Given:

33.9 Prior Year Issues

Land Use Decree 2010

- Provide information on the lands deposited into the Land Bank which haven't been utilised and need to be returned to the landowners.

Management Comment:

This is to advise that as per **Regulation 6 (2) of the land Use Regulations 2011** which stipulates that.... *"The Trustees from time to time request the Prime Minister in writing that the designations of any land (or part thereof) cease, provided that a minimum of 5 years have elapsed since the date the land was first designated under the Decree"*.

To date, two Land owning units have formally requested the Land Use Division for the return of their designated land parcels.

Mataqali	Date Designation	Area	Location
Tokatoka Navuti	15/09/2011	120.4ha	Nalotawa, Ba
Mat Nakorosago	30/05/2011	148.5196	Verevere, Ra

The LOUs reasoned their need to extend farms and villages for their increasing population; Tokatoka Navuti stated their intention of having their own development plans for the land for the unemployed youth returning to the village to farm and for an expanding population size for the 3 villages they accommodate (Yaloku, Nanuku and Tururaki).

The Land Use Division has surveyed both these designations, with approved survey plans.

We are currently seeking legal opinion from SG's office on the process of De-designation, before we process the land reversion to LOUs

*The Committee would be grateful to receive a response on the above by Thursday 10 May 2018.
