LOAN TO SOUTH PACIFIC FERTILIZERS LIMITED

Following submissions by the South Pacific Fertilizers Limited and the stakeholders of the Sugar Industry to government for assistance to support the price of fertilizer supplied to the sugar cane growers.

The Government/Cabinet made the following decision as Way Forward for the SPFL.

- (a) that the Fertilizer price increase of \$26.09 per bag (from \$19.50 to \$45.59 per bag) be effective from 2009, for which additional

\$12 per bag (from \$19.50 to \$31.50) is to be met by the growers and the balance of \$14.09 per bag (from \$31.50 to \$45.59 per bag) to be met by the Government;

- (b) that the SPFL be restructured as follows:
- its loans (\$14.7m) in the Sugar Cane Growers Fund (SCGF) be converted to equity;
 - the Fiji Sugar Corporation (FSC) divests from SPFL and its shares be transferred to the other shareholders.
 - that consequential amendments be made to the Sugar Cane Growers Fund Act to allow for the SCGF to make investments in the SPFL and
- (c) that the SCGF be asked to provide necessary financing needs of the SPFL and
- (d) that in view of the SCGF acquiring majority shares (90%), the chairmanship of the SPFL be held by the representative of the SCGF, and that the Fiji Sugar Corporation have a nominee Director on the SPFL appointed by the SCGF.

In 2013 the Company borrowed \$21,917,210 for procurement of Raw Materials and \$1,159,032.27 towards Roof Upgrade damaged by Cyclone Evan in 2012. Total loan outstanding as at 31 December 2013 was \$11,504,912.

Government provided subsidy of \$4,347,826 million in 2013.

CANE DEVELOPMENT REVOLVING FUND

The Board of Management of the Sugar Cane Growers Fund agreed to provide \$3 million towards establishment of a Cane Development Revolving Fund initiated by the Fiji Sugar Corporation Limited with the \$6 million the Government allocated in the 2011 Budget for Sugar Cane Planting.

The Industry Stakeholders – the Fiji Sugar Corporation Limited, Sugar Cane Growers Fund, Sugar Cane Growers Council, the Sugar Industry Tribunal, South Pacific Fertilizers Limited and the Sugar Research Institute of Fiji signed a

Memorandum of Agreement to support the initiative taken by the Fiji Sugar Corporation Limited.

Money from the Revolving Fund is an interest free loan repayable over four years. Recovery would commence from the second year and deductions shall take place from the delivery payments.

The Sugar Cane Growers Fund is responsible for the assessment of loan applications and release of loan funds:

Application Approved	5,425
Applications Paid	3,859
Value of Loans Approved	\$10,708,650
Value of Loans Paid	\$8,237,193

Following approval by Government, a sum of \$2.3 million have been converted to grant to assist growers affected by Cyclone in December 2012.

SPECIAL CANE PAYMENT

The Sugar Cane Growers Fund advanced \$8.4 million to the Fiji Sugar Corporation Limited in May 2010 for top-up of the 4th Cane Payment for the 2009 season. This payment was made following a directive from the Prime Minister and Minister for Sugar.

The loan is to be repaid from sugar proceeds of the 2011 and 2012 season.

The Government through the Ministry of Sugar will pay interest.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SUGAR CANE GROWERS FUND AND ITS SUBSIDIARY

Report on the Fund and Consolidated Financial Statements

We have audited the accompanying financial statements of Sugar Cane Growers Fund (the "Fund") and the consolidated financial statements of the Fund and its subsidiary (the "Group"), which comprise statements of financial position as at 31 December 2013, and the statements of comprehensive income, statements of changes in equity and statement of cash flows for the year then ended, and notes 1 to 26, comprising a summary of significant accounting policies and other explanatory information.

Board Members' and Management's Responsibility for the Financial Statements

Board Members and management are responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards and for such internal control as the Board Members and management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view, in all material respects, of the financial position of Sugar Cane Growers Fund and the Group as at 31 December 2013 and their financial performance, changes in equity and cash flows for the year then ended in accordance with International Financial Reporting Standards so far as concerns the Board Members of the Fund.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SUGAR CANE GROWERS FUND AND ITS SUBSIDIARY (continued)

Report on Other Legal and Regulatory Requirements

We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

In our opinion:

- i. proper books of account have been kept by the Fund and the Group, sufficient to enable financial statements to be prepared so far as it appears from our examination of those books;
- ii. the financial statements are in agreement with the books of account; and
- iii. to the best of our information and according to the explanations given to us the financial statements give the information required by the Fiji Companies Act 1983, in the manner so required.

The address of its registered office and the principal place of business is located at 2nd floor, Sugar Cane Growers Council (SCGC) Building, 75 Drasa Avenue, Lautoka.

The consolidated financial statements of the Fund as at and for the year ended 31 December 2013 comprise the Fund and its subsidiary, South Pacific Fertilizers Limited (together referred to as the "Group").

The principal activity of the Fund as outlined under Sugar Cane Growers Fund Act 1984 Section 4, is to provide loans to sugar cane growers to increase production of sugar cane, improve efficiency in the planting, growing and transportation of sugar cane, rehabilitate farms, buildings and other installations damaged, destroyed or affected by floods, cyclones, droughts or other natural disasters, establish sugarcane farms and to construct buildings and other installations on those farms, crop diversification and to provide assistance to the personal family needs of growers during periods of financial distress or hardship and to benefit the cane growing industry.

The principal activity of the Subsidiary, South Pacific Fertilizers Limited (SPFL), during the year was importing bulk fertilizer, blending, packing and distributing to local markets. SPFL is incorporated in Fiji and its registered office is at Waterfront Road, Veitari, Lautoka.

2. Basis of preparation

(a) Statement of compliance

The consolidated financial statements of the Group and the separate financial statements of the Fund have been prepared in accordance with International Financial Reporting Standards (IFRS) and the provisions of the Companies Act, 1983.

The financial statements were authorised for issue by the Board on 21/06/2016.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for other investments which are recorded at fair value. The statement of financial position has been prepared on a liquidity basis as it reflects the nature of Fund's operations.

(c) Functional and presentation currency

The financial statements are presented in Fiji dollars, which is the Group's functional currency.

2. Basis of preparation (continued)

(d) Use of estimates and judgments

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

Note 3(d)	-	Impairment of loans to growers
Note 3(g)	-	Impairment of investment in subsidiary
Note 3(g)	-	Impairment of property, plant and equipment

(e) New standards and interpretations not adopted

The following standards, amendments and interpretations to existing standards have been published and are effective for accounting periods beginning on or after 1 January 2013 or later periods, and have not been early adopted in preparing these financial statements. Adoption of these standards is not expected to have material impact on the financial statements:

IFRS 9	Financial Instruments	(effective 1 January 2018)
IFRS 36 Amendment	Impairment of assets	(effective 1 January 2014)
IFRS 32 Amendment	Financial Instruments	(effective 1 January 2014)

3. Significant accounting policies

The accounting policies have been applied consistently to all periods presented in the financial statements, and have been applied consistently by the Group entities.

(a) Basis of consolidation

Subsidiary

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to or has the right to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expense arising from intra-group transactions, are eliminated while preparing the consolidated financial statements.

(b) Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated to Fiji dollars at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to Fiji dollars at the exchange rate at that date. The foreign currency gains or losses on translation are recognised in profit or loss.

Non-monetary items in a foreign currency that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

(c) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gains and losses on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

Subsequent costs

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

Depreciation

Items of property, plant and equipment are depreciated from the date they are available for use. Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight line basis over their estimated useful lives. Depreciation is generally recognised in profit or loss, unless the amount is included in the carrying amount of another asset. Land is not depreciated.

3. Significant accounting policies (continued)

(c) Property, plant and equipment (continued)

Depreciation (continued)

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

Buildings	20 years
Furniture and fittings	5 - 15 years
Motor vehicles	4 years
Office equipment	4 years
Plant and equipment	4 - 10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(d) Loans to growers

Measurement

Loans to growers are measured at amortised cost less impairment losses.

Allowance for uncollectibility

A specific allowance for uncollectibility is brought to account where it is assessed that a particular loan is non-performing and the value of related security is insufficient to cover the loan outstanding. The determination of the amount of the provision is based on many factors including credit evaluation of the borrowers, value of security and collateral held, current economic conditions and past loss experience. Additions to the allowance for uncollectibility are charged to profit or loss for the current year.

Bad debts written off / recovered

Bad debts are written off against the allowance in the year in which the debt is recognised as being irrecoverable. Where not previously included in the allowance, bad debts are written off directly against profit or loss. Debts previously written off and subsequently recovered are written back to profit or loss in the year in which they are recovered.

(e) Financial instruments

(i) Non-derivative financial assets

The Group initially recognises loans and receivables on the date that they are originated. All other financial assets are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

Sugar Cane Growers Fund and its Subsidiary
Notes to the financial statements
For the year ended 31 December 2013

3. Significant accounting policies (continued)

(e) Financial instruments (continued)

(i) Non-derivative financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Non-derivative financial assets of the Group include loans and receivables and financial assets at fair value through profit or loss and held to maturity investments.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents, loans to growers, trade receivables, other receivables and receivables from industry related parties.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and term deposits with maturities of three months or less from the acquisition date.

Financial assets at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if it is classified as held for trading or is designated as such on initial recognition. Directly attributable transaction costs are recognised in profit or loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein, including any interest or dividend income, are recognised in profit or loss.

Financial assets at fair value through profit or loss comprise of other investments which is investment in Unit Trust of Fiji.

Held to maturity financial assets

These assets are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

Held to maturity investments comprises of investments in term deposits.

Sugar Cane Growers Fund and its Subsidiary

3. Significant accounting policies (continued)

(ii) Non-derivative financial liabilities

The Group initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date, which is the date the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Group classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise of trade and other payables.

(f) Inventories

Raw materials are valued at cost which is determined on the basis of individual shipments on a first-in-first-out basis. Finished products are valued at the lower of cost and net realisable value. Cost includes manufacturing expense and an appropriate portion of overhead expenditure and is determined on a first-in-first-out basis. Packaging materials are valued at lower of cost and net realisable value determined on a first-in-first-out basis.

(g) Impairment

(i) Non-derivative financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had an impact on the estimated future cash flows of that asset that can be estimated reliably.

Loans and receivables

The Group considers evidence of impairment for loans and receivables on specific asset basis. All individually significant receivables are assessed for specific impairment.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against loans and receivables. Interest on the impaired asset continues to be recognised. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Sugar Cane Growers Fund and its Subsidiary

Notes to the financial statements

For the year ended 31 December 2013

3. Significant accounting policies (continued)

(g) Impairment (continued)

Financial assets at fair value through profit or loss

The Group considers evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets are individually assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that has been incurred but not yet individually identified. Assets that are not individually significant are collectively assessed for impairment. Collective assessment is carried out by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Group uses historical information on the timing of recoveries and the amount of loss incurred, and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account. When the Group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

(ii) Non-financial assets

The carrying amounts of the Group's non-financial assets, other than inventories are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit, or CGU").

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

An impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(h) Employee benefits

(i) Defined contribution plan / superannuation

Contributions are paid to the Fiji National Provident Fund on behalf of employees to secure retirement benefits. Costs are included in profit or loss.

(ii) Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term benefits if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably. Liabilities for non-accumulating and accumulating leave are recognised when the sick leave is taken and measured at the rates paid or payable.

(i) Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are recognised at invoice value.

(j) Revenue recognition

(i) Interest income

Interest income is derived from loans issued to growers, industry related parties and term deposits of the Group and is recognised on an accrual basis.

Revenue from other operating activities are recognised in profit or loss on an accrual basis.

(ii) Sale of goods

A sale is recognised when products leave the warehouse for delivery to the customer. Sales are shown net of returns and trade allowances.

(iii) Government subsidy

Subsidy from the industry and the Government are recognised at their fair value where there is a reasonable assurance that the subsidy will be received and the entity will comply with all attached conditions.

(k) Income tax

(i) The Fund

The Fund is exempt from income tax under Section 15 of the Sugar Cane Growers Fund Act, 1984.

(ii) Subsidiary

Tax expense comprises current and deferred tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(l) Grants

Grants from the industry and the Government of Fiji are recognised at their fair value where there is a reasonable assurance that the grant will be received and the entity will comply with all attached conditions. Government grants relating to future costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

4. Financial risk management

Overview

The Group has exposure to the following risks:

- (i) Credit risk;
- (ii) Liquidity risk; and
- (iii) Market risk.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk.

Risk management framework

The Board have overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

(i) Credit risk

Credit risk is the risk of financial loss to the Group if a grower or customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from growers, trade and other receivables, cash at bank and loan advances to industry related entities.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure.

The maximum exposure to credit risk at the end of the reporting date was as follows:

	Group		Fund	
	2013	2012	2013	2012
	\$	\$	\$	\$
Cash at bank	8,939,584	17,475,617	8,677,946	17,357,887

4. Financial risk management (continued)

(i) Credit risk (continued)

Loan to growers

The Board has established a credit policy under which each new grower is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered.

The Group's review process includes production history, farm area and yield, when available, and in some cases bank references. Loan limits are established for each grower, which represents the maximum amount without requiring approval from the Board.

Under Section 17 of the Sugar Cane Growers Fund Act, 1984, loans to cane growers are secured by a first charge over cane proceeds except that such charge shall not take precedence over the repayment of any advances of whatsoever nature made to the cane grower or on his behalf by the Fiji Sugar Corporation Limited (FSC) pursuant to the Master Award under the Sugar Industry Act 1984.

The ageing of loans to growers as at the reporting date was as follows:

	Fund	
	2013	2012
	\$	\$
Not impaired	15,772,177	16,470,143

Trade receivables

The credit controller assesses the credit quality of the customer, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored.

Balance at 31 December	<u>10,330</u>	<u>5,876</u>

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The following are the contractual maturities of financial liabilities:

(iii) Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The following section summarises the Group's approach to managing these risks:

(a) Foreign exchange risk

The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD, AUD and NZD. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities. Management has set up a policy to manage their foreign exchange risk against their functional currency. Foreign exchange risk arises when future commercial transactions are denominated in a currency that is not the Group's functional currency. The Group does not hedge its exposure to exchange fluctuations in the foreign currencies.

(b) Price risk

The Group's exposure to commodity price risk is minimal.

(c) Interest rate risk

The Group has interest bearing assets and liabilities however, these are substantially independent of changes in market interest rates as the interest rates are fixed.
