

THE PARLIAMENT OF THE REPUBLIC OF FIJI

WRITTEN QUESTION

10/2020 Hon. Aseri Radrodro to ask the Minister for Infrastructure, Transport, Disaster Management and Meteorological Services – Can the Minister provide to Parliament the total number of households according to Divisions, who have treated piped water provisions and untreated piped water provisions.

Treated water

- Central Division – 81,505 households (metered connection)
- Western Division – 58,107 households (metered connection)
- Northern Division – 15, 267 households (metered connection)

- A total of 154,879 households nationwide

Untreated water

- The Rural communities and villages are receiving untreated water supply.

- However, over the last 5 years, some rural water schemes have been installed with Ecological Purification System (EPS), a natural filtration system that ensures raw water is filtered to improve water quality supplied to these communities.
