COMMISSIONER'S MESSAGE

Sitiveni T. Qiliho Brigadier General Commissioner of Police OF (MIL), CM, MSD, MSc, PG Cert (Sec & Strat), rcds psc

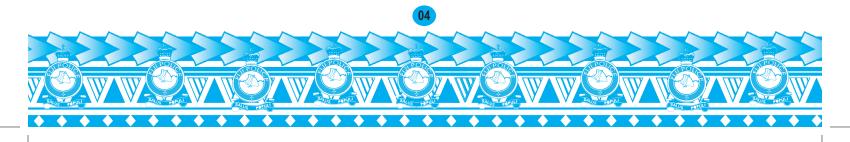

The fiscal year 2019/20 was a challenging one for the Fiji Police Force (FPF). The occurrence of catastrophic events such as the first wave of the global COVID 19 pandemic and the widespread destruction of Cyclone Harold tested our strength and resilience and demanded more of our policing efforts. These events shaped and influenced our operational posture and policing mandate, confirming to us that our operating environment is constantly changing where police services have to adapt and innovate in order to remain viable and relevant.

On this note, I must commend the men and women of the FPF who endeavored to keep our

communities safe despite the unprecedented challenges that encroached our policing front. The fiscal year also saw the passing on of 21 police officers and I stand with our men and women to acknowledge the contribution and dedication these officers have shared with the FPF.

Another main challenge was in our criminal landscape. The fiscal year that was, recorded a reduction in serious crime by 11%, no change in the crime against children, the registration of a 40% illicit drugs, 13% decrease in road fatalities and 93.6% successful prosecution. Despite this positive annual performance, we also recorded a 15% increase in overall crime as a result of many individuals who were apprehended for breaching the COVID 19 protocols. A 2% increase in crime against women and a 8% in complaints against police and police services were also recorded. This, however, did not dampen our policing efforts to continue providing safety and security for all Fijians.

The FPF continued to engage with international policing bodies such as the Pacific Islands Chief of Police (PICP) 48th Conference that was held in Pago Pago, American Samoa, the 39th ASEANAPOL Conference which was convened in Hanoi, Vietnam and the 88th INTERPOL General Assembly Session. A milestone achievement was when the FPF became a member of the International Association of Chiefs of Police (IACP), the world's largest and most influential professional association for Police leaders that had a common commitment in enhancing community safety by shaping the future of the police profession. It was also an honour to assume the lead role for the Pacific Police Training Advisory Group (PPTAG) and also the Deputy Chair for the PICP Executive Leadership Team (ELT). Being part of these engagements was consistent with Fiji's Foreign Policy Goals of enhancing Fiji as the economic hub of the South Pacific including in the fields of governance, transport, education, training and communication.

With regards to Peacekeeping Operations, 37 police officers served in the mission areas of South Sudan, Darfur, Sinai, Iraq and Abeyi in the last fiscal year.

Furthermore, as we strive to become an equal opportunity employer, I am encouraged by that fact that we now have 24% of women employees of the total workforce which is a major step towards ensuring gender equality.

We continued to boost our capability through establishing platforms for better [technical and technological] equipment, work conditions, education and training where we trained 1,446 individuals. Of the 15 courses provided by our Police Academy, a total of 1,428 personnel participated and of the 28 workshops organised, we had 1,133 participants who were part of the forum. Overseas training continued whereby 23 staff members participated. Our Cadet Programme also continued with 10 officers completing the programme successfully.

Subsequently, the sophistication of global organised crimes have infiltrated our shores and we no doubt have stepped up our technological innovations and ongoing liaison with INTERPOL to tackle these threats. Locally, the FPF maintains the Safe City Concept by the installation of CCTV and ongoing drone activities on drug raids, surveillance, track finding and aerial survey to intervene drug networking within Fiji. Other routine operations continued throughout the fiscal year. Moreover, community policing, the backbone of policing efforts today continued with community outreach, establishing crime prevention committees, carnivals, development of the Vodafone msafe & mspeakup, COVID awareness, and the ongoing collaborations with state and non-state actors to prevent crime in society.

I look ahead in adapting a whole of population approach as we join together in keeping our country safe and secure as a mission. The FPF will continue to strive and deliver the services Fijians expect and deserve. This means going back to basics, strengthening who we are as a police force, making a difference and maintaining the trust and confidence of our people.

I am therefore pleased to present this Annual Report.

On 26th July, 2020 UNISFA received its first passengers from Uganda and Ethiopia who were stranded there since the lockdown in April and on self-quarantine. The three (3) major ports of entries i.e. Khartoum (Sudan), Addis Ababa Bole Airport (Ethiopia) and Entebbe (Uganda) slowly opened but under strict measures for all travelers. All staff were tested for COVID-19 by the medical team whilst other COVID precautionary measures were undertaken. From 14th October 2019 to 08 December 2019, two officers were deployed for the Bougainville Referendum Regional Police Support Mission with the Regional Police headed by the New Zealand Police as part of Regional Police support to the Bougainville referendum Process.

During the year in review, all contingent members were in good health and had no welfare issues. There were no disciplinary issues encountered in the mission areas during the year. The Fiji Police Academy has forged a path as an eminent and reputable Law Enforcement Training Provider with a significant record of achievements over the years of its existence. It has witnessed numerous positive developments and confidently makes progress towards achieving the desired objectives.

The FPA is characterized by the diversity in various training aspects and its staffs ensure that the institution keeps abreast with all developments in the police organization. This diversity enables us to prepare our students to be capable of undertaking a wide variety of tasks and duties, as they join their units after graduating.

Today, FPA is considered a notable example of success among its national, regional and international counterparts. FPA is currently in line with the Fijian Governments reform; it has been tasked to fast track the Fiji Police Force 10-year plan to a 5 year "modernization" plan. In doing so, it has witnessed an immense increase to the number of recruits intake along with the continuous recruitment drives to all Divisions around Fiji.

In addition, FPA also continues to implement the Memorandum of Understanding (MoU) between the Fiji Police Force and the other regional countries' Police Force such as Nauru and Tuvalu. This signing further enhances capacity building, strengthening people to people exchanges and training opportunities offered by the Fiji Police Force. Unfortunately, the pandemic hit the country in March, 2020 and all trainings were suspended until COVID restrictions were lifted and COVID safe protocols were put in place.

The Academy continued to serve the training needs of police officers of the Fiji Police Force. Additionally, it provides training on a 'need' basis in other fields as required.

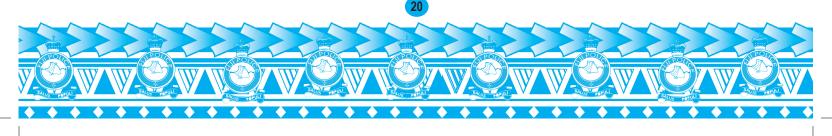

In this fiscal year the FPA provided 16 courses and 8 workshops for police officers and interested stakeholders. A total of 1,446 individuals received training within the year.

Training

The Training Plan for 2019 – 2020, provided guidance in the conduct of trainings. As dictated by the Training Plan, structured courses were conducted at the FPA whilst short programs and workshops were conducted at Divisional levels by the Divisional Training Officers.

Tourist Police Unit (TPU)

The Tourism Industry has been a thriving earner for Fiji Economy from the vast number of tourists that have visited our shores for years on end. The establishment of the Tourist Police Units was to cater for the security and safety of all visitors visiting our shores.

The demand for Tourist Police Units in high density tourist destinations like Nadi, Sigatoka, Lautoka, Taveuni, Savusavu and Suva is expected as our tourists are vulnerable to criminal elements & characters in these locations. However, majority reports was received in the Western Division, a total of 150 reports with SD/CD a total of 65 reports whilst the other divisions recorded less than 5 reports where most of these reports were that of CR, PEP, IR & L& FP – offences mainly of Theft, Robbery, Missing Items.

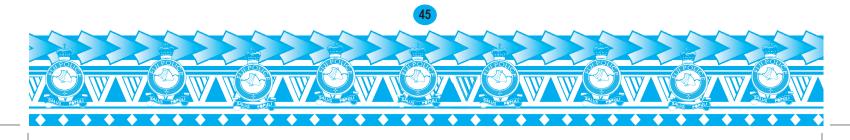

In the 4th Quarter, a gigantic drop of reports were noted especially for the WD. The other divisions faced the same decline in reports for the same quarter. Otherwise, activities were conducted with the available resources on hand to what was expected.

Community Policing

The directorate of Community Policing focused on engaging the community to work in partnership with the Police. Despite the COVID 19 effects on the community, community policing continued to visit communities and created awareness. In order to increase Organizational effectiveness in community service the directorate was driven by two main questions of: How well we serve our community, and how well we are trusted by the community we serve. This has enabled the community strategies and programs to be tailor made to suit the needs on the ground for different communities. This was based on the "DUAVATA" concepts and its five pillars to increase community partnerships.

Know Your Neighbour

Neighbourhood Watch is undoubtedly one of the oldest and most effective crime prevention programs the Fiji Police Force has with members of the community dating back to the early 90's. This Program brings members of the public together with the Fiji Police Force to make their communities safer. It empowers the community to take the lead role in securing their belonging and help looking out for one another.

The program puts aside differences between community members for the sole purposes of securing their homes and intern their neighbour's property. It does not only help the community fight crime but fosters cooperation's with one another. So the Neighbourhood Watch programs not only bridges the gap between the Police and public but also improves and brings together people to people gap in the community.

Neighbourhood watch committees are encouraged that they should not assume the role of the police in enforcing crime. Their duty is to inform neighbours to be alert, observant, and caring and also to report suspicious activities or crimes immediately to the police. This scheme was launched for the committee to be the eyes and ears of the police.

The formation of crime prevention committees was also initiated by police as community groups have created viber groups as a means of communication within their communities. Residence are alerted through viber of any unusual activities or suspicious movement of people.

Crimes need to be properly investigated, wrongdoers need to be quickly identified, and reduction in crime against women and children and cases need to be brought to trial through Criminal Justice System.

To do this, Fiji needs a Police Force that is professional, well equipped and trained, adequately compensated and supported by appropriate technology.
