Hon. Premila Kumar  
Minister for Industry, Trade & Tourism,  
Local Govt, Housing & Community Development  
Level 3, Civic Towers  
Victoria Parade  
**SUVA**

Dear Honourable Minister,

**RE: TOURISM FIJI ANNUAL REPORTS FOR 2013**

On behalf of the Tourism Fiji board of Directors, I am pleased to present the Company's Annual Report for 2013 and as required under Section 58 of the Public Enterprise Act, 2019.

The Report incorporates the organisation's operational achievement and audited accounts for the year ending December 2013.

The Board of Directors, Management and staff would like to express their sincere appreciation to you and the Government for its on-going support and look forward to continuing this in 2020 and beyond.

Yours sincerely,

Andre Viljoen  
**CHAIRMAN**

# ABOUT TOURISM FIJI

## Who are we?

Located in the heart of the South Pacific, Fiji is blessed with 333 tropical islands and is a popular tourism destination for visitors from around the world.

Tourism Fiji is a statutory body fully funded by the Fiji Government and is the destination marketing arm of the Fijian Government. Tourism Fiji is governed by the Tourism Fiji Act 2009 which specifies its role as: "Tourism Fiji is to ensure that the Fiji Islands is promoted and marketed as a tourist destination for the purpose of maximizing sustainable and long-term benefits to the Fiji Islands"

The tourism industry has contributed significantly to Fiji's economy and is the country's largest foreign exchange earner. The industry provides employment directly and indirectly to many Fijian people and is the fastest growing industry in terms of employment.

In 2013, Fiji welcomed 658,000 international visitors. The value of tourism earnings across the year was estimated by Bureau of Statistics as \$1.3bn

The importance of tourism to the Fiji economy drives Tourism Fiji to continue to deliver world-class marketing and promotional activities to attract more visitors to our shores.

## Our Markets and Offices

Tourism Fiji has a global team that undertake marketing and promotional activities to attract international visitors to Fiji. Our offices are located in:

- Australia
- New Zealand
- North America (USA & Canada)
- South Korea

## We have Market Representatives in:

- United Kingdom
- Europe
- China
- India

## SUMMARY OF TOURISM FIJI'S PERFORMANCE 2013

The highlight for 2013 was the launch of the much-anticipated global brand campaign, Fiji – where happiness finds you. This was successfully launched across all markets. The repositioning was developed following extensive research and consultation with local and international stakeholders.

The objective of the rebranding was to globally position Fiji as a unique destination that embodied the following pillars:

- The people - make you smile and feel happy
- The place - a serene and tropical environment where happiness finds you
- The experience - a unique and authentic Fijian culture

To strengthen the Tourism Fiji team and support organizational strategy, structural changes occurred across the organization during 2013. Regional Directors in Australia and New Zealand were appointed and a new role of Director of Global Marketing was created in Tourism Fiji's Head Office. Tourism Fiji's office in Europe was also closed in 2013.

Importantly a further structural change was undertaken to centrally manage the marketing activities of the organization from the Head Office in Fiji.

In June 2013 Fiji's national carrier made the announcement to change their name from Air Pacific to Fiji Airways. The rebrand took the organization back to its previous 1951 name and this coincided with them also welcoming three brand-new A330 aircraft.

In 2012 Fiji was impacted by several natural disasters. This included two major floods and Cyclone Evan. However, the impact of these natural disasters was felt by the tourism industry in 2013. The consequence being a slight decline in the visitor numbers recorded in 2012.

## 2013 VISITOR ARRIVALS IN NUMBERS

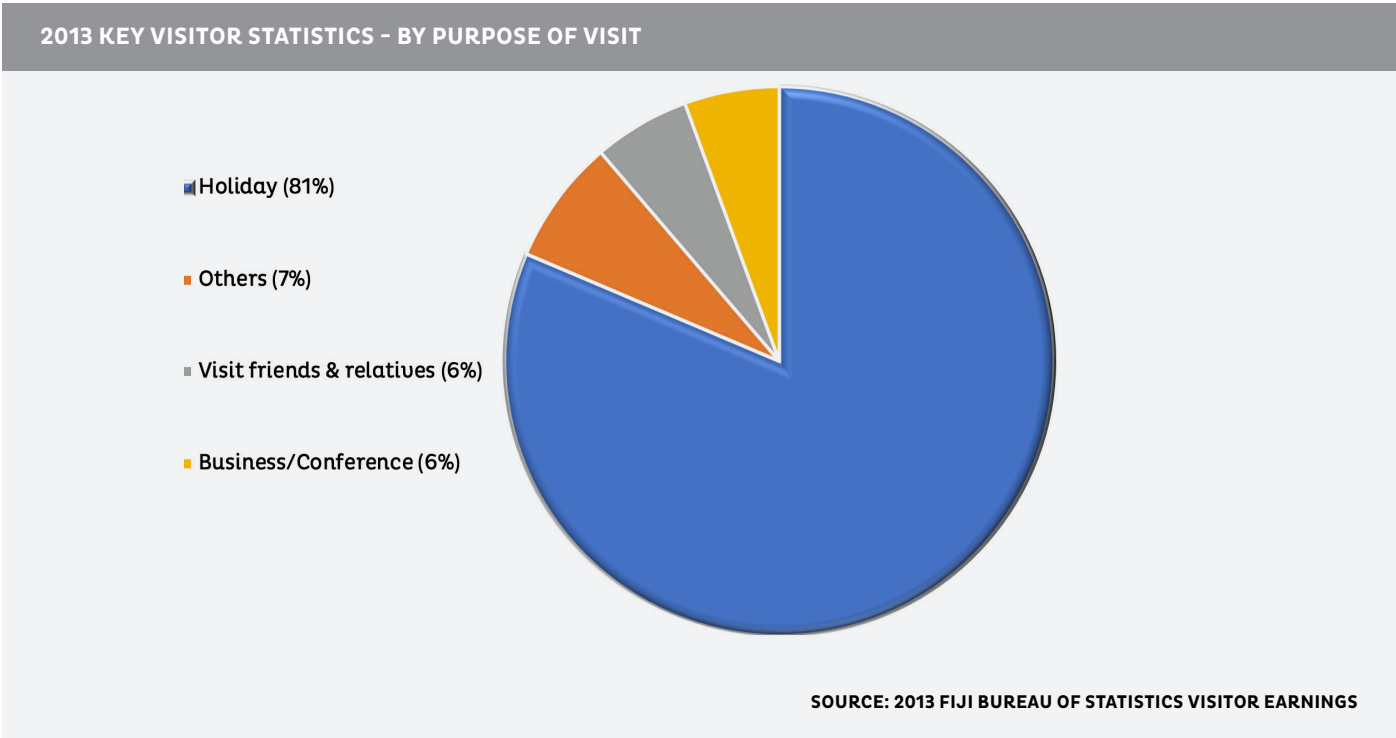

In 2013 Fiji received 658,866 international visitor arrivals, representing a 0.4% decline from the previous year. However, encouragingly visitor earnings had a slight 1% increase in 2013 contributing \$1.312bn to the economy.

In 2013, visitor arrivals from Australia contributed 52% of total arrivals, followed by New Zealand (16%), North America (10%), Continental Europe (5%), China + Hong Kong (4%), United Kingdom (2%), Rest of Asia (2%), Japan (1%), India & Singapore (0.5%) and all other countries at 7%.

In terms of growth by volume, Australia contributed the most at 2,272 additional visitors followed by New Zealand (2,256), Continental Europe (846), India (375), Japan (261), Singapore (223) and all other countries (2,454). Markets that declined were North America (2,336), China + Hong Kong (3,151), Rest of Asia (4,035) and UK (889).

# 2013 KEY VISITOR STATISTICS

In 2013 81% of our visitors arrived for a holiday, with 6% visiting friends and relatives and 6% travelling for business.

The average length of stay varied depending on purpose of travel, with most holiday makers staying around 7 nights.

## 2013 VISITOR ARRIVALS IN NUMBERS

Length of stay varies by country with visitors from the UK & Europe staying longer than their short haul counterparts, and visitors from North America and Canada tending to choose shorter visits.

AVERAGE LENGTH OF STAY BY COUNTRY

Visitor spend varied across regions. Visitors from the UK and Asia, with the exception of China and Hong Kong, spent higher amounts than average.

2013 AVERAGE SPEND BY COUNTRY

## OVERVIEW OF KEY ACHIEVEMENTS

### Brand launch

Tourism Fiji's focus for 2013 was the implementation of Fiji's new brand positioning across its international markets. The new positioning of "Fiji: Where happiness finds you" was successfully launched in 2012 following an extensive brand review. Research undertaken for the review had identified the need for a message that showed differentiation and a clear identity for Fiji. The research had showed that most travelers knew Fiji for its beautiful beaches and as a relaxing, tropical destination. While these brand associations were not a bad thing, the need was identified for a stronger point of difference.

Importantly, the research also highlighted the strength of Fiji's warm and welcoming hospitality as a defining characteristic of the destination.

The research showed there was something about the genuine warmth and welcoming nature of Fijian people that enriched peoples' visit to Fiji and left an enduring impact. With that the new brand was launched, Fiji: Where Happiness Finds You.

### Global Branding

- When You Think About It, The Whole World's Looking For Happiness.
- But Actually, It's The People Who Are Trying The Least - Who Have The Most Of It.
- Our Strategy: Show The World That Fiji Will Make Them Happier Than Anywhere Else.

## GLOBAL BRANDING

The happiness proposition was made up of three distinct elements that combined to create Happiness for the visitor. This is demonstrated in the diagram on the right.

### Creative Brand Expression

We want something that's **ours**.  
That **no-one else can own**.  
And that can last **forever**.

### So what is unique and compelling about Fiji?

The Place: A tropical island that relaxes and relieves stress.  
The Experiences: Relieve stress and build relationships.  
The People: Make you smile and feel happier.

These three things combine to create a unique experience that provides one benefit in more abundance than anywhere else.

In 2013, new creative was rolled out, and Tourism Fiji launched their new website in April 2013. The creative took a fresh approach, showcasing people and experience, and used contemporary new branding. Some examples of this are below:

In 2013, the new positioning was implemented across each of Tourism Fiji's international markets. The major launch investments occurred in our short haul markets of Australia and New Zealand, with our long-haul markets focusing more on trade and PR activity. The results of the short-haul launch activities are highlighted below.

### Australia

- Activity: A "Happiness Campaign" was launched just before International Day of Happiness in March 2013 for four weeks. The aim was to build a consumer database, share the Fiji message through social media and achieve engagement from around 100,000 followers.
- Result: The campaign reached 119,666 Australian fans and the content was talked about by 5,260 people in Australia.

### New Zealand

- Activity: A digital advertising campaign was implemented at IRB Hertz Sevens in Wellington on 1 & 2 February 2013.
- Result: The advertising reached an audience of approximately 760 million people globally on TV while 77,000 people also attended the 2-day tournament.
- Activity: The new brand was also launched at the Flight Centre Expos in Christchurch and Auckland.
- Result: More than 20,000 visitors attended each show where the new branding was present.

# MARKETING ACTIVITIES IN 2013

## Brand Advertising

Tourism Fiji undertakes brand advertising within all our international markets to ensure that Fiji remains top-of-mind as a holiday destination and is perceived as a highly desirable and aspirational destination.

In 2013 Tourism Fiji rolled out new brand assets across its marketing collateral.

## Social Media and Digital Marketing

Tourism Fiji markets itself heavily across digital channels such as its website and social media platforms. These are critical platforms not only for promoting the destination, but also for sharing valuable content with potential visitors to influence their decision to visit Fiji.

In 2013 Tourism Fiji launched a new website and focussed on growing social media followers.

## Trade Engagement

Tourism Fiji works closely with our trade partners to ensure they have the understanding, resources and distribution in place to effectively market and promote Fiji to potential visitors through their own activities. Through workshops, forums, meetings and presentations, Tourism Fiji ensures that our trade partners are well-informed and equipped to promote Fiji to their clients.

In 2013 Tourism Fiji ran a number of workshops and training sessions, some highlights of which included:

- Training 30 London Trailfinders personnel in August 2013

## Trade Partnerships

Through trade partnerships Tourism Fiji amplifies its activities via co-operative campaigns and joint ventures. These are undertaken in conjunction with airlines, retailers, wholesale partners and contributing industry.

In 2013 Tourism Fiji ran a number of trade co-operative campaigns, some highlights of which included:

- Tourism Fiji and Air Pacific Flight Centre campaign resulted in 22,000 booked passengers in and out of Australia
- Go Holidays Fabulous Fiji campaign with Harvey World Travel, Air Pacific and Starwood Fiji in New Zealand resulted in 800 passengers

## Trade Shows and Events

Tourism Fiji participates at tradeshow within key international markets to engage and network with a large representation of the trade travel to develop new relationships and identify new partnerships with organizations. Tourism Fiji also hosts roadshows that bring buyers together with invited tourism industry representatives from Fiji.

In 2013 Tourism Fiji ran a number of trade shows and event, some highlights of which included:

- Wedding Workshops in Australia, March 2013
- Bula Marau NZ Roadshow, March 2013
- Bula Marau USA and Canada Roadshow, April 2013
- Bula Marau India, Jan 2013

## **Trade Famils**

Fiji provides a remarkable visitor experience that has to be seen to be believed. By providing our trade partners with an opportunity to experience the destination they are then able to use this knowledge and understanding of the destination to better sell holidays to Fiji.

In 2013, Tourism Fiji hosted a number of Trade Famils, some highlights of which were:

- November Mega Educational – 150 Australian agents
- USA Health & Wellness famil in August 2013
- Indian agents famil in October 2013

## **Consumer Shows and Events**

Tourism Fiji attends some consumer shows and events to interact directly with consumers and showcase the products and experiences available within the destination.

In 2013, Tourism Fiji attended a number of consumer shows and event, some highlights of which included:

- ITB: The World's biggest trade/consumer travel fair
- Attendance at Japanese consumer show in conjunction with Pacific Island Center

## DIRECTORS' REPORT

### 31 DECEMBER 2013

The Board of Directors present their report together with the financial statements of Tourism Fiji ("the entity") for the year ended 31 December 2013 and the auditors' report thereon.

#### Directors

The following were directors of the entity during the year and up to the date of this report:

Mr. Andre Viljeon	Chairman
Mr. Truman Bradley	Chairman (Term expired on 09/06/2016)
Mr. Geoff Shaw	Deputy Chairman
Mr. David Pflieger	Chairman (Term expired on 01/05/2013)
Mr. Shaheen Ali	Director
Mr. Dixon Seeto	Director
Mr. Howard Politini	Director
Mr. Shane Cunning	Director (Term expired on 21/01/2016)
Mr. Lawrence Tikaram	Director (Term expired on 21/01/2016)
Ms. Josephine Smith	Director (Term expired on 21/01/2016)
Ms. Elizabeth Powell	Director (Term expired June 2014)
Mr. Faiyaz Koya	Director (Term expired on 08/08/2014)

#### State of Affairs

In the opinion of the Directors, the accompanying statement of the financial position gives a true and fair view of the state of affairs of the entity as at 31 December 2013 and the accompanying statement of comprehensive income, statement of changes in accumulated funds and the statement of cash flow gives a true and fair view of the results and cash flows of the entity for the year then ended.

#### Principal Activities

The principal activities of the entity during the financial year was developing marketing and sales objectives to stimulate increased visits to Fiji by people of other countries, coordinate overseas promotional activities and to ensure Fiji's marketing operations are innovative, effective and efficient to maximize available growth. There has been no change in the nature of these activities during the year.

#### Events subsequent to balance date

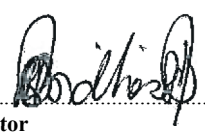

There has not arisen in the interval between the end of the year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors, to affect significantly the operations of the entity, the results of those operations or the state of affairs of the entity in the subsequent financial years.

Notwithstanding the opinions and representations contained in the above Director's Report, the accompanying financial statements of Tourism Fiji (TF) as of and for the year ended 31 December 2013 represent the state of affairs, results and cash flow of Tourism Fiji during a period when the undersigned were not directors of Tourism Fiji and consequently, the undersigned have no knowledge of such matters. The accompanying financial statements were not subjected to an audit or review by the undersigned and accordingly we are unable to, nor do we purport to express an opinion, a conclusion, nor provide any assurance regarding their accuracy

Signed in accordance with a resolution of the directors

Dated at Nadi this 10<sup>th</sup> day of May 2017

  
Chairman

  
Director

## Independent Auditor's Report

### Report on the Audit of the Financial Statements

#### Opinion

I have audited the financial statements of Tourism Fiji, which comprise the statement of financial position as at 31 December 2013, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly the financial position of Tourism Fiji as at 31 December 2013, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

#### Basis of Opinion

I conducted my audit in accordance with International Standards on Auditing (ISA). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of Tourism Fiji in accordance with the International Ethics Standards Board for Accountant's Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to my audit of the financial statements in Fiji and I have fulfilled other ethical responsibilities in accordance with these requirements and the IESBA Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Responsibilities of the Management and Directors for the Financial Statements

The management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRS and Fiji Visitors Bureau Act, 1985 and for such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Tourism Fiji's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management intend to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for overseeing the Tourism Fiji's financial reporting process

#### Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with ISA, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tourism Fiji's internal control.

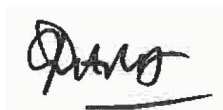

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's and directors' use of going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Tourism Fiji's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures, are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause Tourism Fiji to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the management and directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

#### **Report on Other Legal and Regulatory Requirements**

In accordance with the requirements of the Fiji Visitors Bureau Act, 1985 in my opinion:

- a) proper books of account have been kept by Tourism Fiji, so far as it appears from my examination of those books,
- b) the accompanying financial statements:
  - (i) are in agreement with the books of account; and
  - (ii) to the best of my information and according to the explanations given to me, give the information required by the Fiji Visitor's Bureau Act, 1985 in the manner so required.

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED 31 DECEMBER 2013

---

#### 1. Reporting entity

##### Report on the Audit of the Financial Statements

Tourism Fiji (the 'entity') is a statutory body fully funded by the Fiji government and is the marketing arm of the Ministry of Tourism. The entity has regional offices abroad including Australia, New Zealand, United States of America and Korea. The address of the entity's principal place of business is Suite 107 Colonial Plaza, Namaka, Nadi.

The principal activities of the entity include marketing objectives to stimulate increased visits to Fiji by people of other countries, coordinate overseas promotional activities and to ensure Fiji's marketing operations are innovative, effective, and efficient to maximise available growth..

#### 2. Basis of preparation

##### (a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (JFRSs) adopted by International

The financial statements were approved by the Board of Directors on 25/4/17

##### (b) Functional and presentation currency

The financial statements are presented in Fiji dollars, which is the entity's functional currency.

##### (c) Use of estimates and judgments

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the following notes:

Note 3 (b)	-	Property, plant & equipment
Note 3 (c)	-	Financial instruments
Note 3 (d)	-	Impairment
Note 3 (e)	-	Employee benefits
Note 3 (f)	-	Other payables and provisions

#### 3. Significant accounting policies

The principal accounting policies adopted by the entity are stated to assist in a general understanding of the financial statements.

##### (a) Foreign currency

###### Foreign currency transactions

At the end of the financial period, transactions in foreign currencies are translated to Fiji dollars using the average exchange rates for the year. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Fiji dollars at the exchange rate at that date. The foreign currency gain or loss on translation are recognised in the statement of financial performance.

##### (b) Property, plant and equipment

###### Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

# **TOURISM FIJI**

## **NOTES TO THE FINANCIAL STATEMENTS (CON'T)**

### **FOR THE YEAR ENDED 31 DECEMBER 2013**

---

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment. These are included in the statement of financial performance

#### **Subsequent expenditure**

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefit embodied within the part will flow to the entity and its cost can be measured reliably. The cost of the day-to-day servicing of property, plant and equipment are recognized in the statement of financial performance as incurred.

#### **Depreciation**

Depreciation is recognised in the statement of financial performance on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment.

The Depreciation rates for the current and comparative periods are as follows:

Motor vehicles	25%
Office equipment	5-50%
Furniture and fittings	5-25%

Depreciation methods, useful lives and residual values are reassessed at each reporting date.

#### **(c) Financial instruments**

##### **(i) Non derivative financial instruments**

The entity initially recognises loans and receivables and deposits on the date that they originate.

The entity derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the entity is recognised as a separate asset or liability.

Financial assets and liabilities are offset, and the net amount presented in the statement of financial position when, and only when, the entity has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. The entity has the following non-derivative financial assets held-to-maturity financial assets, loans and receivables and cash and cash equivalents

#### **Held-to-maturity financial assets**

If the entity has the positive intent and ability to hold debt securities to maturity, then such financial assets are classified as held-to-maturity. Held-to-maturity financial assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition held-to-maturity financial assets are measured at amortised cost less any impairment losses. Any sale or reclassification of a more than insignificant amount of held-to-maturity investments not close to their maturity would result in the reclassification of all held-to-maturity investments as available-for-sale, and prevent the entity from classifying investment securities as held-to-maturity for the current and the following two financial periods.

#### **Loans and receivables**

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortised cost less any impairment losses.

#### **Trade and other receivables**

Trade receivables and other assets are measured at initial recognition at fair value. Subsequently, appropriate allowances for estimated irrecoverable amounts are recognised in the statement of financial performance when there is objective evidence that the asset is impaired.

# TOURISM FIJI

## NOTES TO THE FINANCIAL STATEMENTS (CON'T)

### FOR THE YEAR ENDED 31 DECEMBER 2013

---

#### **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand for the purpose of the statement of cash flows

#### **Financial liabilities**

Financial liabilities are classified according to the substance of the contractual arrangements entered into. The entity's financial liabilities include trade and other payables. All financial liabilities, except for derivatives, are recognised initially at their fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial liability and subsequently measured at amortised cost, using effective interest method, unless the effect of discounting would be insignificant, in which case they are stated at cost.

#### **(d) Impairment**

##### **(i) Financial assets**

The carrying amounts of the entity's non-financial assets, inventories and property plant and equipment, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The entity's corporate assets do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined for the CGU to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of financial performance. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### **(e) Employee benefits**

##### *Superannuation*

Contributions are paid to a superannuation fund on behalf of employees to secure retirement benefits. Costs are included in the statement of financial performance.

##### *Short-term benefits*

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed in the statement of financial performance as the related service is provided.

#### **(f) Other payables and provisions**

Other payables are non-interest-bearing and are stated at cost. A provision is recognised in the statement of financial position when the entity has legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

#### **(g) Revenue**

##### **(i) Co-operative promotion and advertising**

Revenue from co-operative promotion and advertising is recognised in the statement of financial performance on an accrual basis.

# **TOURISM FIJI**

## **NOTES TO THE FINANCIAL STATEMENTS (CON'T)**

### **FOR THE YEAR ENDED 31 DECEMBER 2013**

---

**(ii) Grant income**

An unconditional government grant is recognised in statement of financial performance as grant income when the grant is received.

**(h) Finance income and expenses**

Financing income and expenses comprises of interest income on term deposit, bank charges and foreign currency gains or losses.

**(i) Contingent liabilities and contingent assets**

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the entity. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required, or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the accounts. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain events not wholly within the control of the entity.

Contingent assets are not recognised but are disclosed in the notes to the accounts when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognised.

**(j) Comparative information**

Comparative information has been restated where necessary to align with current year presentation.

Events after balance day effects have been shown against the retained earnings. The relevant adjustments are shown in the Statement of Accumulated Funds as well as in the individual branches accounts.

**(k) Inventories**

Inventories comprise of promotional items and are stated at cost. Costs include invoice price plus associated costs. Costs are assigned to individual items of inventory mainly on weighted average basis.

#### **4. Financial risk management**

**Overview**

The entity's operations expose it to financial risks that include liquidity risk, interest rate risk, market risk and credit risk.

The entity has exposure to the following risks from its use of financial instruments:

1. Credit risk
2. Liquidity risk
3. Market risk

This note presents information about the entity's exposure to each of the above risks, the entity's objectives, policies and processes for measuring and managing risk, and the entity's management of capital. Further quantitative disclosures are included throughout these financial statements.

**Risk management framework**

The Board of Directors has overall responsibility for the establishment and oversight of the entity's risk management framework. The entity's risk management policies are established to identify and analyse the risks faced by the entity, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the entity's activities. The entity, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

**Credit risk**

Credit risk is the risk of financial loss to the entity if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the entity's receivables from customers and investment securities.

# TOURISM FIJI

## NOTES TO THE FINANCIAL STATEMENTS (CON'T)

### FOR THE YEAR ENDED 31 DECEMBER 2013

#### Other receivables

The entity's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the entity's customer base, including the default risk of the industry and country in which customers operate has less of an influence on credit risk.

Customers that fail to meet the entity's benchmark creditworthiness may transact with the entity only on a prepayment basis. The entity does not require collateral in respect of other receivables.

The entity establishes an allowance for impairment that represents its estimate of losses in respect of other receivables, deposits and investments. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

			2013 \$	2013 \$
Credit risk concentrations are presented below:				
Other receivables and advances			211,603	418,958
Investments - Term deposits			20,000	20,000

#### Liquidity risk

Liquidity risk is the risk that the entity will not be able to meet its financial obligations as they fall due. The entity's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation.

The entity ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations.

## NOTES TO THE FINANCIAL STATEMENTS (CON'T)

### FOR THE YEAR ENDED 31 DECEMBER 2013

#### Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the entity's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.
