Town Councils do not have their own web pages, and are not even at the Publish stage;
- The Nausori Town Council and the Suva City Council have their own web pages with information on rates and other forms and applications. The web pages also have online feedback channels, which puts them at the Interact phase; and
- None of the local councils are at the most mature phase, the Transact phase.

These are shown in the Figure below.

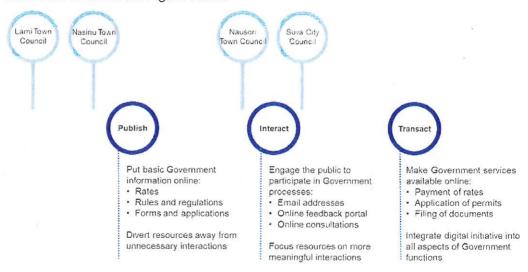

Figure 2: Key Phases in Digital Government Development

1.4 Digital Government vs. e-Government

Globally, there is a shift from simply using ICT to provide e-services to people (i.e. e-Government) to having these services and technologies as an integrated part of a Government's strategies. The latter is known as digital Government, and involves the entire ecosystem of stakeholders of the Government providing inputs to the design of the digital system.

The key differences are shown in Table 1.

Table 1: Digital Transformation of the Public Sector

E-Government	Digital Government		
Designed from the perspective of the service provider / system developer	Designed after numerous rounds of consultations with stakeholders (e.g. general public, companies, organisations, other Government agencies)		
Standalone system that only provides a single set of eservices	Integrated system that links all related e-services for a comprehensive "end-to-end" journey for the user		
Minimal cost savings generated, with the same inefficiencies and bureaucracies still in place	Takes into account Government's strategies, capacities, workflows, processes in trying to generate efficiencies / cost savings		
No ecosystem created	Creates a "digital ecosystem" where stakeholders are constantly interacting with one another digitally		

Source: Adapted from OECD Digital Government

In many countries, the shift from e-Government to Digital Government have involved fundamental modifications to digital infrastructure, operations, agency function and mindsets. These changes are significant, and have sometimes been the cause of unsuccessful implementation of the Digital Government initiative.

The absence of Government e-services in the greater Suva region, and in Fiji, can be treated as an opportunity for Fiji to jump straight into developing a digital Government, bypassing the large investments in and subsequent modifications to the e-Government setup.

1.4.1 Benefits of Digital Government

The benefits of implementing a Digital Government will be felt across all aspects of the economy, in the interactions of the Government with citizens, with businesses and even with other Government agencies and local councils. These are shown in Figure 3.

Citizens Businesses Convenience of accessing all Convenience of performing Reduce costs from maintaining relevant information related to transactions physical copies of information applications / permits Quicker turnaround times for Reduce resource duplication Reduced transaction time from processing of applications / through having shared portals skipping queues permits. Improved service quality through Ability to provide higher service Reduced duplication of efforts from pleasant web interfaces standards with the same amount having a single application portal of resources. Increased interaction with Government and participation in Improved transparency from a Ability to serve larger geography Government processes of residents centralised procurement portal Facilitate sharing of non-Reduced duplication of efforts from confidential information (e.g. having a single portal customer credit rating) Institutional knowledge retention

Figure 3: Key Benefits of Digital Government

Global studies have found that online interactions with residents have helped to save significant costs for Governments, freeing up resources to provide higher value-added services or to serve a larger number of residents. Face-to-face interactions are the most expensive, with costs² decreasing with a lower amount of physical interaction, as developed in two studies in Australia and the UK. (Figure 4)

	(
Face-to-face	Telephone	Postal	Online
AS 16.90	A\$ 6.60	AS 12.79	AS 0.40
£8.62	€2.83	5 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5	€0.15

Figure 4: Average Cost of Transaction, by Channel Sources: Digital Government Transformation in Australia (2015), UK Local Government Association, Transforming local public services (2014)

The shift from introducing Digital Government to having a 100 per cent digital take-up rate does not happen overnight, but incrementally over time. The benefits of a one per cent shift towards digital is larger the larger the volume of transactions handled (from economies of scale), with services such as procurement, providing information and collecting payments experiencing the largest cost savings. (Figure 5)

² Costs refer to labour resourcing activities (e.g. call centres, keyboard operators, enquiry clerks, mail sorters) and expenditure on ICT (e.g. applications, mainframe, storage, gateway, end user infrastructure, voice services, helpdesk) where relevant for each channel.

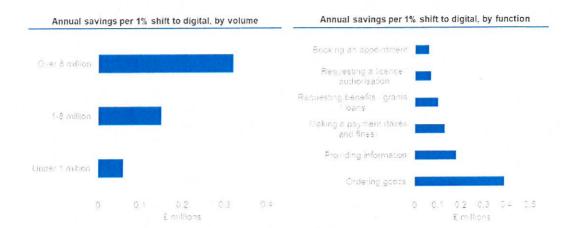

Figure 5: Annual Savings per 1% Shift to Digital Source: UK Government, Digital Efficiency Report (2012)

1.5 Recommendations

The rest of this paper lists the recommendations on best practices of a Digital Government in the greater Suva region. They relate to all three phases of a Digital Government (i.e. publish, interact, transact) but with greater emphasis on the Transact phase. The Transact phase represents the end goal of the Digital Government initiative.

For some of the local councils (Lami Town Council and Nasinu Town Council), these may be targets for the more distant future, as the base of having a web page, for example, must first be established. Regardless of the level of development, it is important for local councils to keep these end goal best practices in mind, in order to achieve the desired end outcome.

The recommendations will focus on the most mature state, in allowing residents to transact digitally with the local councils. They are:

- Have a central lead body to champion the Digital Government cause;
- Train staff from the local councils to get buy-in as well as have them act as agents of promotion;
- · Design the e-services with an understanding of users' needs in mind;
- Ensure that the system is secure and that personal and confidential data are handled appropriately;
- Use open standards and open source codes;
- Ensure a consistent user experience across services and local councils;
- · Engage in stakeholder education and promotion;
- · Ensure digital inclusion; and
- Set Key Performance Indicators and collect performance data.

2 Appoint Central Lead Body

For Digital Government to be successful among the local councils, there needs to be an appointed lead body in-charge, tasked with a clear mandate to effect change. The lead unit will have to promote the related initiatives, adhere to milestones and be held accountable to Key Performance Indicators (see Section 10).

There is on-going debate on where such a body should sit within Government.³ The location of the unit affects the kind of political backing given to the agenda, with the key considerations shown in Table 2.

Table 2: Comparing the Location of the Lead Digital Unit

Benefits from being an agency separate to a Ministry	Benefits from being within a Ministry or directly reporting to a Minister		
 Separate from the political process and has greater continuity across political terms 	Digital agenda will be personally promoted by the Minister in-charge, gaining huge momentum		
	Ability to carry out cross-cutting reforms across different Ministries and agencies		

An OECD survey shows that among the surveyed countries, 60 per cent of them have their lead digital unit reporting to a Minister, and 20 per cent to an agency. (Figure 6)

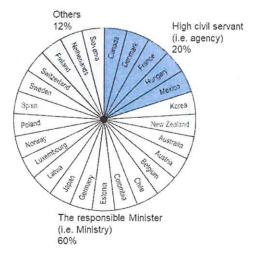

Figure 6: OECD Survey: "To whom does the head of the unit/function responsible for leading and coordinating ICT use report to?"

Source: OECD Digital Government Performance

³ See, for example, OECD Digital Government Studies "Digital Government in Chile" – Chapter 1: Digital government governance frameworks in selected OECD countries and Uruguay

Examples of where the central lead bodies sit within the Governments in different countries is shown in Table 3.

Table 3: Examples of Central Lead Bodies

Country	Lead body			
Australia	Secretaries' ICT Governance Board chaired by the Secretary of Finance			
Canada	Treasury Board of Cabinet headed by the President of the Treasury Board			
Finland	Public Sector ICT Department in the Ministry of Finance headed by the Director General (Gov CIO)			
Japan	IT Strategic Headquarters in the National Strategy Office of ICT			
Korea	Director-General of E-Government Bureau in the Ministry of Security and Public Administration			
Norway	Ministry of Local Government and Modernisation			

Source: OECD Digital Government Performance

In the Fiji context, the Ministry of Local Government and Planning would be a good candidate for the central lead agency.

3 Staff Buy-In

3.1 Overview

Before any e-service can be designed or introduced by the local councils, staff of the local councils must first be familiar with the digital initiative and have the required domain knowledge. Staff buy-in is critical for the local councils to present a united front in presenting the proposed changes to the general public.

3.2 Steps Required

Steps required in educating and training staff are:

Steps	Description			
Educate and train staff of local councils	 Educate staff on the rationale behind the Digital Government initiative and the push for introducing e- services 			
	 Conduct training workshops for technical skills for working with external developers and contractors 			
Encourage staff to promote the Digital initiative	 Create a culture where staff are enthusiastic about the initiative and help to promote the initiative outside the work environment 			

Case Study: Staff Buy-In in Victoria, Australia

Background

Brimbank City Council, a local council in Victoria, Australia, wanted to redirect its focus to provide better customer experience through its website. To do that, the council introduced the #communityfirst project that set the target for the entire council to be customer-centric in their operations and interactions with residents. However, there were varying levels of technological resistance from staff in the local council to the initiative. There were also many differing views on what being customer-centric meant, such that the council could not present a united front to the residents and other stakeholders.

Initiative

To ensure staff buy-in, senior staff within the council played active roles in promoting the programme within the organisation. They presented a united front before the rest of the organisation, and took the stand of the organisation.

The council also conducted staff workshops across all its departments to identify all the different viewpoints among the different levels of operations. Staff also attended relevant digital and technology-based conferences and meetings to understand the latest trends and opinions to bring them up to speed with national and global developments.

Outcome

Through its initiatives, the council was able to achieve council-wide buy-in on fostering a digital and customer-focused culture. It was also able to successfully implement transaction-based and mobile-responsive websites and e-services.

Source: Australia's Digital Government Transformation

4 Understand User Needs

4.1 Overview

Digital services provided by the local councils have to cater to the needs of users. The design of an e-service cannot be done from just the perspective of the service provider or software developer, but have to also consider the entire ecosystem of stakeholders of the local councils (i.e. residents, associations, private and other public organisations). This ensures that the Digital Government initiative is well integrated into the operations of the local councils.

In addition, a well-designed e-service allows users to intuitively perform the transaction on their first attempt without having to go through a separate session to understand how the platform works.

4.2 Steps Required

A proper understanding of users' needs will have to take into account the following areas:

Steps	Description			
Understand how users are currently doing the transaction	 Map the user journey through each transaction, and anchor the e-service around visible and intuitive key intermediate steps 			
	Remove areas of inefficiencies that become redundant through going digital			
Design e-services based on a good	Be able to use simple language to describe the services that need to be provided			
understanding of what users want to do	 Organise stakeholder research and feedback sessions to understand the needs of the users, including trial runs of the e-service to identify problematic areas 			
	 Receive and incorporate feedback on areas of improvements from users 			

KPMG

Case Study: Understand User Needs in Kerela, India

Background

Kerala, a town in India, introduced the Akshaya programme that had service centres set up within a two km radius of households. The programme aimed to improve eliteracy in underserved areas. To encourage citizens to use the service kiosks, they had to be designed in a way that was intuitive to the user.

Initiative

Government processes were redesigned as an end-to-end process for the user, rather than a combination of online and offline tasks, to encourage take-up rates. Citizen walkthroughs were also available at the service kiosks, where officers were stationed around the kiosks to immediately answer questions or walk users through the services and the processes required.

Key indicators (e.g. rate of rejection, drop-outs) were actively monitored to identify the steps where users had most difficulties, for future modifications. Processes were also streamline, by identifying and removing excessive bureaucratic hurdles.

Outcome

There is now a single windoe for all citizen services, with 2,837 Akshaya centres all over Kerala. Through these service kiosks, citizens are empowered through ICT and are able to interact regularly with the Government digitally.

Source: World Bank Case Studies

Case Study: Understand User Needs in the UK

Background

The UK Government has a central user testing laboratory that it uses to test new services or gather insights, and is continually looking at ways to improve the facility.

Initiative

The research team actively visits user research laboratories in private companies to understand how other organisations conduct user sessions.

Outcome

Some of the key ideas learnt from other organisations include designing research rooms to cater for all sorts of user tests (including eye-tracking devices that track where eyeballs land on webpages more frequently), the use of technology to live stream user sessions to both internal and external teams and time-stamping videos for researchers to references findings afterwards.

Source: UK Government Digital Service Blog "A user research lab for all of Government"

5 Security and Privacy

5.1 Overview

For people to have confidence in the e-services provided by the town councils, they must have certainty that the confidential information they provide is stored and managed properly. The two aspects to this are the security of the system as well as a proper understanding of data privacy.

Data privacy is an area that is gaining a lot of attention globally. Personal and confidential data have to be treated with more caution than other types of data. Users of the eservices need to be given a right to know where and how the data that they have provided are being used.

5.2 Steps Required

To ensure security of the service as well as data privacy is being managed, the following steps will have to be taken:

Steps	scription		
Identify potential threats to the system	 Show that potential threats have been identified, such as potential pathways for hackers, and how these have been reduced as much as possible Develop plans on how to continuously monitor for new threats 		
Maintain integrity of the system	Develop appropriate authentication methods that are secure but also as seamless as possible to the user		
Classify and manage confidential data	Develop guidelines on what constitutes confidential and personal data		
	 Ensure that appropriate consent is obtained from users from which data are being collected 		
	 Provide visibility to users on where their personal data is being shared and used 		
	Ensure that users can retrieve data previously provided		

KPMG

Case Study: Security with Cloud Computing in the UK

UK Government Cloud Security Guidance

Cloud computing is a growing global trend with enormous benefits but has its associated security threats. The UK Government recognises this trade-off, but has given in-principle approval for its agencies to use public cloud services in storing data, including sensitive data.

Regardless, individual agencies are encouraged to conduct self-assessment on the suitability of cloud computing depending on a number of factors such as:

- Understand business requirements do the operations of the agency require cloud service? Availability of the service and connectivity requirements should also be considered;
- Stock take of information understand the type of information that will be stored or processed on the cloud, and if there are any regulatory implications;
- Obtain assurance individual agencies have to work with the cloud service provider and be satisfied with the security assurance being provided before agreeing to using it; and
- Additional mitigraion and risks decide whether remaining risks are acceptable and list mitigation measures, monitoring them on a continual basis.

Case Study: Data Privacy

Personal data privacy is a key area of concern globally, with breaches having huge consequences. A KPMG survey showed that:

75%

Uneasy with online shopping data being sold to third parties

55%

Decided against buying something online due to privacy concerns

55%

Control over privacy is more important than convenience

>2/3

Not comfortable with smartphone and tablet apps using their personal data

Most Trusted...

ATTS Backing 1976 Hearth Providers 3678 Law Enforcement

21% Technology

17% Supermarkets

14% Gamil

14% Retailers

13% Social Media

...Least Trusted

Source: KPMG International (2016) "Crossing the line: Staying on the right side of consumer privacy"

6 Open Standards and Source Codes

6.1 Overview

Open source codes for software refer to codes that the public can inspect, modify or enhance, as compared to closed or proprietary source codes that are only accessible by the developer that created it. Open source codes give users of the software more control over and greater understanding of the way the software is being programmed. Software designed with open source codes are also more secure, as they benefit from constant third party checks, and has long-term stability without the risk of the developer stopping the codes for the software.

Standards are frameworks that define how products and processes have to be developed so that there is interoperability across different products. Using open standards in the design of e-services give developers equal access to local council IT contracts, flexibility in cooperation with other local councils and help to keep costs down. Having open standards prevents local councils from being locked into unique contracts and being overly reliant on a single developer. It also makes the e-service agile and adaptable to change as required, including the ability to switch between different technology standards.

Having open standards and open source codes allows local councils to share software and platforms with one another, reducing duplication of resources.

6.2 Steps Required

In adopting open standards and source codes, the following steps need to be taken:

Steps	Description			
Identify and adopt open standards	Create a list of open standards of HTML, CSS, JavaScript in developing prototypes, particularly the ones that are commonly used globally			
`	Identify tools, systems or processes that can be adopted or reused from comparable e-services in other jurisdictions			
Ensure that source codes remain open	Provide descriptions of the efforts taken to make source codes open and reusable			
	Make provisions for contributors to the code or further modifications in the future			

Case Study: Open Standards in the UK

Open Standards Principles in the UK

In 2015, the UK Government published guidelines on the Open Standards Principles to open up Government and recognise the efficiency gains of web-scale technologies. The aim of the principles was to aid Government agencies in selecting open standards for overall interoperability and data exchange between agencies.

Examples of the standards selected for the UK.Gov website include:

- Date-times and time-stamps ISO 8601 standard for dates and times where machine readability is the main concern, such as in APIs, data exchanges, date sorting
- Publishing job vacancies JobPosting schema standard for publishing vacancies both publicly and internally that has standard fields such as salary, location, hours as structured data
- Multi-agency incident transfer Multi agency incident transfer protocol (MAIT) is an XML schema that allows for incident records to be electronically shared from one emergency service to another through defined fields and values

Source: UK Government Open Standards Guidance

7 Consistent User Experience

7.1 Overview

A consistent user experience across all local councils and, more importantly, all eservices provided by one local council, is important in building trust and confidence among users. This consistent user experience is created through the use of common platforms and interfaces, such that the user experience does not change drastically from one e-service to another.

Having common platforms also reduces the duplication of resources as web pages and platforms can be re-used for new e-services in the future.

In line with the move towards a Digital Government, a consistent user experience facilitates the integration of the different services provided by a local council, as compared to having standalone e-services.

7.2 Steps Required

To achieve a consistent user experience across town councils and e-services, the steps required are:

Steps	Description			
Create user platforms with consistent themes	Develop guidelines on how the web pages by a town council should look like, including logos, user interface, webpage design			
40.00	 Have a common landing page for the different e-services provided by a town council 			
Enhance integration across platforms / local councils	Identify commonly used operations or linked transactions and develop a seamless interface across e-services			

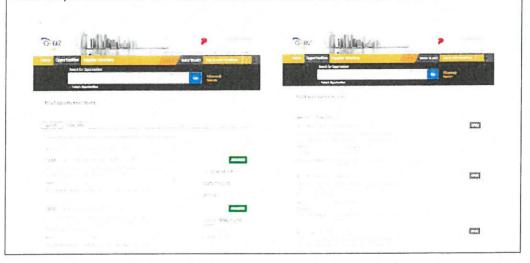

Case Study: Consistent User Experience in the UK

The UK Government has a central website that merged the websites of 25 Ministerial departments and 385 other agencies and public bodies. All the policies, publications, statistics, consultation and announcements from Government are housed on a single platform.

Case Study: Consistent User Experience in Singapore

The Singapore Government has a central procurement system that lists all Government tenders for a standard number of days. All bidders, quotes and winning bids are published and left on the website for six months after the close of the tenders.

8 Stakeholder Education and Promotion

8.1 Overview

Almost all services provided by the four local councils are currently done manually with little digital involvement. Stakeholder education will therefore have to start from the basics of introducing the e-services and the benefits they bring, through to encouraging take-up and having e-services completely replacing traditional approaches as the default medium of communication.

Stakeholder education is not standalone from the other recommendations in this paper. The earlier recommendations help to ensure that the e-services and web pages are, among other things, intrinsically user-friendly and secure. This helps to build the base for further and successful external stakeholder engagement.

8.2 Steps Required

Many Governments have successfully introduced and implemented initiatives as part of their Digital Government push. Successful strategies involve:

Steps	Description				
Organise large-scale publicity campaigns	Hold publicity campaigns that highlight the benefits from using e-services, especially from the user perspective				
	 Hold training campaigns to introduce the e-service web page and other features to users 				
	Open a feedback or queries hotline to address questions from the public to prevent doubt from spreading				
Introduce services in phases	 Gradually introduce e-services in phases to ease users into accepting the digital initiative (i.e. publish, interact, transact) 				
2	 State a final deadline where all transactions are, by default, performed digitally 				

Case Study: Stakeholder Education and Promotion in Dubai, UAE

Background

The Government of Dubai was the first Arab state to offer e-Government services to its people. The services were housed on a central portal shared by 24 Government departments.

Initiative

To get buy-in, the Government had to launch extensive marketing campaigns for the general public. Marketing materials focused primarily on the convenience that eservices will bring to users, such as them no longer having to queue, or having to travel far distances to the city to perform such services. The Government also conducted Internet training and large-scale information campaigns in the media.

Outcome

The successful marketing exercises resulted in widespread adoption of the digital initiative, with the UAE being one of the leaders in the digital agenda now.

Source: World Bank Case Studies

Case Study: Stakeholder Education and Promotion in Gyandoot, India

Background

Even though India had many e-services, many of the remote villagers were not participants in the initiative as they were not digitally competent.

Initiative

Educating stakeholders can sometimes refer to bringing the technology to people, if they are not willing to go out of their usual routine to try the new technology. To do this, the Government introduced portable kiosks through the use of laptops in remote villages. This was undertaken in conjunction with education campaigns to teach villagers how to us the laptops and e-services.

Outcome

The successful marketing campaign led to remote villagers being introduced to the Internet and accessing relevant information instantaneously, such as crop prices. Villagers were also able to reduce travelling time to the cities to conduct simple transactions that can now be done online.

Source: World Bank Case Studies

9 Bridge the Digital Divide

9.1 Overview

The introduction of the Digital Government initiative must not exclude users with varying needs, including those with disabilities, those who are digitally incompetent or illiterate and the unbanked. Residents living in remote areas may be limited in their interactions with the local councils due to long and difficult commutes to the city. The official banking system may also currently exclude some residents, due to reasons such as the lack of financial credibility. The design and rollout of the e-services must therefore keep these groups of users in mind.

9.2 Steps Required

To ensure that the e-services are designed for as many users as possible, the following steps should be taken:

Steps	escription			
Include users with diverse backgrounds and digital	 Involve diverse groups of users from different demographic and cultural profiles and banking statuses during the research and design consultation phase 			
competencies	 Design web pages and e-services in multiple languages (In Fiji this could be English as well as local native dialects) 			
	 Have in place digital assistance services (e.g. web chat, common questions page, telephone assistance) 			
	 Receive and incorporate feedback and suggestions on improvements to e-services 			
Address varying conditions in	Optimise web pages and services to cope with varying internet connections and speeds			
accessing e-services	Implement mobile versions of e-services to cater to users with no broadband connections			

Case Study: Bridge the Digital Divide in Bahia, Brazil

Background

The State Government introduced Citizen Assistance Service Centres (SAC) that bring together Federal, State and Municipal agencies in a single location to offer the services that citizens most frequently need and use. SACs are placed in urban locations and are not easily accessible to remote villagers.

Initiative

To ensure that remote and poorer areas of the country are serviced equitably, mobile SACs were developed as 18-wheel trucks equipped with air-conditioning, TV set, toilets and covered waiting areas and driven to villages.

Outcome

With the mobile SACs, remote villagers were also able to participate in e-services, and experienced tremendous time savings on transactions.

Source: World Bank Case Studies

Case Study: Bridge the Digital Divide in Australia

The Australian Digital Inclusion Index 2017

A digital inclusion study was developed in Australia that rates digital inclusion on a 0-100 score. Scores were based on three indicators — **Access** (internet, technology, data allowance), **Affordability** (relative expenditure on internet, value of that expenditure) and **Digital Ability** (attitudes, basic skills, activities).

The study found that while digital access nationally is improving, the gap between the digitally included and excluded is widening. The study also identified groups of people within Australia that are at high risk of being digitally excluded:

People aged 65+

Score of 42.9, or 13.6 points below the national average

Women

Overall, women score 2.0 points below men, which increases to a gap of 3.3 points for women aged 65+

People with disabilities

Score of 47.0, or 9.5 points below the national average, but inclusion has been improving since 2014

Indigenous population

Score of 49.5, or 7.0 points below the national average, but inclusion has been improving since 2014

Low income households

Households with annual income < AS35,000 scored 27.0 points lower than households with annual income > AS150,000

Mobile-only

Score of 42.3, or 14.2 points below national average, due to more expensive mobile data charges (vs. fixed line) and imitted functions on mobile

10 Collect Performance Data and KPI

10.1 Overview

Collecting and measuring performance data is important as it ensures that resources are utilised efficiently and that the overall timeline of the Digital Government implementation is in line with overall strategic objectives.

A key set of performance data to measure is the rate of digital take-up, or the percentage of transactions that are done digitally. Other performance indicators, while important, are secondary to digital take-up.

10.2 Steps Required

A list of key performance indicators are:

Steps	Description
Monitor number of transactions	Measures the volume of transactions handled by the platform
Measure costs	Measures the costs incurred in providing the services
	There needs to be an allocation mechanism for overheads (e.g. IT software, maintenance) between the difference e-services
Increase digital take- up	Measures the percentage of transactions that are done digitally over the entire number of transactions that are carried out within a period of time
	This is key to the success of the Digital Government initiative, and overtime, should move towards 100% digital only
Increase completion rate	Measures the percentage of e-service transactions completed over the number of e-service transactions started
	 A higher completion rate means the e-service is more intuitive and user-friendly; a lower one means there needs to be further understanding of user needs
Improve user satisfaction	 Measured by a feedback score that users leave after completing an e-service transaction or using the web page

Case Study: Collect Performance Data in the UK

Performance Dashboards

One section of the integrated UK Government website tracks performance data by department and by the types of transactions. The main indicators used to track performance are: cost per transaction, user satisfaction, completion rate and digital take-up.

788 service dashboards allow users to quickly understand how each of the services are doing, with historical data on how the indicator has changed over time.

An example of the dashboard for the Stamp Duty Reserve Tax transactions, which has the highest number of transactions among the e-services on the website (1.5 billion / year).

Transactions per year 1.54bn		<u>Total cost</u>			Cost per transaction	
		£9:	£92.4m			£0.06
Apr 2016 to Mar 2017		Apr 2016	Apr 2016 to Mar 2017		Apr 2016 to Har 2017	
-3.19% Jan to Dec 2016		-3.19% Jan to Dec 2016		0%	lan to Dec 2016	
Transaction	s per quarter					
	ansactions each quart	ter				Jan to Mar 2017
800m - 400m - 200m -	410m	410m	393m	378m	359m	359m
0 - Dates De	: 2015 Jan to 1 far 2019	Aprim June 2016	July to Sep 2016	Garto Dec 2016	"an to Mar 2017	
Digital take	·un					
Digital take-up rate						
	5 100%	100%	100%	100%	100%	Jan to Mar 2017
100% - 100						
100% - 100%						100%

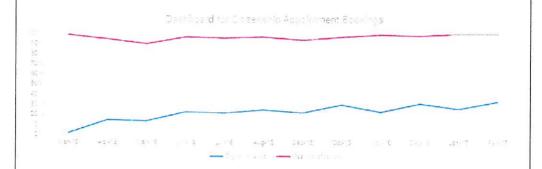

Case Study: Collect Performance Data in Melbourne, Australia

Citizenship Appointment Bookings

The Melbourne Government office handles about 1,000 citizenship appointments a week, which used to be done manually. With the e-service, one of the largest benefits was time savings to users, at approximately 60 minutes per transaction.

A dashboard was set up to monitor the performance of the e-appointment service, and tracks a number of indicators including the digital take-up rate and user satisfaction. Digital take-up rate is increasing over time, which is expected for a newly introduced service, and user satisfaction ratings are consistently near 100 per cent.

11 Implementation Roadmap

11.1 Overview

The transition of the local councils from their present state to a Digital Government will be implemented in phases.

A high level roadmap to 2030 is developed. The initial years will be spent developing the basics, such as setting up a website (for those local councils that do not yet have one) and digitising physical paper records into a digital database.

Stakeholder engagement will have to be an ongoing process that starts as early as in 2019 and carries on until the e-services are fully launched. It is important to gather feedback and involve stakeholders in the entire process, from understanding user needs to testing initial products and incorporating feedback and suggestions.

After the e-services are launched, there also needs to be continual performance monitoring on how the services are received by the general public.

These are shown in Figure 7.

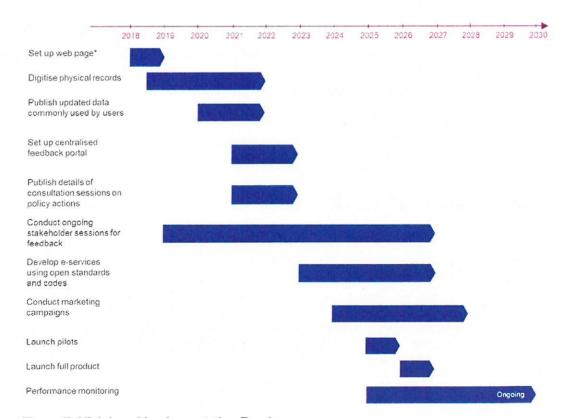

Figure 7: High Level Implementation Roadmap

11.2 2018 - 2023

In the first five years of the Digital Government implementation roadmap, relatively tasks are identified as milestones. These are considered the low-hanging fruits that have the potential to generate high returns with minimal investments. The key tasks to achieve in the first five years of the implementation roadmap are:

- Set up a web page;
- Digitise physical records;
- · Publish updated data commonly used by users; and
- Set up a feedback portal that is responsive.

11.2.1 Set Up a Web Page

The setting up of a functional web page is the first step to a local council having an online presence. This applies to Lami and Nasinu Town Councils. In setting up a web page, these town councils can take reference to the Suva City Council web page or any other city's Government web page.

Key categories that should be found on a good local council's web page are:

- A welcome "home" page that show the key information on the local council;
- A background section on the local council, including key members and key functions of the council;
- The services that the local council provides;
- A list of relevant and updated rates for the different services provided;
- · Important announcements and news updates; and
- Key contact information and feedback portal that is constantly manned and updated.

11.2.2 Digitise Physical Records

Digitising physical records is a relatively low-investment project, with significant savings in physical storage space. Having digital copies of data also ensures that data is not subject to weather and environmental forces, and accessibility is not limited to the staff that created and filed the data.

While a key step in the overall journey, it will however be a significant undertaking for each of the four councils which is expected to take several years to complete. The process should start with prioritization of which records are required to enable digital services to commence. For example, only those relating to rate payer information so that payment of rates can commence. Over time this can be extended to various development and business applications and licensing. Ultimately, the process should aim to digitalize all records. Some key considerations for this process will be:

 Given the volume of records, prioritisation will be required as to which records should be digitalized first;

- Where the data will be stored, in what format and who will be responsible for data ownership and stewardship; and
- How to ensure that the appropriate data governance procedures and policies are in place to ensure data is maintained, accurate, accessible and secure and not subject to being compromised and other cyber threats.

11.2.3 Publish Updated Data

Residents are not just transacting with local councils, but also require key information. The websites of these local council should therefore contain information that are relevant to the residents, such as:

- Rates for different transactions (e.g. health, waste, markets, finance, parking, leisure);
- Processes for licence and approval application;
- Documentation required for different transactions;
- Criteria for successful applications for residents to perform self-assessment first before approaching the local council; and
- · Land zoning data.

Such data have to be updated, as the benefit from reducing transaction time in simple information-obtaining processes is negated with outdated information.

11.2.4 Set up Feedback Portal

Other than publishing data, the local councils should also make use of the websites to digitally receive feedback from residents. At the simplest, the channel to receive feedback can just be an email address with a mailbox that is manned for email feedback. The downside of this channel is that all types of emails are received, and there needs to be an alternative layer of effort to screen for relevant emails.

An alternative to this is a feedback portal in the form of an online questionnaire. The questionnaire is able to sort responses based on:

- · Basic resident information (e.g. name, contact details);
- Reason of communication (e.g. enquiry, complain) and the type of service it relates to, for example through a drop-down list;
- Final open-ended field that allows a certain number of character input; and
- · Any attachments if relevant.

Regardless of the form the feedback portal takes, it has to be responsive to communication from residents. Residents who do not receive any responses to their feedback will be less likely to provide feedback in the future.

11.3 2023 - 2030

The key difference between the Digital Government agenda before 2023 and after 2023 is the transition from the current individual websites to a central portal across all local councils.

To do this, the key tasks to achieve in the subsequent years to 2030 are:

- · Establish digital infrastructure;
- · Conduct marketing campaigns;
- · Launch pilots;
- · Launch full e-services; and
- Collect performance data.

11.3.1 Establish Infrastructure Overview

There are a number of ways IT infrastructure for the councils could be implemented. One way is to have a centralized system that serves all four local councils, which can eventually be rolled out to the rest of the local councils in Fiji and even the Ministries. The advantage of a centralized system is that costs for development and operation can be shared thereby reducing the contributions for each council if they were to develop an individual standalone system. As part of the data governance framework, rules could be established within the system to allow access to data and information only to those approved to do so. Similarly, the user would be able to access general information across all councils, however specific tasks such as payments would be limited to only those relevant to that particular registered user.

The key aspects of the central portal are:

- A common front end interface (website) for all users, regardless of the local council they belong to;
- Unique identification and password for each user that can be used to log on to the portal and retrieve or access personal data;
- A central server that sits within the Ministry of Local Government, Housing, Environment, Infrastructure & Transport, or other Ministries if the portal is Government-wide, to reduce duplication of resources;
- Application programming interfaces between the front and back end interfaces;
- Back end database that stores user information, which is secure and manages confidential data appropriately, with the appropriate data governance procidures and policies in place; and
- Other server-side software (e.g. scripts, frameworks) that programmes how the portal is run.

A conceptual framework is shown in Figure 8.

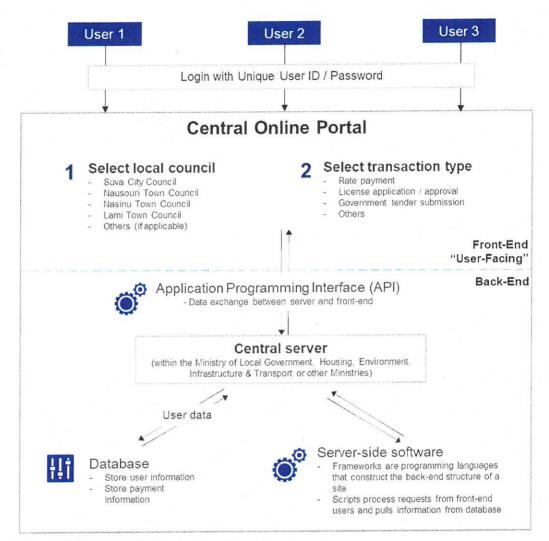

Figure 8: High Level Infrastructure Overview

11.3.2 Conduct Marketing Campaigns

The development of digital infrastructure must be accompanied with extensive marketing campaigns to increase awareness on the central portal and accompanying e-services that will be launched. Marketing campaigns can also be partly educational, for example, with demonstrations on how to use the portal.

Examples of marketing campaigns are:

- · Road shows;
- Door-to-door; and
- Online and offline (e.g. billboards, TV, newspaper) advertisements that have the same theme and messages so that the same message is repeated to all residents.

11.3.3 Launch Pilots

Once the necessary infrastructure is developed, the system should be tested in a pilot phase before being fully implemented. Launching a pilot means to select a small group of users to test the portal. The number of e-services available for testing at the pilot may also not be the entire suite of services available.

The benefits of having a pilot test before implementing the portal are:

- Smaller group of users does not tax the bandwidth and capacity of the portal and allows it to perform optimally;
- Performance data and user feedback should be collected and further modifications made to the front and back end systems, if necessary; and
- Having a small group of users who are familiar with the portal before it is launched can help to promote the portal to the rest of the residents.

11.3.4 Launch Full Portal

Feedback and performance data from the pilots should be collated and used to make modifications to the portal, if necessary. The portal's ability to host a smaller group of users should also be up-scaled to host the entire population of residents, factoring in peak periods and frequency of use.

11.3.5 Collect Performance Data

From the time when the pilots are launched, performance data of the portal has to be collected. As discussed previously, key indicators to collect data on are:

- Number of transactions;
- Costs;
- Digital take-up rate;
- · Completion rate; and
- User satisfaction.

Having data help the local councils track how the e-services, and portal as a whole, performs over time, as well as identify areas that can be improved. For example, for e-services that persistently have lower digital take-up rates than other services, an investigation can be made into why that is so.

11.4 Conduct Stakeholder Engagement

Stakeholder engagement is not represented in the roadmap, because it is ongoing through the different stages. It will complement the marketing campaigns to get large-scale participation from the general public to the Digital Government agenda. There are many aspects of stakeholder engagement that have to be considered for it to be successful. Key examples are shown below.

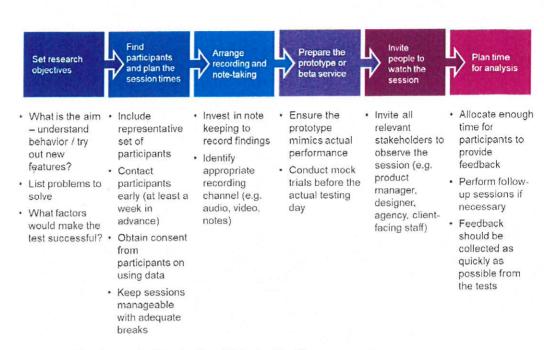

Figure 9: Key Steps to Conducting Stakeholder Engagement Source: Gov.UK Service Manual on User Research

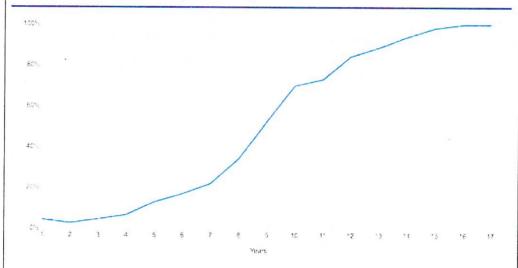

Case Study: Digital Take-Up in the UK

The journey from introducing e-services to having 100 per cent digital take-up is a long one, and no overnight success should be expected. Data from the UK shows that, in transiting from a base of having almost no digital users to having a 100 per cent digital users takes, on average across services, 17 years.

There are key milestones within this timeframe:

- Initial seven years involves extensive marketing and publicity campaigns to raise awareness among the general public, which will form the base of digital take-up in the next years;
- At about the seventh year, a 20 per cent digital take-up should be expected, which can be termed the "critical threshold":
- Beyond the 20 per cent take-up rate, growth in digital take-up to about 80 per cent is rapid, and takes only between three to five years; and
- The growth from 80 per cent to 100 per cent is another milestone, as this takes into account the group of population who are technologically resistant or digitally incompetent.

Digital take-up curve in the UK

Source: UK Government, Digital Efficiency Report (2012)

12 Summary and Conclusions

The four local councils face similar challenges in terms of meeting growing demand from residents with limited resources. The predominantly manual nature of operations results in physical storage of files, duplication of resources and inefficiencies. There is a clear opportunity for digitalisation and implementation of a Digital Government Strategy which would result in clear benefits as seen in many other government operations globally. The absence of Government e-services in the greater Suva region, also allows the opportunity for Fiji to jump straight into developing a digital Government, bypassing the large investments and subsequent modifications to the typical e-Government setup.

A number of recommendations are proposed including the appointment of a central lead body to champion the Digital Government strategy and take ownership of the program. Capacity building of both government staff and the community will be required, as well as extensive stakeholder engagement to ensure the system design is relevant and practical to users. Ultimately, the system should be designed to make interactions between residents, business and the councils simpler and more efficient which in turn will drive use. Finally, there are a number of operating models however consideration should be given towards a centralized system shared across local councils. This would avoid duplication of infrastructure and costs for development and operation can be shared thereby reducing the contributions for each council if they were to develop an individual standalone system.

A Appendix: List of Stakeholders

A list of stakeholders for the local councils is shown in the Table below.

Stakeholders

PUBLIC ACCOUNTS COMMITTEE

Audit Report on Municipal Councils for the year 2013 QUESTIONS

Ministry of Local Government

- (1) What were the reasons for the delay in the submission of the Financial Statements ('**FS**') by the Councils for auditing? What improvements have been made? What actions have been taken to address the late submissions of the FS?
- (2) There is a Local Government Act that dictates the timeline for the submission of the FS? Why wasn't the Ministry adhered to this Act?
- (3) What is the role of the Department of Local Government in ensuring that all Municipal Council complies and submits the submission of FS for auditing? What is the Ministry's monitoring mechanism for each Municipal Council? Please advise whether all municipalities are adopting the 'Manual of Accounts' for Municipalities. How is the Ministry enforcing this manual?
- (4) What is the progress for all Municipalities adopting the cost-sharing arrangements between Municipalities for standard accounting reporting?
- (5) Can the Department of Local Government advice on the type of internal controls instituted in each municipality? And whether Municipalities are on par with the implementation of these controls to ensure timely and accurate detect of material misstatements?
- (6) How has the Ministry ensured that all rate payers pay on time? Are there any incentives available?
- (7) How is the Ministry working towards the implementing the audit recommendations highlighted in the audit report?

Nausori Town Council

- (1) Explain why the Council has been issued with a Disclaimer of Opinion and how has the Council addressed the individual issues raised in the Disclaimer of Opinion?
- (2) Why have the rates and fees decreased in 2013 when the municipal/town area has increased? Why was the Council's operating expenses increased when there is a significant reduction in rates revenue?
- (3) Was the write-off amounting to \$433,211 properly approved and accounted for? Please explain.

Other Significant Matters

- (4) 6.5.3.1 Weak System for Financial Reporting
 What computerized accounting system is Nausori Town Council using for its financial reporting?
- (5) 6.5.3.2 No Supporting Documents Provided for Capital Grant
 What are the conditions of the grant totaling \$1,304,330 received from the Ministry of Local Government?
- (6) 6.5.3.3 Absence of Contract Agreement
 How many tenancy agreements does the Council have?
- (7) 6.5.3.4 Payroll

 Does the Council have a payroll software in-house to address this issue?
- (8) 6.5.3.5 Anomalies in Procurement of Goods and Services

 Can the Committee get an update on the 3 audit anomalies in the procurement of Goods and Services?
- (9) 6.5.3.6 Anomalies in Payments

 What is the Council's policy on acquiring competitive quotes and advise why there wasn't any supporting evidence to justify these transactions listed on Table 13: Examples of anomalies in payments.
- (10) What is the current valuation of Ratu Cakobau Park after renovation? Are there any plans to upgrade the old Nausori Market and Bus Stand?

Rakiraki Town Council

- (1) Explain why the Council has been issued with a Disclaimer of Opinion?
- (2) Please explain the significant increase in miscellaneous expense and non-receipt of government grant in 2013.
- (3) How does the Council fund its operations when the expenditure exceeds its revenue by \$213,464?
- (4) Is there any periodic notification made to rate payers regarding their outstanding rates? (Is it done monthly, quarterly or yearly?) Please explain.

Other Significant Matters

- (5) 6.5.2.1 Proper Accounting System not employed What is the current update on the appropriations of general ledger system?
- (6) 6.5.2.2 Weak Controls over Banking
 What is the latest bank reconciliation conducted? How timely has the bank reconciliation been prepared by the Council?
- (7) 6.5.2.3 Interest not charged on Outstanding Rates
 What processes are in place before instituting interest rates charged on overdue rates?
- (8) 6.5.2.4 Proper Records not maintained for business licenses

 Does the Council conduct reconciliation for business license issued against those that are operating in the town area?
- (9) 6.5.2.5 Accrual Accounting System not Practiced
 What is the update on the Accrual Accounting System and what system is the Council using?

Lautoka City Council

- (1) Provide the breakdown of rate payers in Lautoka i.e. Residential, Business, Commercial, etc.
- (2) Explain why the Council has been issued with a modified audit opinion?
- (3) Please provide the details of Other Revenue totaling \$2,112,018 that is provided for in Table 4 Abridged Financial Statement and Analysis?
- (4) Please provide the details of Finance Costs \$393,525 that is provided for in Table 4Abridged Financial Statement and Analysis?
- (5) Please explain why weren't there any provision for doubtful debts since receivable is amounting to \$6,037,212 and Term Deposit of \$1,481,120?
- (6) What were the conditions of the transfer of roads, drainage and footpaths to Fiji Roads Authority (**'FRA'**) especially when Parking Meter Funds are still collected by the Council?
- (7) Please explain why there has been an increase in Creditors and Borrowings from \$795,074 to \$2,586,577?

Other Significant Matters

(8) 6.5.1.1 - Duties of Staffs not Separated

How has the Council addressed the issue of receipting, banking and entering transactions into the Cash Book?

- (9) 6.5.1.2 Bank Reconciliation
 - Has the reconciliation been prepared for the Savings Account amounting to \$3,113,962 and provide an update on the MYOB software?
- (10) 6.5.1.3 No basis for provision of doubtful debts
 Why weren't there any provision for doubtful debts since the arrears are increasing?
- (11) 6.5.1.4 Arrears of Rates

 Please provide an update on the Council's Call Centre and how effective is this service in collecting default rate payers?
- (12) 6.5.1.5 Procurement of Goods and Services

 What is the Council's policy on acquiring competitive quotes and advise why there wasn't any supporting evidence to justify these transactions listed on Table 12: Procurement without quotations.

Nadi Town Council

- (1) Has Nadi Town been declared as a City?
- (2) Explain why the Council has been issued with a modified audit opinion?

Emphasis of Matter

- (3) Why wasn't the value of parking meters not been incorporated in the Statement of Financial Position as at 31 December 2013?
- (4) Why isn't the Council maintaining a separate cash book to record all receipts and disbursements in relation to parking meter operations? Has this issue been resolved?

Other Significant Matters

- (5) 6.5.4.1 Absence of segregation of duties in the Finance Section
 Who is now tasked to undertake the receipting and accounting task for the Council?
 Provide Job Description of each position and what is the organization structure of the Council?
- (6) 6.5.4.2 Discrepancies in cash and bank reconciliation
 What is the latest Bank Reconciliation performed by the Council and whether the variances identified in the audit (\$91,194) has been rectified? Explain why \$6,370.91 was not banked at balance date? When was this banked? How has the Council accounted \$4,158.07 for these payments which were considered as stale cheques?
- (7) 6.5.4.3 Lack of internal controls for Parking Meter Revenue
 What internal controls are in place for the collection of parking meter revenue?
- (8) 6.5.4.4 Inadequate Supporting Documents for payments
 What is your policy and procedures for processing of payments? Please explain
 Table 14 and an update with proper evidences.
- (9) 6.5.4.5 No provision for doubtful debts taken up for rates debtors
 Assessment No. 0098: Please explain what is the unimproved Capital Value on the rezoning of Agriculture?

Assessment No. 1189: Why did the Council resort to writing off the debt of \$43,597.53 through the line Ministry? Why weren't there any legal proceedings such as garnishee order not being instituted on outstanding rates?

Please provide an update on the issues highlighted in Table 15: Rate Payers with Significant Debtor Balance.

What is the position of the Ministry of Local Government with regards to these sorts of requests such as Write-Offs? Has the Council seek legal opinion on the collection of those outstanding rate arrears?

(10) 6.5.4.6 – Anomalies in property, plant and equipment (PPE)

How regular is the Board of Survey conducted? What is the Council's policy on BOS?

What is Council's capitalization policy and how often does it conduct reconciliation of Property, Plant and Equipment with ledger accounts and Fixed Asset Schedule?

- (11) 6.5.4.7 Deferred Income
 What actually happened to the amount \$141,818? Why wasn't any documentary evidence provided to audit to substantiate this transfer?
- (12) 6.5.4.8 Variance between General Ledger and listing for business license income
 Has Council reconciled the variance of \$72,240? What control measures are in place?
- (13) 6.5.4.9 Absence of Competitive Quotations
 What is the Council's policy on acquiring competitive quotes and advise why there wasn't any supporting evidence to justify these transactions listed on Table 17: Details of payments made without competitive quotations.

STANDING COMMITTEE ON PUBLIC ACCOUNTS

[Verbatim Report of Meeting]

HELD IN THE

LAUTOKA CITY COUNCIL CHAMBERS

ON

WEDNESDAY, 27TH MARCH, 2019

VERBATIM NOTES OF THE MEETING OF THE STANDING COMMITTEE ON PUBLIC ACCOUNTS COMMITTEE HELD IN THE LAUTOKA CITY COUNCIL CHAMBERS, LAUTOKA, ON WEDNESDAY, 27TH MARCH, 2019 AT 9.00 A.M.

Submittee: Lautoka City Council

In Attendance:

1. Mr. Irinale Nabalarua - Rates Officer

Mr. Abdul Israz Khan - Acting Manager Finance
 Mr. Jone Nakauvadra - Chief Executive Officer

Ministry of Local Government

Mr. Azam Khan - Director Local Government
 Mr. Alipate Mataivilia - Senior Accounts Officer

Office of the Attorney General

1. Mr. Seremaia Delana - Audit Manager

DEPUTY CHAIRPERSON.- Good morning, everyone. Welcome to the Public Accounts Committee (PAC) Hearing on the Auditor-General Republic of Fiji Audit Report on Municipal Councils for 2013, Parliamentary Paper No.135 of 2018. I once again welcome you all. On behalf of the PAC, let me introduce the Honourable Members of our Committee.

(Introduction of Committee Members)

DEPUTY CHAIRPERSON.- Before we begin, written questions have been given to you beforehand. After deliberation and question, supplementary questions will be asked by Honourable Members. Should any given time you wish to respond at a later date, you can always seek permission from the Deputy Chairperson.

Without further ado, may I request the submittees to introduce themselves and then we shall proceed further.

MR. J. NAKAUVADRA.- Thank you very much, Mr. Deputy Chairperson. It is my pleasure to welcome you, Sir, to the Council Chambers this morning.

On behalf of the Lautoka City Council and, of course, to the city of Lautoka on behalf of the people of Lautoka, my name is Jone Nakauvadra, I am the Chief Executive Officer (CEO) of Lautoka City Council. With me is Acting Manager Finance, Mr. Abdul Khan, and we will be joined by our Rates Clerk later to represent the Council in this deliberation. *Vinaka vakalevu*.

DEPUTY CHAIRPERSON.- Thank you.

MR. A.I. KHAN.- Good morning all. My name is Abdul Israz Khan and I am the Acting Manager Finance for Lautoka City Council.

DEPUTY CHAIRPERSON.- Thank you very much you may proceed now on the deliberation of Question No.1.

MR. J. NAKAUVADRA.-

Question No. 1: Provide the breakdown of ratepayers in Lautoka, that is, residential, business and commercial, et cetera.

The total number of residential ratepayers is 7,288 which include:

- Commercial 356;
- Industrial 376;
- Civic 86:
- Special use (basically schools, churches and other amenities) 55; and
- Agriculture 2.

DEPUTY CHAIRPERSON.- Thank you, any supplementary questions in that regard, Honourable Members?

If none, you may proceed further.

MR. J. NAKAUVADRA.-

Question No. 2: Explain why the Council has been issued with a modified Audit Opinion?

Lautoka City Council has been issued with a modified Audit Opinion because the Office of the Auditor-General (OAG) found that adjustments did not have supporting documents to substantive the adjustments and they also found unreconciled variances.

DEPUTY CHAIRPERSON.- Thank you, Honourable Members. Any supplementary questions in that regard?

Since there is none, you may proceed further.

MR. J. NAKAUVADRA.-

Question No. 3: Please, provide the details of other revenue totaling \$2,112,018 that is provided for in Table 4 – Abridged Financial Statement and Analysis?

Other revenue include:

- Amortisation of Capital Grant \$93,727
- Premium on Sub-Lease of Land \$408,000
- Interest \$214,694; and
- Other income \$1,395,597

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any supplementary question in this regard.

HON. RATU N. LALABALAVU.- Deputy Chairperson, through you, CEO bula vinaka.

MR. J. NAKAUVADRA.- Ni bula vinaka saka.

.....

HON. RATU N. LALABALAVU.- I seek some clarification, Sir, regarding the amortization of Capital Grant. What sort of period are you stretching this amortization Capital Grant for?

MR. A.I. KHAN.- Thank you, Sir. That Capital Grant was given by JICA to us, that was, the KATO Excavator, MPT Truck and the dump site where we visited. Those items are still in good conditions, so it may take about another five years for that. (12:26:30)

HON. RATU N. LALABALAVU.- Five years?

MR. A.I. KHAN.- Yes, Sir.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any other supplementary questions?

There seems to be none so you may proceed further.

MR. J. NAKAUVADRA.-

Question No. 4: Please, provide the details of finance costs - \$393,525 that is provided for in Table 4 – Abridged Financial Statement and Analysis?

The Finance Cost of \$393,525 is the interest paid.

DEPUTY CHAIRPERSON.- Thank you. Any supplementary questions, Honourable Members?

There is none you may proceed further to Question No. 5.

MR. J. NAKAUVADRA.-

Question No. 5: Please, explain why were there not any provision for doubtful debts since receivable is amounting to \$6,037,212 and term deposit of \$1,481,120?

The Lautoka City Council did not have doubtful debt provision policy in 2013. The Local Government Act Cap. 125 does not legally state any such provisions that allows write-off in cases of hardship and this is treated as bad debt. That allows rates to be accumulated over the years and is the first charge on the land, hence creating doubtful debts may not be a good policy. The Lautoka City Council is working closely with the ratepayers and stakeholders during this amnesty period, herein reducing the rate in arrears.

DEPUTY CHAIRPERSON.- Thank you. Any supplementary questions, Honourable Members?

HON. RATU N. LALABALAVU.- Through you, Deputy Chairperson, the creation of doubtful debts;

CEO, you have stated quite clearly in your reply that these debts in rates become a first charge on the property and you have legal avenues to pursue these doubtful debts or if you are going to create doubtful debts, like the issuance of court orders, garnishee, et cetera. That has been practiced in the past. Could you just clarify a bit more as to why you have taken this position?

MR. J. NAKAUVADRA.- We want to make doubtful debt as the last revenue. First of all, we want to exhaust all existing revenue within the Council legally, to recover the arrears, including taking

them to court on Small Claim Tribunals and also the house to house visit that we have been doing. They are very successful to the Council.

Creating doubtful debt will create a precedent which may affect the Council later on because people will start taking advantage of that. They will not pay up their debt and they expect that to be written off sooner or later.

DEPUTY CHAIRPERSON.- Thank you. Any more supplementary questions?

HON. RATU N. LALABALAVU.-(inaudible) that is available to you and yet you still want to leave it as the last resort.

MR. J. NAKAUVADRA.- That is what we are doing right now. We take them to court and we are even making house to house visits and making arrangements with employers for deduction from source.

DEPUTY CHAIRPERSON.- Yes, Honourable Member, you may proceed.

HON. RATU N. LALABALAVU.- What is the success rate like?

MR. J. NAKAUVADRA.- It is a big challenge for the Council.

HON. RATU N. LALABALAVU.- Big challenge is one thing, the succession I am asking, Sir.

MR. I. NABALARUA.- So far, it is about 70 percent.

MR. J. NAKAUVADRA.- About 70 percent.

HON. RATU N. LALABALAVU.- Thank you, Sir.

DEPUTY CHAIRPERSON.- Thank you, Honourable Members.

Thank you very much for your response. Should at any given time the submittees feel they want to respond later, you may always do so in writing.

MR. J. NAKAUVADRA.- Thank you, Sir.

DEPUTY CHAIRPERSON.- Thank you very much.

Yes, Honourable Member.

HON. V. PRAKASH.- Just want to seek clarification. Deputy Chairperson, is it 70 percent of rate collection that is what you have?

MR. J. NAKAUVADRA.- Yes.

HON. V. PRAKASH.- 30 percent is your amount that is being owed by the ratepayers.

MR. J. NAKAUVADRA.- Yes.

- HON. V. PRAKASH.- That is a good success. I think you are doing well. But as you have said that all avenues must be done so that it is fair to those that have already paid the rates. There may be some cases for special treatment, and I hope you will be able to do that.
- MR. J. NAKAUVADRA.- One of the biggest challenges we are facing now is regarding deceased estates, where people have passed on and without having any wills. We are working very closely with the Office of the Public Trustee to try to address that.
 - HON. V. PRAKASH.- Some may have all sorts of reasons that they are unable to pay.
 - MR. J. NAKAUVADRA.- Expired leases as well.
 - DEPUTY CHAIRPERSON.- Thank you very much, Honourable Members.
- HON. RATU N. LALABALAVU.- Deputy Chairperson, through you, CEO, can you just elucidate a bit more on that former owners had become deceased and the property is either with Public Trustee. Some of them are interest bearing which should do with FNPF and let alone the rates accruing to you. What happens in those cases, will you follow up with the Public Trustee to pay for those interests? It should be accruing interests.
 - DEPUTY CHAIRPERSON.- Thank you, your response, CEO.
- MR. J. NAKAUVADRA.- When we go and see them they tell us that the property does not belong to us. The owner of the property is deceased. We do not own the property.
- HON. RATU N. LALABALAVU.- The property falls in the custody of the Public Trustee. CEO, if one is deceased, if he dies interstate, then automatically it falls to the State whether it is Public Trustee or what because that has to be proven in court, even if there is a will. So, there is an avenue to follow there but from your standpoint, you will just take the face value of what is there. The person has died, living his estate with no will, et cetera, it is hard to follow up. But do you not think that the Council is missing out
- MR. J. NAKAUVADRA.- Certainly, we are missing out. We do not even have powers to repossess the property or anything like that. We do not have a lot of powers under the Local Government Act. That is why we are working very closely with the Office of the Public Trustee.
- HON. RATU N. LALABALAVU.- But to say that you do not have the powers, just a while ago you stated that you have the right of first charge. Can we have some clarification on that?
 - HON. V. PRAKASH.- Is there anything from the Ministry of Local Government?
- MR. A. KHAN.- Thank you, Deputy Chairperson. In relation to rates, the current Local Government Act states that all properties shall have a first charge of rates. Caveat placement has been allowed to be placed on freehold properties and properties also in nature of freehold are allowed to be taken to court for the purpose of sale to recover rates.

As far as State land goes and Native land, there is no such provision for lease land, including Housing Authority (HA). However, the Councils are able to take all action against ratepayers and get court judgments.

The other area that has been tested in Fiji as far as rates goes and the judgment has been that rates does not have a statute barred limit, that means rates can be collected even after 10 years and that allows cases to be taken at any point in time by Municipal Councils.

The area of contention has always been the interest charged, whether it should be pegged at a reasonable rate or whether it should be pegged at a rate that sets a penalty.

In 1982, there was a revision and the interest on rates was increased from 7 percent to 11 percent, to show more of a penalty structure and that has been kept in line. Recently, Cabinet came up with a decision that residential rates paid over the next six months should have their accounts waived of interest.

In Fiji, out of the total results standing, including Lautoka City Council, average per Council will be 25 percent outstanding and bulk of this are in residential areas now. Commercial and industrial rates have been highly reduced over the last years and this is the area we are very much working closely with Municipal Councils to strike a system, a policy that is very well effective for everyone, thank you.

DEPUTY CHAIRPERSON.- Thank you, Director Local Government. Any other last supplementary question, please.

HON. RATU N. LALABALAVU.- Yes, Deputy Chairperson. I just want to share some experience CEO.

I was in charge of NLTB in Labasa in 1995 to 1996 and there was a garnishee given by the Court in Labasa for outstanding rates over both, alienated and unalienated Native land. They confiscated all the vehicles that I had about 10, subject to clearance of the payment of outstanding rates. In the end, we amended the legislation to only cover alienated Native land.

So here we are talking about alienated Native land - land that have been leased out. So, that is a precedent case where Council took the landlord to task to recover its rates. That is the angle where I am coming from.

DEPUTY CHAIRPERSON.- Thank you very much, Honourable Member, we may proceed further.

MR. J. NAKAUVADRA.-

Question No. 6: What were the conditions of the transfer of roads, drainage and footpaths to Fiji Roads Authority (FRA) especially when Parking Meter Funds are still collected by the Council?

Municipal Councils and the Fiji Roads Authority (FRA) met over the proposals and given that the road maintenance and upkeep was high cost to ratepayers, the FRA took over the assets. This has assisted and benefitted of the ratepayers of Lautoka.

Gazetted parking meter stands are managed by Lautoka City Council as it is shown as city car parking space. The purpose of parking meter is to control parking within the towns and a minimum is levied for the purpose to support administration and operation.

DEPUTY CHAIRPERSON.- Honourable Members, any supplementary question to that?

HON. RATU N. LALABALAVU.- CEO, this has been confusing for the PAC Committee regarding this deemed transfer of all roads and drainages to FRA, including areas where you have parking meters. Then some of these parking meters have become obsolete, there is a need to replace that?

We heard this in Nausori, Rakiraki and probably for Tavua as well. But you being the leading city in the West, how do you go about this with the transfer already been given and yet, you are just given some kind of a management things over your parking meter. The parking meters is a sure cut revenue for the Council. Can you clarify a bit more on the situation that you are in regarding this constituency?

Thank you, Deputy Chairperson.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member.

MR. J. NAKAUVADRA.- We are in the similar situation with other Councils but we are trying our best to manage the parking meters and the maintenance of parking meters. We are also replacing obsolete parking meters because there is service that we need to provide also for the better management of traffic within the city and also a source of revenue for the Council.

HON. RATU N. LALABALAVU.- Can I seek more clarification on that?

DEPUTY CHAIRPERSON.- Yes, you may do so.

HON. RATU N. LALABALAVU.- CEO, can you clarify a bit more on your powers to manage those parking meters when they are within the road reserves, et cetera.

MR. J. NAKAUVADRA.- The powers vested in the Council are powers given to us by the LTA. We are covered under the LTA Act in terms of the management of the parking meters. We work closely with them.

In fact, the fines that we give to them are fines that are conferred to us through the LTA Act. The personnel that are managing the parking meters or the parking meter attendants are trained and certified by LTA. The powers that we have are powers that are invested to them through LTA.

HON. RATU N. LALABALAVU.- CEO, through you Honourable Deputy Chairperson.

DEPUTY CHAIRPERSON.- Yes, Honourable Member.

HON. RATU N. LALABALAVU.-This is where the confusion that I was raising. Through the decree, all the roads and drainages within municipalities were deemed to have transferred to FRA. What went with it was the parking meter areas.

Do you have a separate management agreement to take care of the parking meters? Because the roads, the nature reserves, et cetera, is already deemed transferred to FRA. I am surprised that LTA has come into the picture here.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. CEO, you can response to this later on in written form.

MR. J. NAKAUVADRA.- Alright, thank you. The document in front of me, I can pass it over to Honourable Member later on.

DEPUTY CHAIRPERSON.- Thank you very much, you may proceed further.

MR. J. NAKAUVADRA.-

Question No. 7: Please, explain why there has been an increase in creditors and borrowings from \$795,074 to \$2,586,577?

There has been an increase in capital works, repairs to Council properties, due to cyclone and prepayments of \$885,159 to the Council, totally investing in upgrading properties during the year.

DEPUTY CHAIRPERSON.- Any supplementary questions, Honourable Members?

Since there is none, you may proceed further to other significant matters.

MR. J. NAKAUVADRA.-

Question No. 8: Duties of Staffs not separated. How has the Council addressed the issue of receipting, banking and entering transactions into the cash book?

Lautoka City Council has implemented the separation of. The cashier's work in being reviewed and checked by an independent authorised officer and banking is done by a separate officer.

DEPUTY CHAIRPERSON.- Thank you. Any supplementary questions, Honourable Members?

Yes, Honourable Prakash.

HON. V. PRAKASH.- Deputy Chairperson, through you, CEO, are you practicing the new system of accounting that other Councils are doing?

MR. J. NAKAUVADRA.- No.

HON. V. PRAKASH.- That means you are no longer using manual receipting in all these?

MR. A.I. KHAN.- We are using IFRS.

HON. V. PRAKASH.- (Inaudible)MR. A.I. KHAN.- Yes, and also we are doing computer receipt, no manual computer receipts.

DEPUTY CHAIRPERSON.- Thank you. Any other supplementary questions?

Since there is none, we shall proceed further.

MR. J. NAKAUVADRA.-

Question No. 9: Bank Reconciliation. Has the reconciliation been prepared for the savings account amounting to \$3,113,962 and provide an update on the MYOB software?

Yes, reconciliation has been done. The MYOB Software has been implemented from 2014.

DEPUTY CHAIRPERSON.- Thank you. Any other supplementary questions?

There seems to be none, so you may proceed further.

MR. J. NAKAUVADRA.-

Question No. 10: No basis for provision of doubtful debts. Why were there no provision for doubtful debts since the arrears are increasing?

The Council is considering implementing the write-off policy based on hardship cases as allowed under the Local Government Act Cap. 125. The recent paper submitted to the Ministry of Local Government that the doubtful debts creation is on the area of rates collection is seen as subjective.

DEPUTY CHAIRPERSON.- Thank you. Any supplementary questions, Honourable Members?

Yes, Honourable Ratu Lalabalavu.

HON. RATU N. LALABALAVU.- Yes, Deputy Chairperson. Can I take us back to Question No. 9 on bank reconciliation, CEO.

Your software that is in place now, the Committee has noticed that this reconciliation is a major problem throughout the Councils in the West and for the whole of Fiji.

However, you have a nice software system here and maybe I can direct this question to the Ministry of Local Government as well; do you offer this software availability to other Councils that are in dire need of this kind of software, yet they do not have it? And if you do, do you levy cost on that, especially for Tavua, Ba and Rakiraki?

MR. J. NAKAUVADRA.- The software that we are using right now is only licensed to Lautoka City Council, but maybe the Ministry can answer on that, on the sharing of this software to other Municipalities.

MR. A. KHAN.- Thank you, Honourable Member. In relation to information software, we heard talks and we were able to get on board ADB to get in KPMG Singapore to carry out a needs assessment on digitalised platform for Municipal Councils in Fiji. The exercise has been completed two months ago and a policy paper was prepared. The shift to 100 percent full digitalisation has been planned over the next four years.

Meanwhile, the two large Councils, that is, the two Cities (Lautoka and Suva) have been promoted to use Navision, a software which has the capacity to deal with a number of transactions, Lautoka and Suva have. And the other Councils have been promoted to use the latest version of MYOB which has enough capacity to drive in and allow electronic financial information to be generated. This has been sent in as a policy note to all Municipal Councils and we will be working closely with them to ensure in the interim, the information system are well kept and maintained for the purpose of recordkeeping and generating right information.

DEPUTY CHAIPERSON.- Thank you, Director Local Government. Any other supplementary questions?

Since there is none, you may proceed further.

MR. J. NAKAUVADRA.-

Question No. 11: Arrears of Rates. Please, provide an update on the Council's Call Centre and how effective is this service in collecting default ratepayers?

The Council Call Centre is very effective and assisted the Council in recovering arrears as follows:

- **2**017 \$247,753.11;
- **2018 \$285,837.16**; and
- **2**019 \$72,489.15,

DEPUTY CHAIPERSON.- Thank you very much. Any other supplementary questions in that regard, Honourable Members?

Yes, Honourable Prakash.

HON. V. PRAKASH.- Through you, Deputy Chairperson, there is an amnesty period throughout Fiji for rate collection and I think it is the first time a long period has been given we should be expiring in August, I believe.

My questions are:

- What are some of your actions that you are taking to try and recover the arrears?
- What are some of the incentives that the rate collectors or the relationships or activities that you are doing to see that the amnesty period given by the Government for six months which is quite a long period, you would be able to recover rate arrears and definitely it will be beneficial, not only to the ratepayers but also to the Council and your service delivery?
- What are some ways that you have implemented now?
- MR. J. NAKAUVADRA.- We have a Rates Team that is fully dedicated to this exercise right now. They were given a fulltime vehicle and staff are moving out to visit ratepayers and also giving notices to them. We have sent notices to ratepayers through their postal boxes, notifying them about the initiative undertaken by the Ministry.

Besides that, we have been having public consultations with the ratepayers and we have a digital screen which is displaying the amnesty of rates on the streets, the digital screen that is being provided by Go Advertising.

- HON. V. PRAKASH.- What is the result here? Are you happy with the activities carried out by the Council and amount being collected?
- MR. J. NAKAUVADRA.- So far, we are very happy with the response by the members of the public. We had a ratepayer who came in one day and paid \$20,000 after hearing of the amnesty.
 - HON. V. PRAKASH.- You should be congratulated for you and your team.

DEPUTY CHAIPERSON.- Thank you very much. Any other supplementary questions?

Yes, Honourable Ratu Lalabalavu.

HON. RATU N. LALABALAVU.- Deputy Chairperson, through you, I thank you CEO for this great effort to collect through calls, your outstanding arrears. With the software that you have, would you be able to add a bit more to this yearly revenue that you have generated on the age of the rates or of the arrears? Some have been outstanding for one, two or three years. That, in a way, would be signal to us as to how effective this is.

MR. I. NABALARUA.- Sir, for aging, the way we are working now, we go on the highest arrears and we then start calling people from there. Those who are in say, arrears of \$5,000 to \$10,000. We call those people first, and then we come down. But the figures that we have here, that is following our arrears report.

The ones that we have are the ones that we called from 2017, and the figures that we gave are the figures that those whom we called and paid in those years, like 2017, the same people paid in 2018 and 2019. That is the figure that is there. But our Call Centre, it is a normal practice, we do calling everyday.

The 2017 one is a special one after the CEO had a meeting and where we were asked to do the Call Centre. This is what we did afterhours from 4.30 p.m. to 7.00 p.m. Those are the figures that we were able to collect.

HON. RATU N. LALABALAVU.- Through you, Honourable Deputy Chairperson, would it be too much, CEO, if the Committee asks for this data, where you breakdown the arrears and rates by age because so far, you have opened the briefing today with the description of the different sort of rates that you have. That is fantastic. Is it too much to ask a bit more, you break it down by age so, at least, the Committee knows that the bulk of this is owing by residential ratepayers instead of the business ratepayers or how well you treat the business ratepayers?

MR. I. NABALARUA.- Sir, we can do that. We will give a report on that.

DEPUTY CHAIPERSON.- Thank you. CEO, you may provide that later on.

HON. V. PRAKASH.- Deputy Chairperson, 2019 collection and we have only five more months left with the amnesty. I think you must be aware that it should be able to beat all your collections from 2017 and 2018 because this amnesty period is the time when the entire reflection of your teamwork for collection of rates would really increase. You got \$72,000 and one-quarter is about to finish. Only five months is left.

Deputy Chairperson, the relationship between ratepayers and the Council. Through experience, I think it should be cordial relationship, so that they realise that they are part of the Council and the service that you deliver depends on the rate that you pay. And definitely those who are not paying their rates are having those service delivery done. The human resource and the relationship that may exist in the sweet sugar City Council and now Lautoka is known as the sweet Council in this country.

I am worried, Deputy Chairperson, with \$72,000 collection so far and going through the amnesty, we have passed about a month or so.

DEPUTY CHAIPERSON.- Thank you, Honourable Member, you may respond.

MR. I. NABALARUA.- I am sorry to say that the \$72,000 that is there, that is only from our Call Centre, just answering the questions. The total collection now, the arrears will be close to say \$100,000.

HON. V. PRAKASH.- So, definitely you are going to beat 2017 and 2018?

.....

MR. I. NABALARUA .- Yes, because this is only from our Call Centre. We collect from other areas.

DEPUTY CHAIPERSON.- Thank you very much, Honourable Members. You may proceed further to the last question.

MR. J. NAKAUVADRA.-

Question No. 12: Procurement of Goods and Services. What is the Council's policy on acquiring competitive quotes and advise why there was no supporting evidence to justify these transactions listed in Table 12 - Procurement without quotations?

Lautoka City Council has been following manual of accounts. The number of quotes has been taken and a minimum and maximum amount for which quotes to be taken and called for public tenders on stores and services has been yearly discussed and approved by its Council during budget sessions.

Procurement of capital construction materials and services have been united with the manual of accounts in the Council's determined process as required under the manual of accounts during the construction planning exercise.

DEPUTY CHAIPERSON.- Thank you. Honourable Members, any supplementary questions in that regard?

Yes, Honourable Prakash.

HON. V. PRAKASH.- Deputy Chairperson, I will come back to this Question No. 12. But , through you, I would like to take us back to Question No. 2.

The answer provides that they did not have supporting documents to substantiate. As per audit purposes and as for the PAC Committee, it would be important for us to know why there was no supporting documents, and for the Council and the Ministry of Local Government as well. You have indicated there was no supporting document. So, my supplementary question is, why was there no supplementary documents?

MR. A.I. KHAN.- The supporting documents were not provided but adjustments were made for the accounts for that. For example, one figure was given but the breakdown was not made. That was what was picked by the OAG.

HON. V. PRAKASH.- You have indicated that there was no supplementary document provided. You have indicated that in your answer?

MR. A.I. KHAN.- Yes.

HON. V. PRAKASH.- That is why I am asking, why?

The other question arises was, why was there no reconciliation done? You have indicated that. If you have reconciled it, then you should just state 'reconciled' and which year. Your answer provided here, you said that you were unable to have the supporting documents. If you had reconciled somewhere, would you be able to state or would you able to write back to us and tell us as to where you have reconciled that?

DEPUTY CHAIRPERSON.- Perhaps, the OAG can comment on that.

MR. S. DELANA.- Thank you, Deputy Chairperson. Yes, the 2013 audit for the Lautoka City Council, the major issue concerned is recordkeeping - no supporting documentation to support all those entries made into the General Ledger account system because the Council prepared the Financial Statement from the system that they have in place.

Without those supporting documents, we cannot have any assurance whether these Financial Statements are true and fair. During the audit, there was no justification on the reason why those entries are posted reconciliation, and we stand with what is here in the Report.

DEPUTY CHAIRPERSON.- Any other supplementary questions?

HON. V. PRAKASH.- Deputy Chairperson, through you, for written explanation and definitely, so that you are cleared as well.

MR. J. NAKAUVADRA.-Thank you.

HON. V. PRAKASH.- Because we need a response and if you can give us in writing.

DEPUTY CHAIRPERSON.- Yes, you may have that liberty.

HON. V. PRAKASH.- And the Ministry of Local Government as well because at the end of the day they will be also answerable.

DEPUTY CHAIRPERSON.- Thank you very much.

Any other comments or supplementary question before we round off? Yes, Honourable Lalabalavu..

HON. RATU N. LALABALAVU.- Through you, Deputy Chairperson, maybe this is both, a question and a suggestion to the CEO and to the Ministry of Local Government. First of all the understanding that we have discussed this morning is that, from the information given by CEO, you are not bound by the limitation Act, the Councils.

Secondly, your right to first charge still exists. Having that in mind, do you not think that it is worth a bit of the Council's effort and the Ministry of Local Government as well, to try and go for the landlord because in mortgaging a Native lease, the right of first charge is taken by the bank, whether it is FDB or any other Bank?

But your right of first charge over the rates is already entrenched, it is there. Every prudent purchaser should know what he/she is buying. There is a saying, "You buy this lot, if there is outstanding rates, you wear the shoes." You pay for it.

Having that in mind, you need to be wise to start evaluating this suggestion of going for the landlord, instead of going for the individuals because the landlord is answerable here.

DEPUTY CHAIRPERSON.- Perhaps, the Director of Local Government can throw some light on this.

HON. RATU N. LALABALAVU.- Thank you.

MR. A. KHAN.- Thank you, Sir, for you suggestion. We will look into this and we will discuss this also with the Solicitor-General Office and see the way forward in this area on how to strengthen rates collection on leased land.

DEPUTY CHAIRPERSON.-Thank you very much, Mr. Khan. So, there is there any other comment, suggestion or question?

- HON. V. PRAKASH.- Through you, Deputy Chairperson, I am requesting the Council to let us know how far they have gone in their preparation of the Annual Account after 2013. We are in 2019 now, what about the other accounts that are pending?
- MR. A.I. KHAN.- Thank you, Sir. The 2014 has been with the OAG and we have engaged KPMG to do our accounts for 2015 to 2017, and they will start from next month.
- HON. V. PRAKASH.- That is quite pleasing to know, Deputy Chairperson, that the backlog is trying to be cleared. We have also seen some Councils have already given upto 2017 to the OAG, so that is a good sign.

Deputy Chairperson, I have another very interesting question. I believe in 2021, we will be here from the whole global world when Rugby 7s, for the first time, will be hosted at Churchill Park, I believe. We are all excited.

We want to know from the CEO, to try and cool our excitement, as to how far he has gone with the preparation because as you know, Deputy Chairperson, rugby is something that is running in our blood. The whole citizens of Fiji are so prod and we do not know the capacity, so what are the other areas that the Council is looking forward to try and see that the major event of the world Rugby 7s will be hosted in our nation for the first time. What are his plans for the preparation ahead?

MR. J. NAKAUVADRA.- Thank you very much for the question and we had already had two rounds of meeting with the World Rugby, the Australian Rugby, the New Zealand Rugby and the Fiji Rugby Union (FRU). FRU has already submitted a proposed draft MOU with the Lautoka City Council, and I have already forwarded the draft MOU to the Ministry of Local Government. We had proposed that we have a combined meeting with the FRU and the Ministry of Local Government sometimes soon. We can be talking on the same platform and start working together in terms of the preparation for the 2021 IRB Sevens Series.

If it is going to be successful, they are thinking of making Lautoka a permanent venue for the IRB Sevens Series. It is because of the spot they have seen all over the world by Fijian people supporting Sevens Rugby all over the world. So, they are thinking of bringing it into Fiji and making more exciting for the people of Fiji.

HON. V. PRAKASH.- Along the same line, Deputy Chairperson, through you, I would like to have a response also from the Ministry of Local Government because I think they will also be part of this historical development, and also to see that we do not lose out on this opportunity that is for Fiji.

DEPUTY CHAIRPERSON.- Thank you, you may respond.

MR. A. KHAN.- Thank you, Deputy Chairperson, and Honourable Members of the Public Accounts Committee and CEO Lautoka City Council, the Ministry of Local Government with the Government has been continuously supporting Lautoka City Council in the area of infrastructure

development. Some of the associated facilities that have been funded directly by the Government over the last few years include:

- The upgrade of Lautoka Churchill Park itself with synthetic tracks where Government invested \$2.8 million.
- Government is currently investing, over a three years period, a botanical garden.
- Construction of an international standard swimming pool which is costing Government and the taxpayers \$12.6 million.
- There is an indoor sports facility that Government has announced in its budget and it is at the preparatory level at Nadovu Park, which is supposed to have a sitting capacity of 2,000 and allow for, at least, four game spaces within the indoor sports facility to be held at any one time.

We are very much supporting the vision of Lautoka, that is, to become a sports city and a sports hub. In line with this, this Rugby Sevens Agreement is being looked into.

One of the challenges is, we know Lautoka City's Churchill Park hazard at the moment, is the floodlights. The light standard is not to international standard and for this purpose, Government has given a grant of \$500,000 during this budget to start off works and improve floodlights.

From the perspective of infrastructure and from the perspective of soft support through MOU, et cetera, the Ministry of Local Government through Government, is very much supporting Lautoka City continuously in attracting games, including international tournaments of such sort. Thank you, Deputy Chairperson.

DEPUTY CHAIRPERSON.- Thank you, Mr. Khan, for the explanation.

HON. V. PRAKASH.- Deputy Chairperson, through you, I am happy as well as the PAC to see the progress and we would really like to see that this historical event is remembered and is permanent, as has been assured by the CEO.

My last question will be, Deputy Chairperson, through you, I am asking the CEO if the Council could brief the Committee on the additional responsibilities to also cover the areas of work for Rural Local Authority and what is the Council's capacity to facilitate its responsibility?

MR. J. NAKAUVADRA.- Thank you, Sir, for the question. The amalgamation of rural areas with the Council responsibility was something that started last year after the announcement of the 2018-2019 Budget. The area of Lautoka starts from Tuvu up to Natalau and also included the Yasawas Goups, the Mamanuca Groups and the Malolo Groups of island. So, it is a big responsibility.

HON. V. PRAKASH.- Exactly.

MR. J. NAKAUVADRA.- But we have to do it. We have no choice but to work with Government.

We are working very closely with the Government in terms of human resource and also the provision of support. They have just lately approved the purchase of two vehicles to be used by our Health Department and our Building Department to look after additional areas. They have also approved the

recruitment of additional Health Inspectors and Building Inspectors to facilitate for the provision of service to these areas.

When we talk about these areas, we can imagine the amount of developments taking place in these areas. The Nadi to Lautoka corridor is one of the fastest growing areas in Fiji in terms of tourism, industrial and commercial developments, as well as hotel developments in the islands. So our staff basically have to work overtime to cope with their work and that is something that we need to do. We have no choice but to work with Government because developments have to take place, someone has to supervise the developments and developments are done in a very professional and they comply with all the requirements and regulations that are stipulated in the laws of the country. Thank you.

DEPUTY CHAIRPERSON.- Thank you very much.

We have come to the conclusion of our proceedings today. One behalf of the Public Accounts Committee, CEO, Acting Manager Finance and representative from the Council, we wholeheartedly thank you for your time, your effort and the venue you have given to us today. We will keep in touch and the questions that were raised, your response may come later on. So, thank you very much.

We also would like to thank the Director of Local Government, Mr. Alipate, who is also here, the OAG Representative, Una from Hansard and members of the Armed Forces and Parliamentary secretariat. Thank you very much.

Our next session is Nadi and we will proceed at round about 1.00 p.m. Thank you very much for your attendance. God Bless you and have a blessed day.

The Committee adjourned at 10.45 a.m.

STANDING COMMITTEE ON PUBLIC ACCOUNTS

[Verbatim Report of Meeting]

Nausori Town Council Rakiraki Town Council

TUESDAY, 26TH MARCH, 2019

VERBATIM NOTES OF THE MEETING OF THE STANDING COMMITTEE ON PUBLIC ACOUNTS HELD IN THE NAUSORI TOWN COUNCIL CHAMBER ON TUESDAY, 26TH MARCH, 2019 AT 9.00 A.M.

Submittee: Nausori Town Council

In Attendance:

1) Mr. Deo Narayan - Acting Chief Executive Officer

2) Ms. Swastika Ratan - Manager Finance

3) Mr. Milan Singh - Senior Accounts Officer

4) Mr. Jitendra Singh - Market/Bus Terminal Manager

5) Mr. Atish Naidu - Manager Engineering

Office of the Auditor-General

Mr. Dineshwar Prasad - Director Audit

Ministry of Local Government

Mr. Alipate Mataivilia - Senior Accounts Officer

DEPUTY CHAIRPERSON.- Good morning everyone. Before we begin I welcome you all and before we begin may I request Honourable Lalabalavu to say a word of prayer before we begin today proceedings.

(Prayer)

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. Ladies and gentlemen before we proceed let me introduce the Members of the Public Accounts Committee.

(Introduction of Committee Members)

Before us we have the Report of the Auditor-General on the Audit Report of Municipal Councils for the year 2013, Parliamentary Paper No. 135 of 2018. We are here at Nausori Town Council Chambers.

Honourable Members, before we begin let me remind the Public Accounts Committee (PAC) Members that after the presentation and deliberation, we will excuse the Nausori Town Council Team and then confirm our Minutes. So, may I request the submittees to introduce themselves and we shall begin with the proceedings.

(Introduction of Nausori Town Council officials)

Deputy Chair, we are obliged to provide the relevant answers should any questions be directed to any of my members but I comprehend that whatever is here in front of me I will try my utmost best to present to you, Honourable Members and see that the message that I am trying to put across is very precise and clear.

DEPUTY CHAIRPERSON.- Thank you. Also at this juncture I like to welcome the representative from Hansard, members of the security forces and members of the media. Thank you very much. We shall begin the proceedings now.

MR. D. NARAYAN.- Thank you, Deputy Chair, on behalf of Nausori Town Council, I have much pleasure in submitting our response to the Public Accounts Committee in reference to the Annual Accounts Audit for the year 2013.

Nausori Town Council takes this opportunity to thank the PAC for the opportunity given in responding to the Annual Audit Accounts for 2013.

The response has been prepared in consultation with the finance department and the management of the Council.

The questions sent to the Council on Wednesday, 19th March, 2019 and hereunder are the questions and the responses.

Question 1: Explain why the Council has been issued with a Disclaimer Opinion and how has the Council addressed the individual issues raised in the Disclaimer of Opinion?

Deputy Chair, in 2013 Nausori Town Council transit from accrual Small to Medium International Financial Reporting Standards (IFRS).

DEPUTY CHAIRPERSON.- Mr. Narayan and Honourable Members, if there is a need you may interject or ask supplementary questions.

MR. D. NARAYAN.- Alright, I do appreciate that, Sir.

The Council was adamant of the transit and wanted to make a start to ensure that the financial system was fully compliant with IFRS system over the short term.

DEPUTY CHAIRPERSON.- Yes, Mr. Narayan there is a question by the Honourable Member.

HON. A.M. RADRODRO.- Just a question. This is the same copy that we have with us?

MR. D. NARAYAN.- Yes.

HON. A.M. RADRODRO.- I can see that you are reading from the projector. Do we have the same copy with us?

MR. D. NARAYAN.- Yes.

HON. A.M. RADRODRO.- May be you can direct us to which numbers that you are referring to.

- MR. D. NARAYAN.- Thank you, Honourable Member. On Page 2, No. 6, the Auditor-General has placed disclaimer of opinion as follows:
 - a) The reconciliation of bank accounts the Council has been performing regular reconciliations of all activity bank accounts in operation and reports discussed in the finance standing committee meeting; and

^{3 |} Verbatim Report – Audit Report on Municipal Councils 2013 Tuesday, 26th March, 2019

b) The three accounts that the OAG has been reporting upon, not being reconciled are the garbage, vehicle and labour fund accounts. Sir, for that the Council would like to stress here that these fund accounts were created during the elected councillor's days and the balances as per book are below \$2,500 with no deposits or withdrawals made after 2009.

Moreover, Sir, the Council has decided to close these accounts during 2014 and the finance team shall discuss the same during the next external audit exercise when it will be executed.

In addition as per the audit, all bank certificates for the bank accounts at the end of the financial year are produced to the Office of the Auditor-General.

HON. A.M. RADRODRO.- A supplementary question, Deputy Chair. Thank you CEO for your explanations. Given that this is a 2013 account and now it is 2019, we note that your account is still very much late in terms of submission for audit. What assurance can you give the Committee, first of all what you are saying is actually up to date in terms of performance of reconciliation and secondly in terms of your accounts, are they up to-date now for audit?

MS. S. RATAN.- Good morning, Sir. For the Members to note until 2017, the draft financials have been submitted to the Office of the Auditor General and we are now in the process of preparing 2018. Please note that these adjustment entries are opening balance adjustment entries which we have also highlighted to OAG together with the Ministry. At the moment the Council is seeking an opinion from Ministry how we can adjust these balances, because these balances are brought forward from 2009 and we cannot just write it off. So, in our Manager Finance Forum which was held last year with OAG and the Ministry, we did put forward our proposal for them to advise us how we can update it. Currently the draft financial which we have submitted will still have that because it is a carried forward balance and we have not written it off. Monthly bank reconciliations are also endorsed in our financial committee meetings plus we are having daily bank reconciliations and cash flows reports prepared which is signed by Manager Finance and Chief Executive Officer and we have it filed. Also on top of that, we are preparing daily summary receipts from the cashier which is also verified by three people before it is signed off by Manager Finance and CEO. The only problem we are facing which is still coming forward under disclaimer is these opening balances which is being carried forward. So, that is why we have already asked assistance from the Ministry to help us as to how we can write those balances off.

DEPUTY CHAIRPERSON.- Thank you Swastika, any supplementary questions to that?

HON. V. PRAKASH.- Can we have a comment from Ministry of Local Government regarding the submittee's explanation? We do know that it is encouraging to hear, Mr. Deo and your accounts team that you have come all the way up to 2017. What is your response regarding what she is trying to explain to the Committee?

DEPUTY CHAIRPERSON.- Thank you, Honourable Member.

MR. A. MATAIVILIA.- Thank you Deputy Chair. In response to that comment made by the NTC, we have been working together with them in trying to sought out these that has

been carried over from the previous years. We have stressed to them that it is not that easy to just write off that amount. We have further stressed to them to try to exhaust all other avenues in order to substantiate those balances that have been carried over, over the years. At the same time too, we are trying to get a legal opinion from the Office of the Solicitor-General on how can the Minister be empowered to write-off the amount because the amount is quite substantial. We do not want to carry-out the write-off then we have people coming and claiming those monies. Those are the issues that we have with them, but we are trying very hard with OAG on their advice on how we can go over with this issue.

DEPUTY CHAIRPERSON.- Thank you very much. Honourable Member, you may be proceed with the question.

HON. RATU N. LALABALAVU.- Depurty Chairperson, through you. I seek some clarification, Sir, especially to the Ministry and the OAG regarding that particular issue of write-offs. I understand there have been write-offs being initiated by the Ministry of Economy in the past; huge amounts, quite substantial amounts have been recommended to be written-off. I simply need some clarification on this as to the position of this particular issue, perhaps with some other municipalities in what they are encountering through carry over figures that it is hard to provide particulars or details of and there is a need to have it written off because of the amount of years it has been there. The only clarification I seek, Sir, is based on the invite that was given by the Ministry of Economy for a similar period for write-offs. What is the position of that one as against this one? Thank you, Deputy Chair.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. OAG you may respond.

AUDIT REP.- Thank you, Deputy Chair, through you. First of all the OAG cannot authorize or probably would not suggest for write-offs; that is the last option. The onus is on the Ministry and the respective Councils to carry out a detailed reconciliation. However, if they have gone through all the avenues and they are still not able to reconcile the figure because the issue is the huge variance that is arising could be related to fraudulent activities. So, in that case, what the OAG does is just highlight it in the Audit Report. However, that variance is going to be investigated, how that variance is going to be resolved needs to be done by the Council and the Ministry.

In terms of the write-offs, the OAG has no powers to authorize write-offs. I believe that is only through the Minister in consultation with the Ministry of Economy. The stand by the OAG is that, that qualification will continue to appear unless the variance gets resolved or the Ministry in consultation with Ministry of Economy and the Council decides after completing all the avenues whether it is appropriate to write it off. But there are repercussions because the ratepayers probably can question why there is a huge write-off because it can deal with fraudulent activities that probably would have happened in the past.

DEPUTY CHAIRPERSON.- Thank you very much for your response. Any other supplementary questions, Honourable Members?

HON. RATU N. LALABALAVU.- Yes, Honourable Deputy Chair, another supplementary question on that one. Thank you OAG for that explanation. But again, I am quite uncomfortable with the fact that one arm of the Government invites especially the

decision making one, and where the other Ministry is to make submissions regarding the write-offs. This one has been outstanding according to Manager Accounts and huge sums have been involved for the information of this meeting, \$3 million was written off by the Fiji Military Forces in the same period. That is a huge sum. I do not know about this one here. If there are fraudulent activities that are linked to it, then maybe the Ministry should explain as to why? It has not gone forward like other Ministries and Departments. There is a write-off instead of the Council here being burdened with this since it is a 2009 issue. Thank you, Deputy Chair.

DEPUTY CHAIRPERSON.- Thank you Honourable Member.

HON. V. PRAKASH.- Deputy Chair, through you a supplementary question. Hearing the explanation from OAG, I think all the municipal councils are in the good hands of the ratepayers who are part and parcel of any Council. I just want to ask the Council if they have exhausted their investigation, because I still think the books should be open and it should be the duty of the Council to try and investigate those things because at the end of the day, we are all answerable to the ratepayers.

DEPUTY CHAIRPERSON.- Thank you Honourable Member, Manager Finance you may give your response.

MS. S. RATAN.- Sir the problem we are having is, that account is not in operation at all. The figure appearing is \$2,500 for one account, \$165 for one account and \$1,100 for another account. In aggregate it is less than \$5,000. The bank account is not in operation at all but it is appearing in the financial (in the books) that it has an outstanding balance and it is from 2009. The problem that we are facing there is no record. We cannot trace what kind of deposits were they; that is the issue. If the accounts were in operation, we could have gone back to the banks to see. But the problem is that the accounts were not in operations since 2009 and this is 2019. So, what we have done, we have not written it off. It is still appearing in our draft financials which we have submitted. At the moment, we cannot trace back the records to 2008 and 2009.

DEPUTY CHAIPERSON.- Thank you very much. Honourable Members, any other questions?

HON. A.M. RADRODRO.- Deputy Chair, just a supplementary question again to the Nausori Town Council. You mentioned \$2,500 is the amount outstanding?

MS. S. RATAN.- Yes.

HON. A.M. RADRODRO.- But what the OAG has highlighted is about \$122,000 and \$99,437. So, you have done the reconciliations. it looks like?

DEPUTY CHAIPERSON.- Manager Finance, can you respond to that?

HON. A.M. RADRODRO.- Page 13 of the OAG Report.

MS. S. RATAN.- Sir, for garbage, vehicle and labourer's fund, the maximum is \$2,500. The other variance is in relation to fire service and street light accounts. So, it is accumulative of that. Even for that, from 2007 there has just been carried forward balances. At the moment the Council does not have those bank accounts. It ceased its operations prior to 2009.

HON. A.M. RADRODRO.- OAG can you enlighten us on the figures that you have in your book?

AUDIT REP.- Thank you, Honourable Member. There are two different issues here. One is that the Council maintains a general fund account and the other small accounts. So, what happens is that, when we audit we go through the reconciling items and we also look at the balances from the previous year and if it has contained any variance. What has actually happened is that the bank reconciliation of the general fund, it had not balanced. There was a significant variance.

HON. A.M. RADRODRO.- That is the amount?

AUDIT REP.- Yes.

HON. A.M. RADRODRO.- What does that amount reflect? Is it a combination of balances of all the three accounts or just one account? We are not on the same page on the responses coming from the NTC.

AUDIT REP.- The Cash at Bank of \$99,347, I am talking about the General Fund Account.

HON. A.M. RADRODRO.- That is one account.

AUDIT REP.- Yes, General Fund Account. So, the \$99,437 that is recorded in the Financial Statements, that cannot be ascertained because because there were reconciling items which cannot be traced to the bank statements subsequently. And also there was a variance which means that those items that reconciled the cash book, the accounting records of the Council with the bank, we cannot perform that because it cannot be traced. So, what it indicates is whether those reconciling items really exist.

HON. A.M. RADRODRO.- Those balances.

AUDIT REP.- Yes, whether it exists. So, it goes back to what happened in the past and whether it relates to fraudulent activities.

HON. A.M. RADRODRO.- Thank you, Deputy Chair. I think that is what we are trying to clarify. Maybe the Nausori Town Council needs to enlighten the Committee about this cash balance of \$99,000 that appeared in your books but could not be verified according to OAG Report. It is a very serious matter, Deputy Chair, given that the audit has put an opinion of disclaimer of opinion on it and that is every bad. The question also to the Ministry officials, when OAG gives such opinions to municipal councils, what sort of actions do you take on the management when they produce this kind of audit opinion? This is a very bad audit opinion when OAG starts giving disclaimer of opinion.

MR. A. MATAIVILIA.- Thank you, Deputy Chair. In response to the Honourable Member's question, I think from 2016 until today we are trying our best to work with the municipal councils on the opinions given by the OAG. Last year we have organized a joint workshop together with OAG and all Manager Finance of all Municipal Councils including the CEOs and Special Administrators where they have highlight to the Council the importance of issuing these opinions and what other actions that the Councils need to take in order to improve from this opinion in the past years. So, right now, Sir, we are working very hard with the

Councils (from big Councils to small ones). We are also trying to track the audit accounts to be on time and as we have seen with some backlogs in the past years. For now we can say that it is improving. So, based on that question, we are working very hard with the Councils and the OAG especially on these issues of audit opinions.

DEPUTY CHAIRPERSON.- Thank you very much. We will carry on, Mr .Narayan you may continue.

MR. D. NARAYAN.- Thank you, Deputy Chair. I would like to draw the attention of the Members to Page 2(b).

(b) Trade Receivables

The trade receivables for the Council had some reconciliation challenges. This is due to figures improperly reconciled pre-2010. An internal audit carried out by Special Administrator, the late Mr. Napolioni Masirewa in 2010 showed mismanagement of subsidiary debtors account.

Moreover, Deputy Chair, records revealed that cash used to be collected and not banked by officers. Records further revealed that the Council finance team had a network in place on the subject.

Immediate changes and reforms were introduced.

The Fiji Independent Commission Against Corruption (FICAC) had charged two staff with one sentenced and a Senior Rates Officer terminated by the Council. The Council planned to commence subsidiary reconciliation over a three years period given that external stakeholders such as ratepayers were involved.

In addition, Sir, the software in which rates information had been stored crashed in 2010. The Council has reconciled debtors accounts and from 2014 has updated subsidiary and general debtor's ledger on a monthly basis.

(c) Trade Payables

A detailed analysis of trade payables is prepared monthly showing orders issued, movements during month and balances to the supplier's details. Records are kept intact for years where audit has yet to be carried out.

(d) Assets Management

The Council had its last assets valuation carried out in 2012 and this year valuation shall be carried out to upgrade financial records.

Our analysis showed that the Council's assets stood at an estimated value of \$5 million in 2008, today it stands at an estimated value of \$35 million that is inclusive of land and building.

The Council Management is of the opinion that the disclaimer audit opinion will be positively looked into during the next audit exercise by the OAG.

DEPUTY CHAIRPERSON.- Thank you Mr. Narayan. Honourable Members, any questions in that regard?

HON. V. PRAKASH.- Deputy Chair, I am pleased to know that actions have been taken for those that were trying to play around with the accounts. Charges have been laid, I believe. Prior to this, Deputy Chair, as Honourable Radrodro had suggested that it is important to see the big amount that is there, there needs to be an answer for that. We will request the Council to try and exhaust all avenues to see that they have some answer. If not, then the other audit reports will also reflect those things.

It is also important, Deputy Chair, to note that the improvements they are trying to make since they have joined NTC, the current Head of Finance has vast experience from larger municipal councils. It is good to hear that there are changes taking place. That does not mean that the backlog is left there. With the expertise of staff, I think they should exhaust all avenues; ratepayers and the public must know the answer to that.

DEPUTY CHAIRPERSON.- Thank you Honourable Member, any other supplementary question?

HON. A.M. RADRODRO.- Deputy Chair, just a clarification from the officials of Nausori Town Council. Your comments on the records reveal that cash used to be collected however not banked by officers. Records revealed that the Council finance team had a network in place on the subject. Were they playing around with the system? What sort of system did you have in place at that time and what improvements are you putting in place because I think this is a similar comment that you produced to us the last time your Council came before PAC. The Ministry's officials took a stand on it, saying that they were undertaking regular meetings to try to address these sort of discrepancies. So, it looks like that that meeting is not working.

DEPUTY CHAIRPERSON.- Yes, Manager Finance, you can proceed.

MS. S. RATAN.- Sir, previously in 2010 and 2011 the practice was when the rates officers apart from the cashier receipting, it was still manual. They used to go and follow up on arrears on the streets so they used to collect and issue them the manual receipts on the ground.

From 2014, the improvements we have done is that now it is a computerized receipting system, there is no manual receipting. Plus any payments received is in the office. There are no payments received by officers on the ground. So, we have two offices: Nakasi and Nausori. So, all major payments received is through the receipting system, we have the MYOB receipting system and we are not giving manual books to the officers when they go for demand or inspection notices. So, we have pulled back those.

HON. V. PRAKASH.- So, that is the progress?

MS. S. RATAN.- Yes, that is the progress we have done from 2014 and 2015. We do not have manual receipting. We are not giving manual receipts books to the staff to go on streets to collect. Payments are received by the office cashiers.

HON. V. PRAKASH.- Thank you very much for that.

MS. S. RATAN.- On top of that, like I have indicated earlier, we are having daily receipt summaries. It is being done by our cashier which is checked by a revenue officer then it is brought to Manager Finance. So, it will have a sequence of all receipts computer generated

or manual issued by the Nakasi office then it is checked by the revenue officer before it is brought to Manager Finance. She signs and it goes to Mr .Deo (CEO) and the next morning when doing the cash flow, management accountant also checks that same report. So, there is no segregation and rotation of duties. We are also checking those things. These are the controls we have put in. This we have brought in from 2014 onwards. So, at the moment, we cannot say, "what was the practice like previously" because we do not have those staff, that is a different management, but this is what we are doing now.

DEPUTY CHAIRPERSON.- Thank you very much for that enlightenment. Any other supplementary questions, Honourable Members?

HON. RATU N.T. LALABALAVU.- Thank you, Deputy Chair. Just a supplementary question on the assets management. A question goes to the Ministry as well. I am a bit uncomfortable here regarding the statement that the valuation is still to be carried out. These are the proper valuations and yet at the same time, on the third paragraph of (d), when you are trying to counter the disclaimer opinion given by OAG, you come up with these estimates of values. Are we playing politics here or is this the very nature of how things are reported by the Council which leads to this disclaimer being given by OAG and you are giving estimates here. Thank you Honourable Deputy Chair. That question goes to the Ministry as well.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member, can the Ministry respond to that.

MR. A. MATAIVILIA.- Thank you, Deputy Chair. In response to that we have already highlighted the importance of the Ministry working together with the Councils in trying to eliminate this disclaimer audit opinion. We take note of all the advice and comments made today.

Moving forward, I think from the Ministry's side we are trying to see whether there has been a similar write-off like this in the past so that we can proceed in trying to work with the Council to improve on the variances that we have discussed.

Secondly, we will try to also work with the Ministry of Economy on the write-off issues as elaborated by the OAG. In terms of the estimate that been raised, Deputy Chair, maybe Nausori Town Council can explain more on that. I think that is from the Ministry.

DEPUTY CHAIRPERSON.- Thank you for your response.

MS. S. RATAN.- Previous years, financials were just normal financials prepared by the Councils. So, majority, Mr. Dineshwar can also vouch for this, you will see opening balance, addition and disposal. That used to be how the fixed assets were maintained, but from 2014 when we moved from normal financial to SME financial under IFRS, we created a detailed fixed assets register with the help of the Ministry. So we now have a detailed listing which individually lists all our assets. But the issue is, when we took over from old to new, the opening balance, because that is how they used to record. It is used to be just opening balance, addition and accruals. So, the opening balance we brought forward with the register because we will not be able to know what were in the assets listing. This disclaimer comes because the opening balance is still there. We were told that for us to move it, we will need to have a full valuation done. We advertised last year and then there was a forum with the Ministry held with Ministry

of Economy where they explained that to do a full valuation of the Council's properties is not a simple process. We have to follow detailed steps which the Ministry of Economy is helping us with, so this year we are going for a full valuation. We will follow up with the Ministry of Local Government and Ministry of Economy. But the improvement is, now we are having a detailed fixed assets listing of all our fixed assets plus we have annual stock-takes done which is now also endorsed in our finance meetings.

DEPUTY CHAIPERSON.- Thank you. Aany other supplementary question.

MS. S. RATAN.- Deputy Chair, this is just an example of what we have created now. Before it used to be just opening balance, addition and deletion. This is the listing.

HON. A.M. RADRODRO.- That is the Microsoft excel.

MS. S. RATAN.- Yes, Sir. We have created for 2014, 2015, 2016, 2017 like that. So, we have separate registers now maintained.

DEPUTY CHAIRPERSON.- Thank you. Honourable Prakash you may proceed.

- HON. V. PRAKASH.- Deputy Chair, I think there was a valuation carried out in 2012. as per your explanation. But the figures we have here, the last figure was for 2008 of \$5 million. What was the value of the assets after you carried out valuation in 2012?
- MS. S. RATAN.- Sir, I do not have my financials here, but we can provide that figure because the financials reflects the 2012 figure.
- HON. V. PRAKASH.- Why I am asking this because Nausori Town Council is very important to this nation. This is a Council where three provinces interact. We have seen the growth of this Council from day to day, month to month and year to year. As a result of that, it is also important for any ratepayer to know the exact value of their Council. So, it would be nice if you provide us with the valuation of assets for 2012 at a later stage and we will also be looking forward to know the value by the end of this year as you have promised.
- MS. S. RATAN.- Yes, Sir. The estimate written there is \$35 million, but what we are saying is that after the inclusion of the new market that could be our estimate. At the moment in our financials we are approximately around \$8 million, but now with the inclusion of the new market, the value of building and plants could be around \$35 million. But we will wait for the new valuation report that will come after the valuation which we will provide to the PAC. For the 2012 valuation figure, after this meeting we will write to you, Sir.

DEPUTY CHAIRPERSON.- Thank you very much. For the information of the Committee and officials of Nausori Town Council, should you feel that you want to respond later on in writing, you may seek permission from the Committee. Any other supplementary question?

HON. A.M. RADRODRO.- Deputy Chair, just another supplementary question. I think this also relates to all the issues that have been highlighted by the OAG in terms of its disclaimer listing. The trade debtors, the OAG has stated that the Council has about \$1.9 million listed as those that are still owing the Council. You have not stated on what is the actual amount owed to the Council as of now. You mentioned the process that some officers are receiving on the streets but not banked but it does not take away the fact that you have a huge amount reflected

as owing to the Council of about \$1.9 million. That is a huge amount to discard off because as it is, it is overstating the capability of the financials of the Nausori Town Council whether the actual amount is still \$1.9 million or is it much lesser? What is the situation in terms of the reality of sums owing to the NTC?

- MS. S. RATAN.- Sir, for \$1.9 million, majority was rates arrears and as we continue and I will ask our rates officer to give you the actual as of now, but that will be inclusive of rates plus the 11 percent interest. So, I will advise him to give us a figure, it is around \$2 million because now it is 2018 invoice current plus the arrears.
- HON. A.M. RADRODRO.-Yes that is what the OAG has mentioned. As of 2013, Nausori Town Council has listed \$1.9 million in terms of its debtors owing to the Council. But they have also stated that they could not verify it. So Nausori Town Council financials could be overstating its financials; inflating and you know what could be the consequences of that. MS. S. RATAN.- Yes.
- HON. A.M. RADRODRO.- There could be a liquidity problem in the Town Council. If you look at the financials, you only have \$99,000 of cash but you have \$400,000 of creditors. How are you able to afford that? What is the Ministry's stand on that? Has it done a review or has it done some proactive measures or advice to the Council?

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. I request the Ministry to respond.

MR. A. MATAIVILIA.- Thank you, Deputy Chair. I think most of these trade debtors are from the ratepayers as highlighted by Manager Finance. For ratepayers we have a challenge now for collecting the rates especially for Nausori as they have mentioned it, it stands at \$2 million by now. So, from this year we have taken

HON. A.M. RADRODRO.-That is \$2 million of paper value.

MR. A. MATAIVILIA.-Paper value. Those who are ratepayers who have defaulted in their payments. So, from the beginning of this year we have put up a Cabinet paper for the rate amnesty period, that is, from February to August for the next seven months. Our focus is only for resident's ratepayers because we saw the challenge faced by ratepayers who were in arrears. So, we are giving them these seven months to pay for the principal amounts, and if they do so, we will waive past interests which has been accrued from past years. So, we are giving them a grace period from February to August. We will highlight more of this in our response as we also have a question on this.

DEPUTY CHAIRPERSON.- Thank you very much.

MR. D. NARAYAN.- Thank you, Deputy Chair. With your permission I would like to provide the response to the next question.

Question 2: Why have the rates and fees decreased in 2013 when the municipal/town area had increased? Why was the Council's operating expenses increased when there was a significant reduction in the rates revenue?

Honourable Members, I will take you to item No. 7, Page 3 where the response has been provided by the Council. The number of ratepayers remained the same as of 2008. In 2008 Naulu/Nakasi was shifted under Nausori Town Council.

The Council commenced standard service delivery in the extended areas from 2011. Yearly community meetings had been organized for the area and ratepayers and citizens were informed on the projected income and expenditure and services proposed for respective areas.

Audit report reflects rates figure decreasing during the year 2013. Though, Nausori Town Council levies the lowest rates, collection has remained uniform over the years.

Moreover, Honourable Members, Nausori Town Council discussed and stated that the amount by audit (team leader carrying out the audit) the figure stated was the right one to be reflected.

Honourable Members, I would like to draw your attention to the Local Government Act, Section 78(2) which states and I quote::

"Any rates overdue shall bear interest at the rate of 11 percent per annum and such interest charged shall be included in the expression "rates"; the Minister may by order vary the rates of interest."

In this context, Honourable Members, legally there is nothing such as rates in arrears and based on this context, statute barred limit does not apply to rates meaning that the rates can be collected from the property even after six years.

Further, Honourable Members, the OAG is of the view that the rates as per financial standards shall have rates reflected in revenue as per total invoices generated for the year and the need to create a doubtful debt to ensure that accrued revenue figure is kept conservative.

During audit 2013, team leader audit was informed that the Council had been reflecting actual rates collected per year as rates income.

The placement of total rates as per invoice generated showed previous years' rates too which legally is defined as rates for the year.

This would mean an overstatement, Honourable Members. Doubtful debts is not supported by the Council as it is felt that a window of opportunity is created to write off possible public revenue.

Team leader audit was supplied information showing that the Council collected during the year \$456,785 as rates, rates charged for the current year was \$794,533.27 and rates collected from rates levied for the year was \$962,695.41.

Team leader audit preferred to place the rates income as rates collected from rates invoiced to the current year which was \$576,100.74. The balance of the rates collected has been transferred under the accounts receivable journal adjustments.

The Council is of the opinion that the rates figure used by the team leader audit is an overstatement.

DEPUTY CHAIRPERSON.- I think it is "understatement"

MR. D. NARAYAN.- I beg your pardon, Sir it should be "understatement".

DEPUTY CHAIRPERSON.- Thank you very much, you may continue.

MR. D. NARAYAN.- Moreover, Deputy Chair, the SA decided to introduce during the year a Human Resources Manager's position, the position of Clerk of Works for the Inter Transport Project and upgrade the financial position of the Treasurer to Manager Finance.

The positions had an impact on the operational increase. Reasons for the Human Resources Manager' position creation was to increase speed or reform within the system and today out of 36 staff, only two staff remain permanent compare to the year reporting period, Deputy Chair.

The position of Clerk of Works position has been established to support the market/bus stand relocation. The reason for upgrading the finance head position has been to ensure that the financial management was strengthened upon to support asset additions and extended work scope.

Following restructure in 2014, the position of Human Resources Manager had been scrapped and the duties were divided between administration and finance. The Clerk of Works' position had come to an end in 2015.

The roads adjustment had been suggested by the Council to the team leader audit to be placed as an extraordinary item. The reason is that it is a one-off and has been in regards to removing road assets from the Council's assets register as the same had been transferred to Fiji Roads Authority (FRA).

Moreover, Council is thankful to the Government for the transfer as the Council did not have the capacity and resources to maintain road assets under its register to the citizens' desired level.

The Council is of the opinion that rates understated figure and the transfer of road assets shown as a normal expenditure has reflected a heavy loss.

Deputy Chair that is the end Question 2.

DEPUTY CHAIRPERSON.- Thank you, CEO. Any questions, Honourable Members?

HON. V. PRAKASH.- Deputy Chair, I have one supplementary question. That has been a big relief, I think. We thank the Government of the day for taking infrastructure, that is, roads away from the Council maintenance and I think Ministry of Waterways is now looking after drainage which is again a very big relief for any municipal council.

Deputy Chair, through you, what other service delivery do you carry out for the ratepayers, I was a bit worried about the \$2 million being owed. Since the major maintenance work has been taken away from the Council, this will leave more room to service the ratepayers. What are some areas that you have improved in providing services to the ratepayers because a major expenditure area has been taken away and I think that will really enlighten those ratepayers who are still owing the Council? Can we hear from you, Sir?

DEPUTY CHAIRPERSON.-Thank you, Honourable Member.

MR. D. NARAYAN.- Honourable Member, for the services that rendered by the Council is in terms of grass cutting, drain cleaning, maintenance of roads, verges, curves, side roads, also in terms of solid waste management, this has been one of the much challenging areas that the Council had to encounter. Looking at the location of Nausori municipality and transporting the garbage right up to Naboro, for one trip it is going to be roughly about 84 kilometers for a truck to travel.

Moreover, one truck will include laborers and other associated expenses can reach up to \$550 per trip. So, you can see Honourable Members how much the Council has to bare for solid waste management on its own at the moment.

From last year there has been an extension to the boundary but it has not been to a very large scale, the Government has been giving some subsidy but it does not cater for the huge areas that are within the vicinity that has to be provided with services. We should not be seen to be biased in providing the service to the people or the residents of a subject locality. So, these are the two major challenges that the Council is facing in trying to provide the services at present.

DEPUTY CHAIRPERSON.-Thank you for your response. Any other supplementary questions, Honourable Members?

- HON. A.M. RADRODRO.- Deputy Chair, just a clarification in terms of the transfer of roads and other facilities to FRA. On the issue of flooding, I think recently there were some blocked drains in the Council earlier this year. Who is responsible for attending to those issues of flooding? Is it FRA or NTC?
- MR. D. NARAYAN.- Deputy Chair, this has been one of the challenges at times because FRA comprehension is is only gazetted roads that they are entitled to look after and oversee. But any sub road or cul de sac that is within the municipal boundary, that the Council has to attend.

DEPUTY CHAIRPERSON.-Thank you, CEO. Any other supplementary questions, if none you may proceed.

MR. D. NARAYAN.- Thank you, Deputy Chair. I will now respond to the next question on Page 5, Honourable Members.

Question 3: Was the write-off amounting of \$433,211 properly approved and accounted for? Please explain.

Sir, in fact the Council did not carry out any write-off as mentioned in the report. The \$433,211 refers to road assets transferred to FRA, given that the Council did not have the ability to maintain and upkeep to required standards. Government decided to assist in this area in 2013.

In addition, Honourable Members, Councils in Fiji transferred all municipal council's assets to FRA. As earlier informed, we had requested the team leader to classify this as an extraordinary item, which was not taken on board, Deputy Chair.

Nausori Town Council had carried out valuation of all land and buildings in 2012 and no property (land and building) has been disposed of or sold by the Council since then. So, the

Council has maintained the properties or assets that were there at that time, even today. So, we did not sell any of our properties to anyone.

DEPUTY CHAIRPERSON.- Thank you. Any questions, Honourable Members?

- HON. A.M. RADRODRO.- Can you just clarify the sort of arrangement that you have in terms of your Council still looking after all these roads and drains that you have mentioned?
- MR. D. NARAYAN.- The Council does take the responsibility in all areas falling within the boundary as prescribed as NTC, the Council has to provide service to the ratepayers. While the FRA is reluctant or not in a position to provide or upgrade the roads, the Council does come in to see that the challenge is abided wherever the area is.
- HON. A.M. RADRODRO.- Who is looking after the maintenance of all those infrastructures?
- MR. D. NARAYAN.- That is why, Deputy Chair, I said that when FRA says that it does not cover within their ambit of responsibility then the Council will come in.
 - HON. A.M. RADRODRO.- Okay. Is it done at a fee?
- MR. D. NARAYAN.-No, Sir, that is within the rates that has been collected from the ratepayers. Council has to make allocation within its own budget to have the activities executed.
- HON. A.M. RADRODRO.- Deputy Chair, can we just get a comment from the OAG regarding their comments on the Council's comment on 17, saying that there is no write-offs as being alluded to in terms of the \$433,211.

DEPUTY CHAIRPERSON.- Thank you, OAG your response, please.

AUDIT REP.- Thank you, Honourable Member. Deputy Chair, through you, in fact there was no write-off, and I agree with the Council. It was an amount that was recorded in the Financial Statements to take away all those assets that was previously recorded under the Council's accounts. So, it is not a write-off, it is just an expensing out of the difference between the written down value and the amount that those assets were recorded initially. After that adjustment, the Council does not hold any roads, drains or streetlights in their accounts because those assets have been transferred to FRA. So, the expense that was recorded was to record the transfer of those assets.

HON. A.M. RADRODRO.- Deputy Chair, just a clarification. This is the difference of what has been transferred and what is recorded in the book, is that right? What you are saying there is \$433, 211 which is the difference between what has been transferred to FRA and what is in the books of NTC.

AUDIT REP.- I am sorry Honourable Member, there were two types of payments made to FRA.

- i) FRA requires the Council to pay them for the work that they carry out on behalf of the Council; and
- ii) The Council also gets reimbursed for the work that they carry out in which FRA is supposed to carry out. That was an arrangement that was made between the FRA and the Councils. There was an MOU signed and probably the official from the Ministry of Local Government can clarify on that MOU.

I would request if I can come back to the Committee on whether that was the write-off transfer of the assets or the payment in form of the services.

DEPUTY CHAIRPERSON.- You are permitted to do so.

HON. A.M. RADRODRO.- Deputy Chair, just a follow-on question. When you prepared this final Audit Report, did you do an exit interview that you are supposed to do with the relevant Ministry?

AUDIT REP.- Yes, we always do that. That is part of our audit process.

HON. A.M. RADRODRO.- Then why did you not resolve this issue during the exit interview?

AUDIT REP.- The issue of \$433,211, there was no such issue. I am confused how that is coming up in the Audit Report. It is only in the explanation of the difference in the financial statement. We have not raised that as an audit issue.

DEPUTY CHAIRPERSON.- I request that you respond later to this, so we can proceed now. You can continue, , Mr. Narayan.

HON. RATU. N.T. LALABALAVU.- Just a supplementary question to the OAG, there is deemed transfer or blanket transfer so to speak. It is just a statement being given that all these roads now comes under the FRA. That is why we have this confusion of paper figures here. It would be interesting to note, subject to what you are going to be seeking advice on from your office is the actual transferred because these are fixed assets.

AUDIT REP.- Yes, Sir.

HON. RATU. N.T. LALABALAVU.- The actual transfers, have they really been transferred to FRA or this is just a blanket approval given?

AUDIT REP.- Thank you, Honourable Member. Deputy Chair, through you, the Decree that came in 2012 required all the roads, drains and street lights to be transferred to the FRA with an immediate effect. If the Council had taken any loans on the construction of those roads, street lights or drains, those loans were to be transferred as well. The MOU that was done at that time, we have also noted how those arrangements were made. The things were not falling in place. There are still some work done by the Council and where the reimbursement

needs to be done, but there are no forms of reconciliations to prove how FRA would be paying to the Council.

Initially after the Decree came in, they did not transfer the assets immediately but then they started. So, from their Financial Statements, it was only a book entry. They have passed the adjustments to take out legally, probably the Ministry of Local Government can elaborate on whether the illegal transfer has been made. We have been following up with some of the Councils and the Ministry as well. We did not see any legal transfer, from the beginning, if there was any legal document regarding the ownership of those roads, drains and footpaths to the Council, maybe the CEO can specify that.

DEPUTY CHAIRPERSON.- Thank you, you may explain, CEO.

MR. D. NARAYAN.- Thank you, Deputy Chair. What I comprehend from the records that were with the Council is that the MOU was done between Nausori Town Council and FRA whereby FRA according to the instrument of the MOU was that all the roads, rivers and bridges under the FRA's duty of responsibility would be taken care of. Due to changes in the administrative issue at FRA, we have come across many at times where they are like asking the Council, "you look after some of these areas and those areas.". So, when we try to draw the attention of these individual officers of FRA that the MOU is there, but looking at the gravity of the issue, the challenge that the poor ratepayers is facing these things takes a long time so the Council steps in and addresses the concern.

HON. A.M. RADRODRO.- Probably a request to the OAG and the Ministry of Local Government to follow on on this transfer. Probably what we were trying to transfer through the Decree, whether the actual title has been transferred to FRA. The \$433,211 that has been asked is in your Financial Statements on page 20 as a reasoning for the huge increase in expenses.

MS. S. RATAN.- Sir, just to comment on that. The value in financials of road at the end of 2012 was \$433,211. So when we did the transfer, that whole batch was taken from our fixed assets listing. Now if you see in our fixed assets listing, you will not find any streetlights, drainage or road. Why? Because it was taken off. That is why that entry came in. So it was taken off from the fixed assets and it was expensed off. So, now from 2014, there is no listing for streetlights because it has been given to FRA.

DEPUTY CHAIRPERSON.-Thank you very much.

AUDIT REP.- Deputy Chair, I have checked and I agree with the comments. So \$433,211 was the actual transfer of the written down value because it needs to come out from the accounts. That was the adjustment that was made. It was not actual cash that was paid out, it was an adjustment as a book entry.

DEPUTY CHAIRPERSON.- Thank you very much. Any other supplementary question?

HON. RATU N.T. LALABALAVU.- Further to that, a supplementary question through you, Deputy Chair, Madam the OAG has already highlighted that the FRA only takes care of the gazetted roads. In that fixed assets listing that you have just stated and that equivalent amount (the value), does that take into account the non-gazetted roads? And that is why FRA asked you to continue to look after the non-gazetted ones - drainage and roads.

MR. D. NARAYAN.- Thank you, Honourable Member. As I had explained earlier that due to the changes in FRA's administration and with the new officers, sometimes they do tell that the Council that it is still liable for upgrading or doing remedial works, especially for drains, Mr. Deputy Chair. If you look at the issue there at hand, corresponding with one another takes a lot of time in terms of getting the right people to give us the right response. But we cannot deny our ratepayers of the service that they are entitled to. Looking at those scenarios, the Council comes in and tries to rectify the anomaly. But during our meetings we do raise the challenge with FRA's divisional representative if these issues could be taken on board and further consultations be undertaken within the administration that similar issues should not be arising with the Council. It should rest with their organization. So, intermittently we do have meetings and we raise these types of challenges if ones comes across to us.

DEPUTY CHAIRPERSON.- Any other supplementary questions?

HON. A.M. RADRODRO.- Thank you CEO for the explanations. You mentioned that roads has now been transferred to FRA. But the issue of ownership that we are talking about, one important concern that has been raised is the parking meters on the roads. Why is Nausori the respective municipal council collecting revenue from the parking meters when roads has now gone to FRA?

MS. S. RATAN.- Actually Sir, the original MOU, if you read it, it is very confusing. Even the bus shelters should be taken away from the Council but as per that MOU, parking meters is still under municipalities.

HON. A.M. RADRODRO.- That is in the MOU?

MS. S. RATAN.- Yes. It was a major confusion in that MOU. Also we were supposed to give, like he said expenses. They will invoice, we will pay and then they will reimburse, but that practice after one year it was stopped. In 2014 we did not do that. None of the Councils change of invoices. For example, the MOU states that as per your annual budget, whatever portion you take out for road repairs, the Council will pay to FRA and they will use that budget to repair your roads. That was how it was supposed to be done. In 2013 that was practiced but they found difficulties in that. From 2014 it was not practiced. Why? In 2014, the Government started giving the subsidy to FRA. So, it was not from municipalities. For example, if our budgets says \$500,000, we will pay them \$500,000, they will do the work worth \$500,000 so it will be a nil-off impact. That was how it was supposed to be, but in 2014 once the cost of repairing those roads were more than the budget, the Government started subsidizing. So, Councils were not paying to FRA and FRA was not invoicing to Government.

DEPUTY CHAIRPERSON.- Thank you very much.

HON. A.M. RADRODRO.- Deputy Chair, just another question on this clarification. We see a lot of cars that are visiting the respective municipal councils and the Nausori Town Council municipality would not be an exception; a lot of cars. But at the same time, a lot of booking too were done by officers of the municipal council on illegal parking. So, why cannot the Nausori Town Council address this particular issue of parking in spaces because there are no parking spaces available? So, people find spaces and park there but the booking is done by the Council officials.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. Can you please respond?

MR. D. NARAYAN.- Thank you, Honourable Member. We do employ four parking meter attendants. At the moment we had approximately 68 metres working but the challenge that we have in this lollipop-type of parking meters is very, very difficult to get their spare parts. So, the supplier is not in a position to provide us the relevant spare parts, that is why our number of meters operating on the street are getting lower and lower but we have also budgeted in the new year's budget to procure new parking meters for Nausori, similar to the ones they have in Suva so that we can capitalize on parking revenue that will be generated through these new meters that we are anticipating to procure.

DEPUTY CHAIRPERSON.- Thank you very much I think we will continue, please resume.

MR. D. NARAYAN.- Thank you, Deputy Chair. Honourable Members, onto the next question.

Question 4: Weak system of financial reporting. What computerized accounting system is NTC using for its financial reporting?

Nausori Town Council is part of a digitalized platform exercise currently on going for the Suva-Nausori corridor.

The recent ADB funded KPMG report notes that Suva City and Nausori Town Council's electronic systems are at a medium level.

The two Councils financial system have been classed above Lami and Nasinu Town Council.

Policy for 100 percent transformation has been prepared and work to progress shall be discussed soon between the four Councils, that is, Lami Town Council, Nausori Town Council, Nasinu Town Council and Suva City Council.

The Council uses software programmes to generate electronic receipts and the receipts are automatically upgraded within the system.

Rates information is now verified and shall see full automation in place from 2019. Payroll is 100 percent automated. Invoices are all electronically generated. Moreover, Deputy Chair, the procurements and accounts preparation shall be 100 percent automated from 2019 using MYOB and a combination of other software.

The Council's 100 percent automation exercise has been decided to be a gradual exercise to ensure that the migration process does not pose any risk of financial information being tampered with or lost.

Deputy Chair, also to be noted the notion that Council's financial system is 100 percent manual is incorrect.

HON. V. PRAKASH.- So by the end of this year, you will have this new system fully in operation?

MS. S. RATAN.- Sir, business license, rates, rental and cashier are already on MYOB but we are still keeping separate excel master sheets. For the procurement process, we are in talks with the Ministry. We were not the only Council facing this problem with the software. With our request to the Ministry, the Ministry is at the moment collectively looking into helping us with the software. The ADB-funded software will take time since it is a long process, the Ministry has assured us that by the end of this year, we should be moving forward to MYOB. So, talks are already on and we are trying that by the end of this year to be in MYOB.

DEPUTY CHAIRPERSON.- Thank you very much.

MR. D. NARAYAN.- Thank you, Mr. Chair. I seek your views, as refreshments and tea are ready. Will your Honourable Members want to have tea or continue?

DEPUTY CHAIRPERSON.- I beg to differ, I think we shall proceed and finish all these.

MR. D. NARAYAN.-Thank you, Deputy Chair.

DEPUTY CHAIRPERSON.- Thank you. Moving further, response to the next question.

Question 5: No supporting documents provided for Capital Grant. What are the conditions of the grant totalling to \$1,304,330 received from the Ministry of Local Government?

Deputy Chair, our response to that particular statement is that our reference with Ministry of Local Government shows that prior to 2014, the Ministry did not prepare a Memorandum of Agreement.

The Memorandum of Agreement between the Municipal Councils and the Ministry of Local Government commenced from 2014 when the Government commenced investing 21 | Verbatim Report – Audit Report on Municipal Councils 2013

Tuesday, 26th March, 2019

heavily in Municipal Councils. Moreover, Deputy Chair, records further show that this was the first Government grant in history to be given to a Municipal Council for the construction of municipal assets in excess of \$1 million.

In addition, Deputy Chair, the grant was for the purpose to support the market and bus stand relocation project. In 2013 acquittals were submitted to the Ministry of Local Government which led to the second batch released in 2014 of \$1.5 million.

DEPUTY CHAIRPERSON.- Thank you, CEO. Honourable Members, any questions? If there is none, can you please proceed further?

MR. D. NARAYAN.- Thank you, Deputy Chair, moving on to **Question 6: Absence** of Contract Agreement. How many tenancy agreements does the Council have?

I think the list of all the tenants have been submitted in the presentation with the amount that they are each tagged with.

HON. V. PRAKASH.- A total of 55, Mr. Deputy Chair.

DEPUTY CHAIRPERSON.- Yes, a total of 55. You may proceed further.

MR. D. NARAYAN.- Deputy Chair, response to **Question 7: Payroll – Does the Council have a payroll software in-house to address this issue?**

The Council has the payroll software in place which processes the pay and reconciles payroll. The Council shifted electronic payroll in 2011 and had a system fully automated in 2014.

Question 8: Anomalies in Procurement of Goods and Services. Can the Committee get an update on the three audit anomalies in the procurement of Goods and Services?

Deputy Chair, referring to Page No. 9, Item No. 25, that the team leader audit was informed that the Council follows the approved manual of accounts. In reference to the tender amount, attention is drawn page 99, Item 6 - Tender Procedure, the first paragraph states that "once it becomes apparent or is determined that the supply of the particular item of stores or services will exceed a certain limit approved by the Council (here we are talking about \$10,000 which is a reasonable amount in the present circumstances), a contract for the year or specific supply should be considered."

Moreover, Deputy Chair, the team leader was informed that this section refers to stores supply meaning regular purchase of materials and services. The Council has been establishing approved limits for general tender.

On the subject of construction works and services, Part 17.3, Page 59 paragraph one allows the Council to decide on the system to procure goods.

It suggests systems that may be suitable, however, leaves it to the Council to decide on the way forward to purchase. In the instance of borehole construction and pump establishment, the Council had carried out the following:

- i) Engagement of Lautoka City Council engineering team to design borehole specification and advise the Council on options available within the Market given that the Council engineering team was the only Council in Fiji having knowledge and experience on such works through relevant upgrade of Churchill Park;
- ii) Justification by the team given to Council on the need to have a borehole system for water supply, the ground base would need 20,000 litres water spray per day via underground sprinkles placed and the water bill would be high which would be borne by the Council;
- iii) Recommendation was made to the Council team that the subject supplier be given the job which included:

Water source determination and bore holed digging - \$9,800.00 VEP Supply of pump and fitting - \$5,200.00 VEP

The subject procurement was based on recommendations and relevant checks in the market noting the limited supply of such a service.

- iv) Moreover, Deputy Chair, the Council for normal supplies always calls for a tender and from 2016, the Ministry of Local Government had instructed that all procurements above \$10,000 to be decided via public tender subject to waiver by Ministry of Local Government and before awarding the relevant procurement, it should be submitted to the Permanent Secretary for concurrence/consent.
 - The guideline for the tender was provided by the Ministry of Local Government and the Ministry only reviews the processes taken to recommend or approve supplier before being awarded.
- v) On the issue of the termination of Solid Waste Management contract, the Council had no option, given that the contractor was unable to provide the subject services and ratepayers were complaining.

Reports were received and the Council decided to terminate the contract and engage a contractor on short term in which public tenders were called.

The termination and engagement decision was taken by the Council at a short spell given that that the product is classified as an essential service.

Deputy Chair, I would further stress that Solid Waste Management is a very challenging area and we cannot live it aside. That service has to be provided because of the challenge the Council was having with this service provider. He was not competent, he was not able, he had a problem with this logistics, manpower and that is why the service was deteriorating day by day. That is why the Council stepped in and took on board another contractor but it was for a

short period of time and then it advertised through the tender process so that we could normalise the engagement of this particular service provider.

DEPUTY CHAIRPERSON.- Thank you very much. Honorable Members, any questions in that regard?

HON. V. PRAKASH.- I think it is proper, those actions are normal. For a service provider, it does not mean that we call for tender and we do not have that service provided for months. A service is provided on a daily basis; that was correct.

DEPUTY CHAIRPERSON.- Thank you very much, Honorable Member. CEO you may proceed further.

MR. D. NARAYAN.- Thank you, Deputy Chair.

Question 10: What is the current valuation of Ratu Cakobau Park after renovations? Are there any plans to upgrade the old Nausori Market and Bus Stand?

Deputy Chair, Manual of Accounts, Page 62, Capital Expenditure definition, paragraph 6 states that:

"Expenses incurred in repairs and renewals merely to restore as asset to its original form should not be classed as capital expenditure."

Ratu Cakobau Park had been condemned by relevant authorities for use in 2007 which resulted in the Council not able to host major tournaments.

Pavillion and ground condition were two key areas of concern. Reason for the poor condition had been Council's inability to inject funds in renovation of the park.

From 2010, Deputy Chair, the Council decided to inject funds into the park and over seven years has invested heavily as follows:

- a) Structural upgrade \$120,000 in 2010;
- b) Pavilion seating and light upgrade \$110,000 in 2011;
- c) Ground upgrade including underground sprinkler set up in 2012 and 2013 \$190,000; and
- d) Public Convenience Upgrade \$50,000 in 2017.

In addition, Deputy Chair, the Council has invested from operating revenue the repairs and maintenance and it has been reflected under operation expenses in line with manual of accounts.

Public Convenience upgrade has been funded by Government. The Ministry of Local Government has further allocated funds to upgrade both pavilions in this year's budget.

Deputy Chair, moving further, the upgrade of the Ratu Cakobau Park has seen an increase in the number of soccer tournaments and rugby games.

Every year, apart form 2013, Council has been hosting a major soccer tournament. The value of the ground certainly has gone up and new value shall be determined during valuation process in 2019. Moreover, Deputy Chair, the valuation that was carried out in 2012 showed that the Ratu Cakobau Park had a value of \$2.3 million.

The Council had rezoned the municipal market site as commercial site and have been able to renew State lease for 99 years from 2016.

Lease remaining prior was 58 years civic lease. The Council is interested to have a Private Public Partnership (PPP) arrangement to develop the site and the Ministry of Local Government has been dispatched with relevant papers last week for a decision to be made on the earlier PPP arrangement agreed.

The Council has been able to acquire a civic lease over the car park area adjacent to the old market site for the remaining 48 years duration for the lease.

The old bus stand site was under a temporary at will basis (reviewed every year) with the Council paying \$24,000 annually to iTLTB from 2000.

The landowners had informed Council that it intended to use the place for other purposes and requested the Council to relocate the old bus stand at the earliest.

Current site of the market and bus stand is on a State land with 99 years lease effective from 2013. Landowners have entered into partnership with a foreign company to develop the old bus stand site.

So, Deputy Chair, at the moment the Geo-tech Studies and other construction base activities are being undertaken at the subject site.

Thank you very much, Deputy Chair. This is all I have to present on behalf of Nausori Town Council to your august body and I comprehend that the explanations and reasoning that has been provided will substantiate the status of Nausori Council and should your Committee have further clarification on any of the issues, my Council will be obliged to provide that information.

DEPUTY CHAIRPERSON..- Thank you very much, Mr Narayan. Are there any questions or comments, Honourable Members.

HON. A.M. RADRODRO.- Deputy Chair, just a question regarding the old Rewa Bridge since it is still within your municipal boundary. Can you update the Committee what sort of plans you have for that particular Rewa Bridge, if you do have any, or have you continued discussions with the relevant authorities regarding the next plan of action?

MR. D. NARAYAN.- Thank you very much, Honourable Member. NTC in 2016 did make one proposal to FRA. As you comprehend that since the coming of FRA into the picture or establishment of FRA, all major roads and bridges have come under the ambit of the FRA. But we had the services of a very skilled Japanese volunteer who had done similar works in other parts of the world. He had submitted a proposal and the Council had forwarded that proposal to FRA to convert the bridge into a Flea Market. The response from FRA was that that particular bridge has been condemned and no further development could be permitted on that particular bridge. It was entirely on FRA on what they are going to do and how they are going to address that bridge. We raised concerns regarding the bridge because it was more or less becoming an eye sore for Nausori. Two bridges are running parallel and intermittently parts are falling onto the ground. So, that is a high risk and you may have seen that FRA has also cordoned off part of Syria Park so that movement of people is restricted under the bridge. The Council did write to FRA seeking their views or actions they were going to take but unfortunately we did not have any conclusive answer to that.

DEPUTY CHAIRPERSON.- Thank you very much.

HON. A.M. RADRODRO.- Deputy Chair, I think this bridge is about going to its eighty-second (82) years now, and whether the municipality and the Ministry of Local Government is taking into consideration the heritage act in terms of maintaining the bridge or whether it can generate revenue for the Council going forward.

MR. D. NARAYAN.- Thank you, Deputy Chair. Honourable Member, we do note that aspect of development and the importance of that Rewa Bridge but the challenge is that it has come to a stage where FRA has classified it as it has come to the end of its serving life. So it cannot be further converted into any activity or any type of development since parts of it are fragmentally falling onto the ground and there is a high risk of people getting injured or at any time the bridge can collapse. That is what they are telling us. So, by keeping it as a heritage asset that is

HON. A.M. RADRODRO.- That is the stand taken by the Ministry of Local Government where it will work with the municipalities regarding the Heritage Act.

MR. D. NARAYAN.-Looking at the gravity of the situation, Deputy Chair, you may have witnessed that FRA has cordoned the bridge from both sides because school students were using that in the afternoons and evenings. Since certain parts of the concrete were falling into the river, looking at the risk and avoiding any challenges arising, the Council did write its concern to FRA indicating the state of the bridge and the challenges that were coming or raised with the Council.

The Council deemed FRA to take action forthwith to avoid any casualties.

DEPUTY CHAIRPERSON.- Thank you very much. Any other comments or questions Honourable Members.

HON. V. PRAKASH.- Through you, Honourable Deputy Chair, I think it is a very important remark that the Acting CEO highlighted. We all know that Syria Park is a public park and quite often used by the citizens of Nausori and in fact Central Division. You will see there are various activities that are also done in this park. Hearing him regarding the condition at which the old Rewa Bridge is in, I think it is important for the Council and the line Ministries to see that. We take heed of the comments made by the first man of the Council, stating that precautionary measures needs to be considered because the public are interacting. By closing the bridge from both ends on the bridge does not mean that those who will be moving around underneath will be protected. It is a timely reminder and I think we should take heed because he has been interacting with them and getting very timely advise as well.

Deputy Chair, hearing the Council and what we have received from the Auditor-General's Report in 2013 and where they have grown up until 2017, it will be very much enlightening for us as PAC members to see your accounts for 2017 and we are very eager. The reason is that you have told us that there are a lot of changes that have taken place, improvements and other things. We would like to commend you for that and at the same time as I have already mentioned, delivery to the ratepayers needs to be improved and we have got certain areas where it needs to be looked after like public parks and other places that are around for people to use for many reasons. Our country has a health problem and we expect these parks that are around the areas to be upgraded so that it is OHS compliant and at the same time used by the public efficiently and effectively. We do have drainage problems which is a major issue. If that can be improved as Nausori is growing. On behalf of the Committee, I would like to see that the ratepayers need much, much better services and that can be improved. Thank you very much.

- MR. D. NARAYAN.- Thank you very much Honourable Members. I would like to assure you that whatever points or concerns that have been raised, my Council will take those on board to rectify those anomalies and moreover we will try to look at the concerns that have been raised. Yes, we are moving forward. We have plans to develop our parks and playgrounds and this is where we will be working with the Ministry of Local Government very closely in terms of relevant findings of the interest of all our ratepayers are equally being catered for in terms of service delivery.
- HON. A.M. RADRODRO.- Deputy Chair, just one last supplementary question. I note that you are presenting as Acting CEO. The substantive CEO has been sent on leave. Can we just get an update on what is the status of this CEO being sent on leave and whether he is still being paid by the Council?
- MR. D. NARAYAN.- Thank you very much, Honourable Member. I comprehend that I am not the right person to comment on that. I will leave it to the representative from the Ministry of Local Government to enlighten you on that.
- HON. A.M. RADRODRO.-That question was directed to the Ministry of Local Government.

DEPUTY CHAIRPERSON.- To the representative from the Ministry, you may respond later to that. So, we will end today's proceedings.

HON. V. PRAKASH.- He is also a team leader for Nakasi, doing a good job. I think he needs to be commended.

DEPUTY CHAIRPERSON.- I would like to thank the Acting CEO and the Nausori Town Council team. Thank you very much for your preparation.

On a light note regarding the phase lift of Ratu Cakobau Park. I was privileged and honoured to have won my first tournament here in 2016 as a coach for Nadi Football. So thank you for upgrading the park. We were able to win the tournament here.

To the team from OAG, thank you very much; officials from the Ministry of Local Government and our Secretariat team, members of the media, members of the public, thank you very much. We can now have tea. After tea we will excuse the members of the Nausori Town Council and other officials then we will continue with our business, thank you so much.

The Committee adjourned at 11.30 a.m.

The Committee resumed at 3.00 p.m.

Submittee: Rakiraki Town Council

In Attendance:

1. Mr. Tulsi Ram - Acting Chief Executive Officer

(CEO – Sigatoka Town Council)

2. Ms. Deepika D. Goundar - Finance Manager

Ministry of Local Government

Mr. Alipate Mataivilia - Senior Accounts Officer

Office of the Auditor- General

Mr. Dineshwar Prasad - Director Audit

DEPUTY CHAIRPERSON.- Good afternoon everyone. Welcome to the Public Accounts Committee hearing on Audit Report on Municipal Councils for 2013, that is, the Rakiraki Town Council. Before we proceed, may I request Honourable Lalabalavu to lead us with a word of prayer.

(Prayer)

(Introduction of Committee Members)

MR. T. RAM.- Thank you Deputy Chairperson and Honourable Members of the Public Accounts Committee.

(Introduction of Rakiraki Town Council officials)

MS. D.D. GOUNDAR.- Honourable Deputy Chair and Honourable Members present here this afternoon. A very warm good afternoon to you all. My name is Deepika Goundar and I am the Finance Manager at Rakiraki Town Council.

DEPUTY CHAIRPERON.- Thank you very much Mr .Ram, you may proceed with your deliberations.

MR. T. RAM.- Thank you, Deputy Chair. I will actually read the questions and what has been written as answers but whatever you need Deepika will explain.

Question 1: Explain why the Council has been issued with a Disclaimer of Opinion?

Our response to that is, Rakiraki Town was proclaimed a town on 1st July, 2010. The Council commenced activities including transfer of assets and book maintenance using cash basis of accounting. Accrual system was introduced from 2013. In 2016, the Council strengthened financial management via appointing a full time accountant and with the support of the Ministry of Local Government, Sigatoka Town Council is confident that the annual

accounts from 2017 will not have any disclaimer of opinion given that we are now following International Financial Reporting Standards as per Small to Medium Enterprises (SMEs).

DEPUTY CHAIRPERSON.- Honourable Members, are there any supplementary questions?

HON. RATU N.T. LALABALAVU.- Yes, Deputy Chair. Thank you for that brief statement CEO, but the crux of the question is why. Why the disclaimer? Can we be guided with some answers for that?

MR. T. RAM.- Yes, Honourable Member, I will ask Deepika to explain.

MS. D.D. GOUNDAR.- Thank you, Deputy Chair. For 2013 accounts, the disclaimer was provided because the errors given were taken by OAG and also I can say that the accounts were not up to-date that year, from 2016 onwards this has improved.

DEPUTY CHAIRPERSON.- Any other supplementary questions, Honourable Members?

HON. V. PRAKASH.- Deputy Chair, from 2014 when the assets and other things were transferred to the right area which took about, I think up to 2015 or 2016. You are now suggesting that you are now following with the new system of accounting which is followed by all the municipalities, is it true?

MS. D.D. GOUNDAR.- Yes.

HON. V. PRAKASH.- Now you are in par with other municipalities, similar accounting system that other municipalities are following?

MR. T. RAM.- That is right.

HON. V. PRAKASH.- ...(Inaudible) Your accounts from 2014 until 2019 is under a new system and that is how you have placed your account?

MS. D.D. GOUNDAR.- This is probably from 2015 because in 2014 I think there was also some errors provided. So, I can only confirm from 2015.

HON. V. PRAKASH.- Deputy Chair, which means that from 2015, all your accounting systems are according to the other municipal councils which is a new accounting system, I believe, that the other councils are following.

MS. D.D. GOUNDAR.- Yes.

HON. V. PRAKASH.- Thank you.

DEPUTY CHAIRPERSON.- So, that means all the municipalities now would be on the same platform.

MR. T. RAM.- That is right.

DEPUTY CHAIRPERSON.- Thank you, you may proceed further.

MR. T. RAM.- Question 2: Please explain the significant increase in miscellaneous expense and non-receipt of Government grant in 2013.

Increase in miscellaneous accounts expense in 2013 has been due to limited chart of accounts expenditure used during the year. This has been upgraded in year 2016 and expenses account defined and classified. Government grant was not receipted as it was a Government grant directly deposited in a special grant account. The grant is not a recurrent revenue (refer Page 29 of Manual of Accounts on Government Grant). The fund was released for market construction and acknowledgement including timely acquittals has been furnished to the Ministry of Local Government.

As we have said, in 2017 the accounts were not properly done and in 2012 we had some grant given to us which was spent in 2013. So that is where there was an increase in expense compared to income.

DEPUTY CHAIRPERSON.- Any questions, Honourable Members?

HON. V. PRAKASH.- Deputy Chair, through you, the grant which was about \$26,422. The grant that you received was \$225,422 as per the auditor's report.

MR. T. RAM.- That is right.

HON. V. PRAKASH.- The OAG further goes on to say "...in addition we were unable to obtain sufficient and appropriate audit evidence concerning the income of \$332,020 reflected in the financial statement." Now as according to you, you are suggesting that this was used for the capital development of the new market project, but the OAG has said, "... we are unable to perform necessary audit procedures and substantiate the accuracy of the balances." This is as per OAG's finding. Now according to you, you said that this money was used for capital development which was the new market.

MR. T. RAM.- Honourable Member, what I am saying is the question raised is, please explain the significant increase in the expense in 2013 compared to the income. So, what I am saying is that in 2012 we had some grant by the Government which was spent in 2013. So, when you see the expenses in 2013, income was more in 2013. That is the reason we had more expenses compared to the income in 2013.

HON. V. PRAKASH.- I agree but this amount was used for capital development.

MR. T. RAM.- That is right.

HON. V. PRAKASH.- That is what we want to know.

MR. T. RAM.- Yes.

HON. V. PRAKASH.- And the capital development was the building of a new market.

MR. T. RAM.- That time it was for the maintenance of the market.

HON. V. PRAKASH.- Maintenance.

MR. T. RAM.- Yes, Sir.

DEPUTY CHAIRPERSON.- Thank you very much. Before we proceed further, I would like to welcome Mr. Dineshwar Prasad, Director Audit and Mr. Alipate Mataivilia, the Senior Accounts Officer of Ministry of Local Government.

MR. T. RAM.- Question 3: How does the Council fund its operations when the expenditure exceeds its revenue by \$213,464?

The deficit shown during 2013 was due to a market project in progress factored under expenditure with funds received in 2012. The treatment of capital grant as receivable in year 2012 and treatment of expenses over two years has created a deficit in 2013. The Council has been financially progressing well and with the completion of the market complex, the Council shall be having a good financial income base. The Council's major expense has been the cleaning of town centres after floods with 12 floods recorded last year. Worst financial for the Council was 2016 after *TC Winston* and through the Ministry of Local Government's support we were able to sustain loss.

DEPUTY CHAIRPERSON.- Thank you very much Honourable Members, any questions? If there is one, you may proceed further.

MR. T. RAM.- Question 4: Is there any periodic notification made to ratepayers regarding their outstanding rates? (Is it done monthly, quarterly or yearly?) Please explain.

Yes, notifications are made by phone calls, distribution of notices to ratepayers, house to house visit by Rates Ranger/Rates Officer and we also have quarterly ratepayers meeting.

During the meeting, ratepayers usually gives their views on the services which the Council is providing and the reason for them not paying their rates frequently. The service which they want includes street lights, proper drainage facility, tarsealed roads and river dredging whereby in 2013, the Council did not had enough funds to provide proper services to ratepayers but this is improving from 2017 and onwards as the Council is recovering and also Ministry is assisting us with grants for proper drainage and other capital projects.

DEPUTY CHAIRPERSON.- Thank you Honourable Members, any questions in that regard?

HON. V. PRAKASH.- Deputy Chair, thank you very much. That is a good reminder that you have given about the Council which has been affected by floods, 12 times in the period

that you have mentioned. What is the percentage of rates that you have collected so far from the total rates due to the Council or any figures?

MS. D.D. GOUNDAR.- Thank you, Sir, for your q1uestion. I can reflect on 2018 revenue town rates. We have collected \$90,278.41. This is inclusive of arrears and current. We were performing from 2016 and 2017 after recovering from *TC Winston*. So, for 2018 our revenue collection for town rates has gone up and it is following month by month.

HON. V. PRAKASH.- And what is the balance?

MS. D.D. GOUNDAR.- The current balance is \$32,278 for arrears and current.

HON. V. PRAKASH.- ... have collected over \$70,000?

MS. D.D. GOUNDAR.- Yes, Sir.

HON. V. PRAKASH.- That is a good start, I think you are doing well. Another supplementary question, Deputy Chair, how is your cooperation with the business companies? They were also badly affected, I think? What is their contribution of rates, are they up to-date or some are still owing?

MS. D.D. GOUNDAR.- For business houses?

HON. V. PRAKASH.- Yes, business houses.

MS. D.D. GOUNDAR.- Business houses actually we give them time to pay, three months from January to March. So, when they are not paying, we give notices. So during the flood season they are given some time, like six months. They are given time to pay.

HON. V. PRAKASH.- We are proud that at least you are collecting over 70 percent, this is a good sign.

DEPUTY CHAIRPERSON.- Thank you Honourable Members, any other supplementary questions?

- HON. RATU N.T. LALABALAVU.- CEO and Madam, thank you for the explanations. You have given two regarding some of the reasons for the outstanding rates and the reflection of the high expenses because of the lateness of the grant coming in 2012 and it came in to 2013. Now, when the services are not being provided, it affects rates collection. I would like to direct this question to the OAG and the Ministry of Local Government as well. The flooding here is something that is beyond belief. I mean the town went under water twice in a short period of time; flash floods. I do not know how that is going to affect them in the long run. Will business still want to maintain their business here? I am just kind of raising those questions because this is something, it is an act of God and it is beyond us.
- MR. T. RAM.- Honourable Member, if I can answer that question. In recent years the Government has given grants to all the Councils and in the case of Rakiraki, we have been receiving grants to upgrade all our drains outside town boundary. For the main creek going in between the town and around that town, that was dredged last year. Work is ongoing now and

from records I have received, and feedback from the business houses, we do not get flooding like they used to get before. If there is a sudden rain, the town would be flooded but now they hardly see flood. So, it is a good thing that dredging has been done after many, many years and if this continues, then we will not see many floods. So, that is the good sign for the business houses and ratepayers.

HON. V. PRAKASH.- Deputy Chair, we are very proud to hear that you have tackled those issues and now as you have said that rain still comes but there is hardly flood. You said that it is still continuing; the dredging progress is ongoing through the Ministry of Waterways?

MR. T. RAM.- Yes, Sir.

HON. V. PRAKASH.- It is a very good achievement and I think the level of water that rises during flooding would be an indicator to you as to how far you have improved.

MR. T. RAM.- Yes, Sir.

HON. V. PRAKASH.- Business people in town will now know that those problems that were happening has been reduced, though we cannot control nature. There is a vast improvement to our drainage system both in the town as well as the creek. You are assuring us now that there will be lesser floods.

MR. T. RAM.- Lesser floods, Sir

HON. V. PRAKASH.- That is a good sign, thank you.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. Just to add on to what Honourable Lalabalavu's stated regarding the flooding, is there any other plan or programme the Council is geared up for mitigation or resilience towards floods?

MR. T. RAM.- As far as the Council is concerned, the Ministry of Waterways is giving funds every year and we are on the third stage to have all the facilities applied. As this is on an annual basis, funding is available as long as the Council gives its submission. We are looking at upgrading all the drains in the residential areas and at the same time, the Ministry of Waterways is separately doing its work. They have full time operators in town and recently we had a meeting with all the ratepayers and business houses and they were assured by the Honourable Minister that this work will continue and go further uphill so that any future flooding is avoided.

DEPUTY CHAIRPERSON.- Thank you very much. It is very encouraging to note that the town is building resilience towards tackling the flooding issue.

HON. RATU N.T. LALABALAVU.- Just in addition to that, Deputy Chair. I served here for a number of years in the 70s and that is when we started the development in town. It never used to happen, flooding like you have experienced lately.

MR. T. RAM.- That is right.

HON. RATU N.T. LALABALAVU.- That was CSR was there. But I am happy to hear CEO mentioning that your liaison with the Ministry of Waterways is good and you are getting grants from there. So, that should help alleviate, it will not take away the problem. This should help when you clear the drainage especially for the main creek.

MR. T. RAM.-Yes.

HON. RATU N.T. LALABALAVU.- I commend you for that.

MR. T. RAM.- Thank you, Sir.

HON. RATU N.T. LALABALAVU.- Thank you.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. Mr. Ram you may proceed further.

MR. T. RAM.- Thank you Members and let me continue.

Other significant matters

Question 5: Proper Accounting System not Employed. What is the current update on the appropriations of general ledger system?

Maintaining of the vital accounting records are being stored properly with major improvements from 2016. The accounting system such as cash receipts and cash payment journals are being followed accurately, and timely basis as detailed General Ledger, General Journal and Trial Balances are being prepared. The CEO checks and verifies the monthly report and reconciliations which are performed by the Council. The Council is working closely with the Ministry of Local Government in getting staff of the Council enrolled in short term financial courses relevant to International Financial Reporting Standards (IFRS) of Small to Medium Enterprises (SMEs).

DEPUTY CHAIRPERSON.- Thank you Honourable Members. Any questions in that regard? If there is none, you may proceed further.

MR. T. RAM.- Question 6: What is the latest bank reconciliation conducted? How timely has the bank reconciliation been prepared by the Council?

This is being practiced and from 2016 monthly as total receipts and payments as per cash receipts and payment journal is reconciled to the deposits and payments made as per cash book reconciliation.

Preparation of daily banking summary is carried out and it is properly checked and signed by the CEO. The monthly bank reconciliation is also prepared, verified and signed by the CEO. The latest bank reconciliation conducted was for the month of February 2019.

DEPUTY CHAIRPERSON.- Thank you, Honourable Members. Any questions or comments? If there is none, you may proceed further.

MR. T. RAM.- Thank you. Question 7: Interest not charged on outstanding rates. What processes are in place before instituting interest rates charged on overdue rates?

This is now being followed and closely monitored by the management as well as Ministry of Local Government.

The interest is charged on outstanding rates by 11 percent. In regards to the outstanding rates, the Rates Officer calls the ratepayers and reminds them for the instalment payments. The reminder is given every fortnight but if they do not turn up then she issues them with demand notices for outstanding rates for them to come to the office and make some arrangements to do the payments. This was done on 18/2/19. After that, a 100 percent waiver of interest on outstanding rates have been introduced by the Ministry of Local Government. The notices are issued to all defaulters in regards to the waiver of interest once they fully clear their outstanding balances before 31st August, 2019. So, far three of them have cleared their arrears, others are still followed by the Rates Officer.

DEPUTY CHAIRPERSON.- Thank you Honourable Members, any questions?

HON. V. PRAKASH.- Deputy Chair, through you, collection of rate is from the ratepayers to the office or it is also collected outside the office?

MS. D.D. GOUNDAR.- Thank you, Sir. The customers come and pay their rates here in the office. The rates officer gives us the breakdown then we do the receipting.

HON. V. PRAKASH.- Manual receipting or it is computerized?

MS. D.D. GOUNDAR.- No, it is manual.

HON. V. PRAKASH.- You have not gone into the computerized one.

MS. D.D. GOUNDAR.- No, Sir.

HON. V. PRAKASH.- What is the reason for that?

MS. D.D. GOUNDAR.- Actually, we get quotes from three companies for MYOB, management has approved, they might come in next week to install.

HON. V. PRAKASH.- Alright, you are progressing, you know the disadvantage of issuing manual receipts?

MS. D.D. GOUNDER.- Yes, Sir.

HON. V. PRAKASH.- There can be problems at a later stage compared to when you are receiving that in your new computerized system which has a sequence of recording that can checked by many people; manual you just have the receipt books. Once you lose it, you lose everything. By when you will be able to have those?

MS. D.D. GOUNDAR.- By next week they might install and we can carry on with the computerized one.

DEPUTY CHAIRPERSON.- Thank you Honourable Members, any other supplementary questions?

HON. RATU N.T. LALABALAVU.- Yes, supplementary question, Deputy Chair. The question I would like to raise goes to the Ministry for the waiving of a 100 percent interest on outstanding arrears or rates and that goes to the CEO as well. The timing of this amnesty, if you want to call it "amnesty", no to allow, this is an excuse to the ratepayers for them no to be paying their rates. What sort of timing do you think that is most effective? Is it immediately after the flood and what sort of quantum are we going to be providing the amnesty on? Is it outstanding arrears from 2/11 to 2/12 or is it the year that the flood happened or the month that the flood happened?

DEPUTY CHAIRPERSON.- Thank you, Alipate you may response to that.

MR. A. MATAIVILIA.- Thank you, Honourable Member. Through you Deputy Chair, just to elaborate more on the amnesty period. From the beginning of this year we have done a consolidated effort in trying to get how much arrears from all the Councils and we found out that most of the arrears were from residential ratepayers. So, from that effect as I have already explained, we have come up with a Cabinet Paper through our Honourable Minister if we can allow that amnesty period again from February to 31st August. It is not that a flood or natural disaster has not happened from last year, we are just trying to apply this in trying to eliminate the amount of arrears. It is around \$30 million-plus for all the Councils in Fiji. So, that is why we are targeting. When we broke it down into, like the section of the ratepayers, we saw that residential ratepayers have a lot of arrears. So, specifically this amnesty period is for the residential ratepayers only. We are giving them this period for them to come ahead and pay their rates where we will waived the interest that has been incurred from the past years. If they come to pay the principal within the next seven months, we will waive the interest, that is, the 11 percent charged every year. So, that is why this amnesty period has come into the picture, Sir.

DEPUTY CHAIRPERSON.- So, that means it is not subject to a result of any disaster of that kind?

MR. A. MATAIVILIA.- Yes, Sir.

DEPUTY CHAIRPERSON.- You have your own way of

MR. A. MATAIVILIA.- Because we had given some amnesty period in 2013, 2014 and 2015. After *TC Winston*, I think, there was an amnesty period given for three months only but this is the first amnesty period given where it is quite long, from three months to seven months just just to allow the ratepayers to come forward and pay their arrears to the Council.

DEPUTY CHAIRPERSON.- Thank you, any more supplementary questions?

HON. RATU N.T. LALABALAVU.- A supplementary question, Deputy Chairperson. Further to the explanation given by the Ministry of Local Government, I am now confused because a 100 percent waiver is given and the flood prone area is the commercial people down here not the residentials up at the top here. *TC Winston*, yes that is a good excuse as it affected everyone. But the constant flooding is mostly on the commercial lots down in town. So, by giving 100 percent waiver, are we really addressing the problem here?

MR. T. RAM.- Deputy Chair, most of these people doing business are staying in the residential areas.

HON. RATU N.T. LALABALAVU.- Yes.

- MR. T. RAM.- So, we are trying to help them by giving them discount while they are also doing business in town. So, we are targeting our residential customers at the moment. Most of them doing business are staying in the residential areas. So, they have problems of paying town rates as well as doing their business especially in the flooding areas in Rakiraki as we have mentioned.
- HON. RATU N.T. LALABALAVU.- 100 percent rates covers both; the commercial rates and the residential?
- MR. T. RAM.- No, just the residential areas but 100 percent waiver once they clear all the outstanding rates. Only the outstanding not the present one.
- HON. V. PRAKASH.- Deputy Chair, I think it is 100 percent waiver on the interest not the rates. The rates remain rates, waiver on the interest which is the incentive to get the dollar back into the Council even during extreme times because during extreme times, the Council have more work to do that those time when there is no disaster.

MR. T. RAM.- That is right.

HON. V. PRAKASH.- So you have to have a question which has to balance and that is the incentive that is given. The law says that we cannot give it to one Council. If there is a waiver it has to be waiver for all the Councils, rate is never waived, only the interest incurred on rates. Most of the businesses who operate in business centers, they are also residents nearby. Honourable Lalabalavu's question was quite right as he said if the town is affected, why we could not do. Normally business waiver is not given because business waiver depends on many factors and some business people are very successful whilst some struggle. Here the residential people are targeted to get the money that is needed during the when we have to carry out the work when people will just stop paying the rates. I believe that is the direction that the Ministry of Local Government is going to do while assessing the waiver of rates.

My other supplementary question is, Council and the ratepayers have a relationship and this relationship is the pride that any municipality has throughout the world. You must have got officers who are rate collectors or those who interact with the people. You said that you have only got three so far, but still we have got how many months left; about five months left. The success of your motivation would be measured when the time expires. So, the crux of the matter is this waiver for six months. I think it has come after many, many years; long years. What is the intention of this waiver? It is to collect as much arrears as possible. And that is

not only a reflection on the ratepayers. I believe there is a relationship between the Council and the ratepayers on how much awareness you do. That will be one of the success areas that will be measured by the OAG. I hope that, that is done. What are some of the incentives planned within this five-month period? You might say that you will reach 100 percent target or 90 percent target but have you got anything like that? Will you like to highlight that to our Committee because the Council does not operate one way? It is a relationship between the ratepayers and the Council to reflect their pride of that area. Thank you, Deputy Chairperson.

DEPUTY CHAIRPERSON.- Thank you.

MR. T. RAM.- Yes, Honourable Member. Initially what we have started doing is we have sent out notices to all these people. We have got a list of all those who are in arrears. We started with the list, we have put up banners in town and we have weekly meetings amongst our staff who are engaging in collecting rates. We have decided that from next month we will be going house to house talking to each one of them. You have rightly said that this will not come again and they have to take advantage of it. So, this is going to happen from next month on a daily basis. One of our staff will go out with the rates officer and talk to each one of them. So, that is what we have decided and hopefully we can collect, like you have said, more than 90 percent of the arrears.

DEPUTY CHAIRPERSON.- Thank you very much.

HON. RATU T. NAVURELEVU- Supplementary question, I believe the 100 percent waiver introduced by the Ministry of Local Government and the Council is just to speed the recovery of outstanding rates. When these measures fail, is there any other measures being thought of by the Council?

MR. T. RAM.- Yes, Honourable Member, when this fails legal action will be taken.

HON. RATU T. NAVURELEVU.- Is there any time limit?

MR. T. RAM.- We will go after 31st August and then after that we will make a list and these people will be taken to Small Claims.

DEPUTY CHAIRPERSON.-Any other supplementary questions?

HON. RATU N.T. LALABALAVU.-Yes, Deputy Chair, I asked why still on the 100 percent. I am kind of taken on a ride by this 100 percent waiver on interest. You have the best was forward in addressing these arrears, the 100 percent waiver, because as mentioned by Honourable Prakash for the commercial ones they have other factors like insurance and all that. They can reclaim their losses. But going flat out and issuing the 100 percent waiver on interest is that the best way forward or just a band-aid solution for this?

MR. A. MATAIVILIA.- Thank you, Honourable Member, through you Deputy Chair, just to respond to that question. I think we have thought about this 100 percent waiver. We have given the Council enough time to collect these arrears. I think if you go around the Councils and ask about the challenges that they are facing from the collection of rates, there are some factors that they are faced with. That is why the Ministry of Local Government has

to step in and give this opportunity and we have stressed to them this is may be the last opportunity and we are giving it for a long period of time for them to recover these rates. That is why the CEO has elaborated that we will take legal action if they fail to pay their arrears.

DEPUTY CHAIRPERSON.- Thank you. We will not deliberate further on this. I request you to please proceed further.

MR. T. RAM.- Question 8: Proper records not maintained for business licenses. Does the Council conduct reconciliation for business license issued against those that are operating in the town area?

This practice has improved and from 2016 a list of all businesses are maintained perfectly as all business houses have their own folders where all documents are manually kept and the listings are also updated in the system to avoid risk on the payments made by the customers.

As the business license invoice is issued, the business houses are given three months to clear their licenses, that is from January to March. The ones not paid before March are taken as debtors then our Enforcements/Business License Officer goes out, like house to house, business to business for follow ups and at the same time they conduct reconciliations. Our Business License Officer together with Enforcement Officers keep track of business houses daily.

DEPUTY CHAIRPERSON.- Thank you, any questions in that regard, Honourable Members?

- HON. V. PRAKASH.- CEO, what is your success rate after you have implemented those initiatives?
- MR. T. RAM.- Honourable Member, thank you very much for that question. Like the difference is very clear. Before when we did not have these business license records properly done, our officers were not aware which business was paying and which one was not up to date. But since we have the record of all businesses operating, like for 2018, so when we give the notices this year for payment of business licenses, we have a track record on all those who have paid and those who have not paid. So, now that we have given them three months to pay on completion of March, that is this week, from next week Monday our officer will be making a separate list of businesses who have not paid and going out to the towns and checking on them and if they are not operating for any reason, we will update our records and at the same time we will give them notice to pay immediately or within seven days or whichever is appropriate at that moment. But to answer your question, keeping of records properly helps a lot.
- HON. V. PRAKASH.- We know of some municipalities that do not issue business licenses if the rates are not cleared. Every year there is a business licence provided to the business owners. Do you have practices like that where if I have not cleared my dues, the license will not be renewed?

MR. T. RAM.- I am sorry Honourable Member, in our cases we do not do that. We want to receive as much money as possible. We have rates officers doing their job and business license officers doing their job as well. So, within a certain period of time, we need these officers to act and once that expires, we will take legal action.

HON. V. PRAKASH.- I would like to remind, Deputy Chair, that the Council on an annual basis, they renew the licenses of business people. License is never renewed for many years. It is on an annual basis. There should be a relationship that they should be told beforehand that next year's license will not be renewed if all the dues are not cleared. If that part is done, say six months before, normally business licenses are renewed in January to March and you do that awareness and I think you do have the right because you have given them ample time to try and clear. If a business license is issued and still the businessman is unable to pay arrears, a time will come that they will face difficulties because business license is something that people would like to have to increase their business and towns should also enjoy to have revenue collected to give the service. I know few municipalities that do not issue because they have done the awareness few months before. They have told the business people, because of the constraints, because of what we want to do for next year, because of the service that we would like to bring to the people, we are very strict with the renewal of business licenses, please be prepared, clear your dues and license will be issued. That was a suggestion I am trying to say because I know. In business you can do lot of things but issuing a license to a person who is not able to clear his dues is something that should be taken into consideration, Deputy Chair.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member, you may respond to that.

MR. T. RAM.- Thank you, Honourable Member. We will take that into serious consideration this year.

DEPUTY CHAIRPERSON.- Thank you so much. Any other supplementary question, Honourable Members? If none then you may proceed further.

MR. T. RAM.- Question 9: Accrual Accounting System not practiced. What is the update on the Accrual Accounting System and what system is the Council using?

This practice has been corrected from 2015. The financial reporting system has improved and the accounts are prepared in a full accounting systems.

DEPUTY CHAIRPERSON.- Honourable Members any comments or questions in that regards?

HON. V. PRAKASH.- Deputy Chair, I have one supplementary question.

DEPUTY CHAIRPERSON.- Yes, you may proceed.

HON. V. PRAKASH.- Deputy Chair, through you I would like to know the improvement of your Council's delivery to ratepayers. There are ratepayers who really look forward to the Council's assistance. We are very proud that you have shared to us about the

flooding problem. You now have got a good drainage system. What other services do you provide to keep your ratepayers at par and they are happy with the Council's activities that you have planned for the year?

- MR. T. RAM.- Thank you, Deputy Chair and Honourable Member. As far as Rakiraki Town Council is concerned, there is a big market complex being constructed in Rakiraki and that is a long overdue market for the old district of Rakiraki and our ratepayers and within a couple of months that will be completed. The Council has also taken lease of the FSC grounds, that is about seven acres of land and we are going to develop that. We are talking to the Ministry of Economy to finance that project. We want to have a multi-purpose court there and sports facilities for all the people of Rakiraki. Besides that, there are a lot of people who are almost not doing any business or anything but they are in the town area and they have difficulties in paying town rates. So, we are planning to talk to them and try to help them on how they can come up and clear their town rates. Our town is a very young town and we are still meeting people and a lot of people do not know what comes after they become a ratepayer. Most of them only think that coming to the town area is only that, but the benefit to them, they are not aware so we are intending to have regular meetings with them. Also part of our service to the people is serving carnivals, we have been doing that and getting people together. Those are the things we intend to do and continue.
- HON. V. PRAKASH.- Deputy Chair, how is the pride of keeping Rakiraki Town the cleanest in the South Pacific?
- MR. T. RAM.- Honourable Member, when Rakiraki Town started, the motto was to have this as model town of the Pacific and I think that is still there with the ratepayers and our staff. We are looking forward to do that. There is an improvement in town but as soon as you go to town, you see that the town looks dirty because we have rain and dust almost every day. We are trying to get our town clean; there is going to be a new bus stand for Rakiraki. Once these improvements are done, we hope to see that Rakiraki is the model town of the Pacific.
- HON. V. PRAKASH.- Deputy Chair, I am very proud to see that they have acquired a piece of asset, seven acres for Rakiraki is a very big thing. This office, Deputy Chair, are they renting or you own this?
- MR. T. RAM.- This office, we are renting now and we want to move to the new market building. We have a proposed office place there.
- HON. V. PRAKASH.- When you will be moving into the new building, will you still be on the ground level or on a upper level?
 - MR. T. RAM.- On the first floor.
- HON. V. PRAKASH.- Thank you. I was worried, Deputy Chair, because flooding normally happens and if you choose ground level. I am happy that you are planning to have your office on a high level.

My last question, Deputy Chair, young town with veteran, Acting Chief Executive Officer and the distance is a cross like this. Rakiraki is here and Sigatoka is there. How are you able to manage because the distance, if it is near is good, but it is quite a distance.

MR. T. RAM.- Yes, Deputy Chair and Honourable Members. It seems a long distance but at the moment my family resides in Ba. I am happy that I have been asked to look after Rakiraki because I can travel from home (Ba) and come to Rakiraki and this is my hometown and I am also helping Sigatoka. We are looking forward to have all the CEOs and SAs, I am going to mention the CEOs only because I have also applied for CEO, Rakiraki. Hopefully within two months, all these positions should be filled and someone will be CEO Sigatoka and I can come to Rakiraki, if it happens that way.

HON. V. PRAKASH.- Deputy Chair, I would like to acknowledge my appreciation to this young town. We have seen, we have heard and I would like to also thank the Ministry of Local Government for the initiative that they have got to assist this town. As Honourable Lalabalavu suggested, flooding here was not a worry for only the Rakiraki people but any for any good citizen of this country, we all would have been worried; 12 floodings in a year, and yet you see that after two weeks, business is again up and running. It was a bit hard for the people of Rakiraki to try and rebuild from where they were. With the initiative from the Ministry and other actions that the Council is taking, I think there will be a long way for you to try and take this Council to a new status. Madam, Finance Manager there is a challenge in rates collection throughout the world, but someone should be able to set up a system where people just come and pay rates, We hope that, that is going to happen. We are very proud to see a young Council with an experienced CEO as I have said, he is well-known in the municipal council. So far, so good and we hope when you move to the next building, we might come again next year and see you there. Thank you very much the Ministry of Local Government officials and staff of the Council.

DEPUTY CHAIRPERSON.- Thank you Honourable Member, any other comments and questions?

HON. RATU N.T. LALABALAVU.- Through you Deputy Chair. CEO, we fully understand your position especially when it is to do with a very young township but again basics are basics; you get Government grant, you are entrusted with the collection of rates, so the books needs to be in order. That is why we are here because we follow the money. We also understand that you do not want to kill the goose that lays the golden egg with your present business community here. It is hard to get them here, they are here, but again rules are rules. So, when do you think would you be able to move forward to looking at other avenues of collection or follow up of collection, legal avenues that are available to you because on the other hand, once you maintain the books, Government will surely never stop looking at all your needs for grants and all that. But it is only when it comes to maintenance of your books, CEO that has made us to come here and question you. So, you as a CEO, when do you think you would be able to take that hard line. Thank you.

MR. T. RAM.- Deputy Chair and Honourable Member, I am glad that you have mentioned the job of the OAG. We are happy that the OAG is checking our books and keeping us in line. We are also happy to meet with you and I have been meeting the PAC for some years now. Once we finish meeting with you, Honourable Members, there are always plenty things to learn. Like today, we have noted some important things to improve in our own running

of the Council. Like you have said, I just want to let you know, maybe you are not aware that since I have been in Sigatoka for the last three years, we have our accounts unqualified under my leadership and that has happened. This is the only Council in Fiji which has unqualified accounts. And since I am with the Rakiraki Town Council, we are trying to improve every way of running our Council the accounts and hopefully we will follow Sigatoka, maybe not this year, but next year and once all our books are up-to-date, we will see other sources of revenue and how we can get more revenue to run the Council and improve the standard of living. Thank you.

DEPUTY CHAIRPERSON.- Thank you. Any other supplementary question? Honourable Ratu Tevita?

HON RATU T. NAVURELEVU.- Thank you, Deputy Chair, last general question. I believe all roads in the municipalities had been transferred to FRA. If there is a case in Rakiraki, can you just inform the Committee how well the FRA is maintaining the roads in your municipality?

MR. T. RAM.- Deputy Chair and Honourable Member, we have lot of difficulties in case of Rakiraki. Most of the town areas are flood prone and we now have a lot of potholes. We have regular meetings with FRA and they have their own plans done and they are doing it according to their plans. But hopefully we will see that all the roads within the town are upgraded and they are working according to their plans and we are working with them.

DEPUTY CHAIRPERSON.- Thank you, CEO, any other supplementary question?

If there is none then we would like to thank the CEO and Manager Finance for availing yourselves to be present today. Thank you very much to the representatives from OAG, Ministry of Local Government, Unaisi of Hansard and our Secretariat team. Honourable Members thank you very much, the Committee will now deliberate further on its business for tomorrow.

MR. T. RAM.- Thank you, Deputy Chair and Honourable Members.

The Committee adjourned at 4.30 p.m.

STANDING COMMITTEE ON PUBLIC ACCOUNTS

[Verbatim Report of Meeting]

HELD IN THE

NADI TOWN COUNCIL CHAMBERS

ON

WEDNESDAY, 27TH MARCH, 2019

VERBATIM NOTES OF THE MEETING OF THE STANDING COMMITTEE ON PUBLIC ACCOUNTS HELD AT THE NADI TOWN COUNCIL CHAMBERS, NADI, ON WEDNESDAY, 27TH MARCH, 2019 AT 2.00 P.M.

Submittee: Nadi Town Council

In Attendance:

Mr. Robin. K. Ali
 Special Administrator
 Mr. Avneet Narayan
 Acting Manager Finance
 Ms. Mere Vatucava
 Acting Manager Finance

Ministry of Local Government

Mr. Alipate Mataivilia - Senior Accounts Officer
 Mr. Azam Khan - Director Local Government

Office of the Attorney General

1. Mr. Seremaia Delana - Audit Manager

.....

DEPUTY CHAIRPERSON.- Ladies and gentlemen, good afternoon. Welcome to the Public Accounts Committee (PAC) Hearing on the Report of the Auditor-General on the Audit Report of Municipal Councils for 2013, Parliamentary No.135 of 2018.

Today, we are hosted by Nadi Town Council and before we move further may, I request the Honourable Prakash to say a word of prayer before we move on with today's proceedings.

(Prayer - Honourable V. Prakash)

May I introduce the Honourable Members of the Select Committee on Public Accounts.

(Introduction of Committee Members by Deputy Chairperson)

We now give you the floor to briefly introduce your team and then we shall proceed further.

MR. R.K. ALI.- Thank you, Deputy Chairperson.

First and foremost welcome to Nadi, the city in the making. I hope you will enjoy Nadi and we will have a good time and a good discussion on all the very important issues.

(Introduction of Nadi Town Council Team by the Special Administrator)

DEPUTY CHAIRPERSON.- Thank you very much.

Before we move further, should any given time you think that any response you make or any response to the Honourable Members' questions you want to respond to it at a later stage in the form of written communication, you may do so. So, now may I request you to continue with your deliberation, thank you.

MR. R.K. ALI.-

Question No. 1: Has Nadi Town been declared as a city?

I will say, not yet, but the Council is working towards declaring Nadi the third city of Fiji. A Committee has been formed which comprises of some citizens of Nadi and the staff of Nadi Town Council. We are preparing the town to be declared as a city. We have set up datelines. We want to complete our preparation work by early August.

DEPUTY CHAIRPERSON.- Thank you very much. Honourable Members, any supplementary questions in this regard?

Since there is none, you may proceed further.

MR. R.K. ALI.-

Question No. 2: Explain why the Council has been issued with a modified audit opinion?

The modified audit opinion has been due to the previous balances and reconciliation mainly in accounts receivable and payable. The Council will be discussing this area with the Office of the Auditor General (OAG) during the next audit exercise.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any supplementary questions?

Yes, Honourable Prakash, you may proceed.

HON. V. PRAKASH.- Through you, Deputy Chairperson, have you rectified the concern raised by the OAG as far as balances and reconciliation is concerned for the year 2013?

MR. R.K. ALI.- Yes, Sir.

HON. V. PRAKASH.- You would like to discuss it further?

MR. R.K. ALI.- Yes, Sir.

HON, V. PRAKASH.- When the OAG will come and do the other audit.

MR. R.K. ALI.- Yes, exactly.

HON. V. PRAKASH.- Mr. Robin, thank you.

DEPUTY CHAIRPERSON.- Any more supplementary questions? It seems to be none you may proceed further.

MR. R.K. ALI.- Emphasis of Matter.

Question No. 3: Why was the value of parking meters not been incorporated in the Statement of Financial position as at 31st December, 2013?

Sir, the value of parking meters is included in the Statement of Financial Position reflected in PPE. The parking meters was first installed in 1987 and has fully depreciated. The book value reflects zero dollars and during the year (2019), we shall carry out revaluation and upgrade reports.

DEPUTY CHAIRPERSON.- Honourable Members, any more supplementary questions?

Since there is none, you may proceed further.

MR. R.K. ALL-

Question No. 4: Why is the Council not maintaining a cash book to record all receipts and disbursements in relation to parking meter operations? Has this issue been resolved?

The Council is now maintaining a separate cash book with a separate bank account to record all parking meter receipts and disbursement, and also performs monthly bank reconciliations for the parking meter account.

DEPUTY CHAIRPERSON.- Honourable Members, any more supplementary questions?

There is none so you may proceed further.

MR. R.K. ALI.- Other Significant Matters.

Question No. 5: Absence of segregation of duties in the Finance Section.

Who is now tasked to undertake the receipting and accounting task for the Council? Provide Job Description of each position and what is the organisational structure of the Council?

Sir, the Council has rectified this issue and has identified a cashier with also a relieving cashier who are only tasked to do receipting. The Accounting tasks are being handled by the Accountant. The Job Descriptions are attached with the papers, together with the structure of the Finance Department.

DEPUTY CHAIRPERSON.- Honourable Members, any more supplementary questions in this regard?

HON. V. PRAKASH.- I am glad to see that you have got your modified accounting system where receipting is done by the cashier. There is no manual receipting, I believe?

MR. R.K. ALI.- Yes.

HON. V. PRAKASH.- It is all the new system that has been introduced by Ministry of Local Government for the Councils, you are following all that?

MR. R.K. ALI.- Yes, Sir.

HON. V. PRAKASH.- It is all computerised?

MR. R.K. ALI.- Yes, computerised and we are working under the guidance of the Ministry of Local Government.

HON. V. PRAKASH.-And also controlled now.

MR. R.K. ALI.- Yes.

HON. V. PRAKASH.- The other question is that the reconciliation done each month but the officers in charge for reconciliations are through cashiers. Who are those officers? The Finance or who is reconciling the account?

MR. R.K. ALI.-We have got a reconciliation officer but their work are finally checked by the Manager Finance.

HON. V. PRAKASH.-Who acts as the Accountant or there is another one?

MR. R.K. ALI.- No, another person. The Manager Finance is the separate Head of that section.

HON. V. PRAKASH.- Alright, thank you.

DEPUTY CHAIRPERSON.- Thank you, Honourable Prakash. Any other supplementary questions, Honourable Members?

Since there is none, you may proceed to 6.5.

MR. R.K. ALI.-

Question No. 6: Discrepancies in cash and bank reconciliation.

What is the latest Bank Reconciliation performed by the Council and whether the variances identified in the audit (\$91,194) has been rectified? Explain why \$6,370.91 was not banked at balance date? When was this banked? How has the Council accounted \$4,158.07 for these payments which were considered as stale cheques?

The Council has undertaken full reconciliation and has reconciled the cash and cash equivalents. As a result, there are now no recorded variances and the Council has no idea from where the audit has picked this figure of \$91,194.

The \$6,370.91 was not banked since there was a malfunction in the Council safe and it was opened nine months later. The cash was \$3,613.60 and cheque was \$2,757. 31. The cash amounting to \$3,613.60 was deposited and the cheque amounting to \$2,757.31 is yet to be rectified, and we are working on it.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any supplementary questions?

HON. V. PRAKASH.- Deputy Chairperson, I would like to have the comments from OAG regarding the submittees concerned, that they do not know where the OAG has picked up \$91,194 from.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member.

MR. S. DELANA.- Thank you, Deputy Chairperson, Sir. During the audit conduct, we noted this variance and this was discussed with the Council and they have also submitted their comments, they have agreed to it, which is in this Report. As you can see on the last sentence, it says, I quote:

"The Council has advised us that it is performing the bank reconciliations which are being reviewed. In addition, stale cheques are identified and reversed on a timely manner."

They have provided their formal comments during the time which has been captured in this Report. So, that was that time. If they had disagreed at that time, it would not have featured in this Report.

DEPUTY CHAIRPERSON.- Alright, understandable. Thank you for your explanation. Any other supplementary questions, Honourable Members?

HON. V. PRAKASH.- Deputy Chairperson, there is a concern that the safe was opened after nine months. If there were few cheques, normally cheques get stale, a cheque has a special timeframe. What is your improvement on the system? You said you are still working on it, to get those funds but what other improvements have you done?

MR. R.K. ALI.- Sir, we have purchased a brand new safe now.

HON. V. PRAKASH.- And then your collection is still monthly or six monthly basis or monthly?

MR. R.K. ALI.- Monthly.

HON. V. PRAKASH.- Monthly basis, so to avoid any stale cheques now.

MR. R.K. ALI.- Yes.

DEPUTY CHAIRPERSON.- Thank you, any other supplementary questions, If none, you may proceed further.

MR. R.K. ALI.- Lack of internal controls for parking meters revenue.

Question No. 7: What internal controls are in place for the collection of parking meter revenue?

Sir, the collection of revenue from parking meters is always done by the two technicians who are on the field.

- Internal control taken to address the collection of parking meter revenue, the Council has two different types of parking meters; lollipop and the other one is 'pay and display' parking meters. For the lollipop parking meters, all parking meters have a coin collection mechanism inserted in the meters so all coins inserted in the parking meters go directly into the parking meter coin box which is locked and cannot be opened unless the coin collection trolley is used and this is utilised only on the counting days. Collections are done twice in a week which is Tuesday and Friday, and at the end of the month if the days do not fall into the specific collection days.
- For the 'pay and display' parking meters, there is a coin box that is locked and the key is always locked in the till that is in the office and only handed out when the coin boxes arrive to the office and ready for counting. The collection is done twice in a month which is on the 15th and at the end of the month. If the end of the month falls in the weekend, then Friday is the day for collection. Now, all counting is done in the presence of one accounting personnel in the main office, who tallies and records in a separate register. This process started in 2014.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any supplementary questions?

There seems to be none so we may proceed further.

MR. R.K. ALI.- Inadequate Supporting Documents for payments.

Question No. 8: What is your policy and procedures for the processing of payments? Please, explain Table 14 and update with proper evidence?

We have got the design up there on how it happens. The procedures for processing folders, as follows:

- Requisition raised by respective Head of Department.
- Requisition forwarded to Manager Finance who approves to order.
- Then it goes to the Purchasing Officer who sources three quotes.
- Then Local Purchase Order is prepared and not necessarily the cheapest quote is selected because of quality, specification and availability.
- Materials are delivered to Depot or main office. Deliveries are checked to match delivery docket and invoice.
- Invoice sent to accounts to prepare disbursements.
- Then Purchasing Officer attaches green copy of the LPO, together with the invoices and other assorted documentations and forwarded to Payment Clerk to prepare payment.

DEPUTY CHAIRPERSON.- Thank you. Any supplementary questions?

Since there is none, we may proceed further on.

MR. R.K. ALI.-, No provisions for doubtful debts taken up for rates debtors.

Question No. 9: Assessment No. 0098 - Please, explain what is the unimproved Capital Value on the rezoning of agriculture.

Actually, Sir, this assessment is a Council property and is zoned commercial B. The unimproved value is \$1,142,000. It has never been zoned agricultural and it is the property where we are sitting now, right in the centre of the town.

DEPUTY CHAIRPERSON.- Thank you, Honourable Members, any supplementary questions or comments in this regard?

MR. R.K. ALI.-

Assessment No. 1189: Why did the Council resort to writing off the debts of \$43,597.53 through the line Ministry? Why weren't there any legal proceedings such as garnishee order not being instituted on outstanding rates? Please, provide an update on the issues highlighted in Table 15 - Ratepayers with significant debtor balance.

What is the position of the Ministry of Local Government with regards to these sorts of requests such as write-offs? Has the Council seek legal opinion on the collection of those outstanding rate arrears?

Sir, the Assessment No. 1189 is a native land and became unalienated in 1999. As such under section 59(1)(c) is not rateable for special rates. Section 60(1)(aa), the lot is not rateable for general rate. The said lot was released to another person and we are now levying rates from 2013 till todate.

Assessment No. 0098, the lot was wrongly levied general rates instead of special rates and this has been rectified.

Assessment numbers from 1000 to 0296, that has been resolved. The lot was zoned agricultural and later subdivided into residential and commercial lots. Individual lots were rated individually from the time it was subdivided and the Council erred in levying rates on the original four lots. This subdivision took place for those four lots and this has now being rectified.

The Council has the power in case of hardship with the approval of the Minister to write off the town rates.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any supplementary questions?

There is none, so you may proceed further.

MR. R.K. ALI.-Anomalies in property, plant and equipment (PPE).

Question No. 10: How regular is the Board of Survey conducted? What is the Council's policy on BOS? What is Council's capitalisation policy and how often does it conduct reconciliation of Property, Plant and Equipment with ledger accounts and Fixed Assets Schedule?

The last Board of Survey was carried out in 2017. The next will be carried in the second quarter of 2019. There is no current policy on Board of Survey, but we will very soon develop one policy on that.

The Council does not have a capitalisation policy but merely records any purchases above \$500. No reconciliation has been done to match with the Fixed Assets Schedule, except when the Board of Survey is conducted.

DEPUTY CHAIRPERSON.- Thank you, Honourable Members, any supplementary question?

HON. V. PRAKASH.- I have supplementary questions here.

DEPUTY CHAIRPERSON.- Yes, Honourable Prakash, you may proceed.

HON. V. PRAKASH.- With the Board of Survey, can I know when was the last valuation done for the Nadi Town Council. If there was any, what was the value?

DEPUTY CHAIRPERSON.- You may respond later on in writing, if you want to.

MR. R.K. ALI.- Probably, towards the end of this submission, I will get it.

HON. V. PRAKASH.- Was there valuation on office properties?

MR. R.K. ALI.- Yes, there was a valuation. It is done every six years.

HON. V. PRAKASH.- You can give it later in writing, if the Committee wants. There was a valuation?

MR. R.K. ALI.- Yes, there was. It was done by the Lands Department for rating purposes.

HON. V. PRAKASH.- Nadi is a growing municipality under veteran CEO, who have been very long with the Council and then you want to become a city and the question was of that interest, that there must be certain valuation.

MR. R.K. ALI.- Just recently, there was a valuation done for the old boundary, in fact, and we have not proceeded towards levying rates on those valuation because there are some technical issues that we are sorting out with the Ministry. So, may be next year, we will implement that after we have resolved all those issues.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any other supplementary questions? Any comments or additions from other Honourable Members?

If there is none, you may proceed further on.

MR. R.K. ALI.- Deferred Income.

Question No. 11: What actually happened to the amount \$141,818? Why was there no documentary evidence provided to audit, to substantiate this transfer?

Sir, the Council received grant from the Government amounting to \$200,000 to address the drainage problem within the central business district. The Council utilised \$107,935 and the balance of \$92,065 is still in our banks. The work has ceased because the matter is before the court and maybe, those documents are probably with the investigators or with the FICAC.

Down below is the utilisation.

Vendor	<u>Amount</u>
Poly Trade	\$ 34,650
Fiji Electricity Authority	\$ 27,301
Jens Lamp and Light Works	\$3,000
Arrow Concrete	\$ 21,000
Arrow Concrete	\$ 15,000
Telecom	\$ 6,984
Total	\$107,935

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any supplementary question?

Yes, Honourable Prakash.

HON. V. PRAKASH.- Flooding is a problem in Nadi, we all know and like Rakiraki, we were told that in one year, 12 times the Council boundary flooded badly. We also hear that Nadi is another municipality where such flooding do affect the town and the business communities. What is the present situation and what improvements have been done to try and assist the places from frequent flooding?

MR. R.K. ALI.- Sir, with the assistance of the Ministry of Waterways, we are improving all our minor drains which leads water into the river. Last year, we spent quite a sum. We are, again, working on the second project.

But there was a team from JICA engaged by the Government who have done a study of Nadi River. They have come up with a lot of recommendations to address the flooding. Currently they are sitting just across our office on that side, a technical team of engineers and JICA personnel and have got a specific task assigned by the Ministry of Waterways and they are again concentrating on the work and the aim to save Nadi from such flooding.

HON. V. PRAKASH.- Through you, Deputy Chairperson, are you getting some positive results with the work that you have already carried out towards fixing the problem?

MR. R.K. ALI.- Yes. The last major flooding in Nadi was in 2012. After that, we did not have that kind of flood. Well, of course, flash flooding does happened near the bus station and the market. Those were the drains we are trying to improve now, but the major river flooding was not to that extent as it was in 2012.

HON. V. PRAKASH.- This was due to the action that was taken by Ministry of Waterways and through you and through the line Ministr,y to try and improve the drainage, including the road that leads towards Namaka?

MR. R.K. ALI.- Yes. Actually, I am not qualified to talk on this detail but what information I gathered is that, it is to protect the town from high tide when water comes in. But I cannot give any confirmed answer on that.

HON. V. PRAKASH.- Are you happy?

MR. R.K. ALI.- Yes, I am happy.

HON. V. PRAKASH.- You are getting a positive result?

MR. R.K. ALI.- Yes, it is positive result. Even tomorrow we are meeting with the Ministry of Waterways in Suva to further discuss on certain issues.

DEPUTY CHAIRPERSON.- Thank you, Honourable Prakash. Any other supplementary question, Honourable Members?

There seems to be none, you may proceed further.

MR. R.K. ALI.- Variance between General Ledger and listing for business license income.

Question No. 12: Has the Council reconciled the variance of \$72,240? What control measures are in place?

The Council was without a fully devoted Licensing Officer from 2013. The Licensing Officer was recruited in 2017 and the officer has been tasked to perform reconciliation to correctly ascertain the correct Business Licence subsidiary ledgers, which then will be used to reconcile the General Ledger. This is the current status as to date.

DEPUTY CHAIRPERSON.- Honourable Members, any supplementary questions in this regard?

HON. V. PRAKASH.- I have two questions, Deputy Chairperson. I would like to know the success of your rate collection percentage.

DEPUTY CHAIRPERSON.- Yes, Manager Finance, you may response.

MR. R.K. ALI.- As of today, this week we have collected 67 percent.

HON. V. PRAKASH.- For this year?

MR. R.K. ALI.- Yes, for this year.

HON. V. PRAKASH.- That is very encouraging.

MR. R.K. ALI.- And past experience has shown we are always in 90 percent at the end of the year. The arrears that we have collected as from now from that special incentive was given by the Government, we have collected about one percent.

HON. V. PRAKASH.- So, with five months left with this incentive, I think you will be doing quite well with the remaining collection.

MR. R.K. ALI.- Yes, Sir. We are, in fact, working very hard. In the evenings, we are moving around and meeting the people, advising them, because during the day most of the adults are out at work and we are unable to talk to them. So, in the evenings we go and visit them and we encourage them to take advantage of the discount period.

HON. V. PRAKASH.- And the arrears will be what percentage?

MR. R.K. ALI.- The arrears will be about \$1.1 million.

HON. V. PRAKASH.- That has been exacerbating from many years?

MR. R.K. ALI.- Yes.

HON. V. PRAKASH.-You are still trying to recover them.

MR. R.K. ALI.- Yes, we are trying to.

HON. V. PRAKASH.- What are the services that you render because the Council and ratepayers, these are two entities. We should be proud of our Municipalities because they have to work closely with each other, to make the municipality one of the proudest place to be in. As you know, Nadi is a very highly attracted centre by the global community who travel to your town. So, what are some of the things that you carry out which might be very unique for other municipalities and the service that you deliver to ratepayers?

MR. R.K. ALI.- Sir, we have got a very challenging task. We are next to Denarau Island and now, next to Momi and Natadola, so it is a big challenge for us. If we do not develop or improve ourselves, then all the guests will be heading to other places and to keep the town alive or keep the town moving, we really have to do a lot of things.

We started this from a very long time when Mr. Dilip Khatri was the Mayor of Nadi. From that time, we started revitalising the town. You would have seen on the main streets here, we have got two bins there - one for recyclable and other one is for other garbage. Then we have provided well designed seats for the people to rest and do shopping. There are some gardens around it well prepared, well-presented gardens and we are working on all sorts of responsibilities.

Timely collection of garbage is another thing. We have got three collections in a week. Then we have the recyclables, we collect once in a week. But our biggest challenge is the cost involved in transporting garbage collected to the Lautoka City Council Dump.

We are unable to do it in Nadi. We cannot do it. We cannot find a land for them because we are next to the flight path and there are other regulation whereby the landfill cannot be located around there because of bad strikes, smoke and other issues, so we have to go to Lautoka, although it is a bit expensive

We are encouraging people to control their garbage, control their refuse, and it is a bit of challenge to change the mindset of the adults. So, we have moved into the Clean School Programme in the whole of Nadi and we have pioneered this with the Lautoka City Council. Almost all the schools are taking part in that. It is making a difference, at least, at the school level. The garbage is not there, the children know how to handle the garbage, how to destroy their rubbish and we are moving to that end.

Recycling Programme is in progress and we also have competitions amongst the schools here. We give them prizes at the end of the year and they are doing very well. We hope that the future generation will catch up with that.

The problem uptil now is that the whole of Nadi has no landfill. So, people have no other alternative but to put their garbage into our bins here or throw it near the grounds or near the hospital, so we end up collecting all those garbage, so that was additional cost on us all the time.

I apologise I did not mention this but we have expanded our boundary a little over the size which we had before. We have just started, not a full time garbage collection system in that area but on a weekly basis we are collecting a lot, so it has made some differences in that.

We are also moving out of extended boundary into the rural areas and we are assisting the people in collecting garbage. Of course, we are providing services, such as building plans approval, et cetera.

HON. V. PRAKASH.- You said the major difficulty you face is the garbage, costing you a lot and there are people who bring garbage and put it into the Council bins but some may not have that privilege. Do you have any intention of having a place somewhere nearby whereby in future, you could recycle your own garbage and also have an organic fertiliser which can be used by the farmers at a very reasonable cost or the waste, especially market refuse, et cetera?

MR. R.K. ALI.- Sir, as I have said that we cannot have a landfill system here because of the flight path. So, we have to move out from here and we even tried to use our own garbage coming out of the market to convert that into manure. We went halfway and there was a flood, so all were washed out. So, that is another problem we have.

HON. V. PRAKASH.- Even those areas in Sabeto or the other areas towards Sigatoka, is that not suitable?

MR. R.K. ALI.- What happens is, we cannot pollute the sea. After that is the flight path. After that if you move a bit forward and go into the interior, then it is heavily populated. Then further up is the water catchment area for Nadi, Lautoka and upto Momi. So, this underground contamination of water is another issue.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any other supplementary questions?

Yes, Honourable Ratu Niumataiwalu

HON. RATU N. LALABALAVU.- Through you, Deputy Chairperson, first of all, I must thank the CEO and team for briefing the Committee this afternoon. Looking at the Finance Department organisational structure is very encouraging. I believe that you are working intensively in managing the finance of the Council.

The service delivery to the people, I think the ratepayers recognise the impact of your service. I also understand and noted your revenue collection as a success.

Sir, I will take us back to Question No. 7 in regards to the internal control assessment measures that have been in place by the Council in 2014. My question is; what is the success rate of the internal measures in terms of parking meters and revenue collected?

DEPUTY CHAIRPERSON.- Thank you, Honourable Member. You may respond to that question.

MR. R.K. ALI.- In fact, it was the case all the time, we were doing it in the right way all the time. But the only issue was that the case was not counted in the presence of our financial officers. It is only the parking meter officials who were counting. Now, we have brought it up in the office which is being counted under the eyes of our accounting officers, so we have no problem with that.

As far as finance is concerned, we are very well guided by the Ministry and the Director is even sitting here. He is holding training programmes for our finance people, I think twice or three times in a year where our officers are briefed on how to work, how to tackle all those finance programmes. So, we are really under the control.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any other supplementary questions?

HON. RATU N. LALABALAVU.- Thank you, Honourable Deputy Chairperson. Just a question to the CEO and perhaps, to the Ministry as well. You on the verge of becoming a city. There are still some work to be done both, from the Ministry and from your side as to how best you can tackle whatever problems you have. There are two major problems; rubbish disposal and flooding.

I have heard from your presentation this afternoon that you have been engaging consultants abroad - JICA through the Ministry of Waterways, et cetera. Huge sums of money. You have taken another \$200,000 grant here on Item 11, as to how best you can try and reduce or alleviate flooding, even though your last major once was in 2012. But hearing from you again, you have been having flashflood that had flooded the bus station, et cetera.

What sort of long term plans do you have for your waste disposal? I understand you are taking it right down to Lautoka. The Ministry does not subsidise because otherwise, the added cost from not having a dump site for Nadi Town (becoming a city) and shifting it to Lautoka, that will be another unattractive burden to the ratepayers here. What sort of long terms plans do you have for that?

The second question I would like to raise through you Deputy Chairperson is on the Nadi River alignment right now. It just busted its banks at Moala in front of Sonaisali Island, yet the mouth of Nadi River is right down at Denarau. The possibility of having a bypass there so as not to quickly hit the sea during heavy rain, that is when you get a backward rising water at a very very fast pace or at a short period of time when you have this flash flood because as soon as it hits the sea and if it is high tide, the town is under water. This never used to be experienced before until the banks broke itself at Moala and Sonaisali.

Now, you have the mouth of Nadi River right out to Sonaisali and to the sea, instead of meandering naturally right down to Denarau across the bridge. So, that is the second question I have when you are on this verge of becoming a city, of once and for all, deal with this. I mean, countries like Japan and China, they have alleviated problems such as this by rediverting or bypassing so that it continues with the natural flow and where it meanders, and that is a natural buffer for flooding.

I do not know what is your outlook there, CEO, are we just going to be taking this every year in, every year out, deepening the water but as soon as it hits the sea out there in Sonaisali at a very short distance, you get flash flooding?

At the same time, your rubbish dump. Why do we not extend this way? I do not know what your boundary is now, when you take into account the Rural Local Authority areas. You must be extending further than your boundaries before. Would that be ideal for you to start looking for some ideal sites as a dump site rather than going down to Lautoka all the time? Even Lautoka Dump is becoming, not only a nuisance, but it is up to its neck in terms of the capacity it has. Those are the two questions that I would like to raise you with you, CEO. Perhaps, if the Ministry can give a little bit of explanation as to how best we do this.

MR. R.K. ALI.- Sir, as far as the landfill is concerned, we are continuously looking for sites. We have spoken to the Lands Department and iTLTB. In the last few years, we have inspected about 13 sites but those 13 sites have been rejected because of other reasons of underground water contamination, et cetera, but we are continuing to look forward. If we get towards Sigatoka, we can even share with Sigatoka for a land site, but the question is the availability and we will do that.

As far as flooding is concerned, Sir, your question was very technical and I am not that expert to answer or to make any comment but I can only say that there are experts working on that. They are, in fact, based in this building here. They are working on that and they might come back with some sort of solutions. Even tomorrow we are meeting in Suva, to discuss the same issues. So, the issues are under consideration by the respective Ministries.

HON. RATU N. LALABALAVU.- Deputy Chairperson, through you, Ministry of Local Government, what sort of plans does it have?

MR. A. KHAN.- Thank you very much, Honourable Member. In reference to the two key areas where we also have noted the challenges whilst considering Nadi's transformation or transition process from town to city, the first one on the solid waste management area as far as the landfill goes, Lautoka City is an aerobic landfill site, not a full landfill site. Therefore, Lautoka City landfill site also needs a relocation and the bulk of the solid waste management dumping pressure on a landfill for this area is in

the Lautoka–Nadi region, therefore, it has been very much at the preliminary stage thought that the landfill should be somewhere close to either Lautoka or Nadi and there needs to be a joint landfill programme.

With most respect to Nadi Town Council, the programme itself requires comprehensive studies and a more technical input and heavy investment and in this line, this has been taken over on board by the relevant Ministry of Environment and Waterways, in association with Ministry of Local Government.

On the issue of flooding, a mitigation programme has been in a pipeline. This is another where it has gone at the national level, Sir, and as said by the Special Administrator, Nadi, JICA has already completed a study on flood mitigation for Nadi. Based on the mitigation, now the work has become in the area of very much getting an implementation programme being worked upon and soon, there will be some announcements made but meanwhile we will be sending a copy of the report to PAC, to ensure that information is made available to the Honourable Members of PAC as far as the flood mitigation goes.

On the area of the cost borne for Solid Waste Management for the Nadi Town Council and the ratepayers for taking it over to Lautoka City, we have given Nadi Town Council for the extension area, Government has granted \$750,000 operational grant of which \$375,000 has been approved for release for the second half, given that the first half will be realigning and getting all the works completed. So, Nadi will be supported in the area of the extension areas via a Government Normal Grant and we hope to continue with this over the few years, to ensure that relevant support is given to Nadi Town Council to normalise and continued with solid waste management.

In addition to that, Sir, we have been supporting by giving capital investment grant. This year, Nadi Town Council was given by Government, a nine tonne Isuzu compactor truck, costing \$245,000 which will be used for Nadi for the purpose of collection and transportation to the aerobic landfill site at Lautoka.

The reason, Sir, why Nadi was given a nine tonne truck, was to ensure that there is efficiency in collection and in transportation, more solid waste could be transported from Nadi to Lautoka.

In addition, Sir, JICA is working closely with Nadi Town Council to develop a Solid Waste Master Plan for Nadi Town and the Solid Waste Master Plan will be designed in consultation with stakeholders, including ratepayers, and a proper Solid Waste Management Master Plan for Nadi should be made available by November this year. Thank you.

DEPUTY CHAIRPERSON.- Thank you, Mr. Khan. Anymore supplementary questions?

HON. RATU N. LALABALAVU.- Thank you, Director, for that explanation. Thank you for your explanation as well, CEO.

But I am just looking at this; you are on the verge of becoming a city and these would be your two major challenges. We have not resolved it and we are moving to becoming a city. Cost-wise, Nadi has shown itself. Why? Major road works need to be undertaken here because the first impression is always a lasting one. You land from Nadi, beautiful highway right through the township. That \$10 million kilometre from the airport to the runabout. And then consider that with this diversion we are trying to create for the river here, plus the dumpsite, I mean, just to show an example, the Government can only give more because the potential here is huge, not only for Nadi Town itself or the city but the whole of Fiji.

It is huge, Sir. You have been in there, plus your senior officials are here. You should be able to make the right move now because everything ends with you, Sir. There is no elected Council yet. Maybe

when we come into power, then we will get the elections done but right now, you are riding on a crash of waves and I am just not sugar-coating this suggestion of mine to sound good to your ears, CEO. No, that is a concern that we have as a Committee because Nadi needs to take this head on, whether it is Government that will need to pump in a bit more - \$200,000 or \$1 million, that is not enough for Nadi.

Thank you, that is just a suggestion.

MR. R.K. ALI.- Thank you.

DEPUTY CHAIRPERSON.- Thank you, Honourable Member, you may want to respond or you may want to write a report or is there any such information that you can provide to us later on...

MR. R.K. ALI.- Yes, Sir.

DEPUTY CHAIRPERSON.- ... because I understand the question is very technical in nature.

MR. R.K. ALI.- Yes, Sir.

DEPUTY CHAIRPERSON.- So, we will proceed to Question No. 13.

HON. RATU T. NAVURELEVU.- Thank you, Deputy Chairperson. I just want to ask the Council if they can brief this Committee on any additional responsibilities to also cover the work by the Rural Local Authority. Do we have the capacity to facilitate those added responsibilities?

DEPUTY CHAIRPERSON.- Thank you, Honourable Member, you may respond.

MR. R.K. ALI.- Sir ,we are coping now. We have got a very strong support from our Ministry. We have been promised of more support on that and we are just about to recruit more officers in transport. As the Director has even said that we are going to be financed on those things and we have got very good staff with us. They are very hard working and we are coping.

As far as my experience with Nadi is concerned, the staff of the Nadi Town Council and the people of Nadi, they thrive under threats, under pressure and under workload. They have always done that.

The town has been under water, within few days people are on their feet doing their own business. They are very strong people, and our staff are also the same. They do not hesitate, they even go towards cleaning their town for 24 hours in one go. They will not step back. They will not hold back. They will not stay at home, but they will see that the town is on its feet, and we are moving in the same way.

HON. RATU T. NAVURELEVU.- Thank you.

DEPUTY CHAIRPERSON.- Thank you. Honourable Members, any other supplementary questions?

HON. V. PRAKASH.- Deputy Chairperson, I think we acknowledge, as I have said, veteran Special Administrator of the Council, who has had a very long years of experience. We acknowledge all that and we also would like to acknowledge through the explanation that (I think) the Police Force in Nadi has been also very helpful, attending to the recent flooding from looting, et cetera. Before it was noted that during that particular time, those things used to happen, so I think they need to be commended

as well. I have got a last supplementary question; we are going through 2013 accounts. Where are you now as far your annual account is concerned?

MR. R.K. ALI.- The 2014 account has been audited, 2015 audit has just been completed and still with the OAG, and a few other things we have in that report we are sorting it out. For 2016, we are preparing the Financial Statement.

HON. V. PRAKASH.- Thank you, Deputy Chairperson.

DEPUTY CHAIRPERSON.- Since there are no further supplementary questions, we may now proceed to Question No. 13.

MR. R.K. ALI.- Absence of Competitive Quotations

Question No. 13: What is the Council's policy on acquiring competitive quotes and advise why there was no supporting evidence to justify these transactions listed in Table 17 - Details of payments made without competitive quotations?

Sir, the Council always sources three competitive quotes for all purchases, except the purchases done via the use of petty cash. We will ensure that documentation is attached in the next audit report.

But there are certain times where we are unable to obtain two or three quotes. First, we have to buy the right parts of the right equipment that we want to buy because now in the market, there are so many grades of items that can be bought at a very cheap price. This is a public place where a lot of people from outside the boundary area use extensively so if we have to even to put a tap, we have to see that the best tap is put there unless it will be just broken the next day.

Then in the case of emergencies. If there is a flood in the market area or in the bus station, then we cannot be running around and looking for quotes, so the best available place and the nearest place we have to buy from to service that area. So, things like that, we does deviate but otherwise our policy is to take three quotes before we purchase.

DEPUTY CHAIRPERSON.- Thank you, any supplementary question?

HON. RATU T. NIUMATAIWALU.- I do not know who is going to answer the question, the CEO or the Ministry of Local Government, but looking at the organisational structure with all the roles and responsibilities is very encouraging. I just want to know whether this is consistent with other Municipalities.

MR. R.K. ALI.- I do not know about other Municipalities.

DEPUTY CHAIRPERSON.- Perhaps, Mr. Azam, could respond to that.

MR. A. KHAN.- Thank you, Honourable Member.

Organisational structures at the moment for Municipal Councils has very much been developed by Municipal Councils on a need basis. At the very moment, the Commonwealth Local Government Forum (CLGF) is assisting the Ministry of Local Government in assessing and making a structure in which Councils could be defined as small Councils, medium Councils and large Councils. So based on that, we will be drafting a manual for human resource and an organisational structure will be very much be established for Municipal Councils to standardise organisational structures and ensure that at the end

of the day, whatever the size and shape of Suva City is also having the same size and shape of the Lautoka City organisational structure.

This is also to ensure that gaps where noted because of the structure of the Council being small and unable to very much have the right resources at place, those Councils could very much be supported through our shared services drive and this will very much be supported by the Ministry of Local Government through a volunteer scheme which is CLGF, and they are very much wanting to support Fijian Municipal Councils for further development and we are sure the Government will also support sir.

DEPUTY CHAIRPERSON.- Thank you very much for your response. Any other supplementary questions?

MR. R.K. ALI.- Sir, this structure was developed, taking into consideration of our expansion programme and the rural areas that have come in. All those things were considered when we did this.

DEPUTY CHAIRPERSON.- Thank you. Any other comments or supplementary questions?

Since there is none, Honourable Members, our staff and Special Administrator, that draws a close to our PAC Hearing today.

(Vote of Thanks – Deputy Chairperson and closing Prayer by Honourable Ratu N. Lalabalavu)

The Committee adjourned at 3.45 p.m.
