Subject: Response on 2015 Audit Qualification

Good Morning Shalin

Kindly referring to our telephone conversation yesterday on the 2015 audit qualification. The Qualification was resolved and the details of the work done to resolve the issue is as follows:

Qualifications in 2015

1). Included as equity under the Statement of Changes in Equity are government grants totalling \$16,295,950. This is a departure from the International Financial Reporting Standard IAS 20 "Accounting for Government Grants and Disclosure of Government Assistance" which requires government grants provided for the purchase or construction of assets to be recognised initially as deferred income and then recognized in profit or loss as other income on a systematic basis in the same period that the expenses are recognized. The Board's records indicate that had the Board complied with IAS 20, the impact would have been an increase in other operating income & deferred income by \$16,295,950 and a decrease in equity by the same amount.

Work done to resolve issue

The issue has been resolved with effect 8th March 2016 by the Cabinet to rescind their initial decision and all grants will be recognised according to IAS 20 as deferred revenue. In 2016, no capital grant was given by the government to PRB. Capital grant was given in 2017 to complete the capital projects and this will be treated in accordance with IAS 20 as confirmed by Manager Finance & Administration.

Please let me know should you have any further queries.

Thanks.
